Grievance Procedures of the Duval County Transportation Disadvantaged Coordinating Board

LOCAL COMPLAINTS AND GRIEVANCES PROCEDURES

All local coordinating boards are required to adopt Complaint and Grievance Procedures. The Duval County Transportation Disadvantaged Coordinating Board adopted these Complaint and Grievance Procedures. Daily service complaints are routine in nature and are usually resolved immediately within the control center of the CTC. However, if left unresolved, a routine service can develop into a formal grievance.

Section 1: Definition of a Complaint
For the purposes of this Committee a complaint is defined as:

"An issue brought to the attention of the Community Transportation Coordinator (CTC) either verbally or in writing by a rider, sponsoring agency, community service provider or the staff of the North Florida Transportation Planning Organization which addresses an issue or several issues concerning transportation services provided by the CTC or subcontractors. Complaints generally relate to the daily operation of the coordinated transportation system and could include late pickups, no shows, the behavior of drivers, clients or reservationists, denial of service or discomfort."

Section 2: Complaint Procedures
The following procedures are established to provide regular opportunities for complaints to be made to the CTC and if necessary brought before the Grievance Committee as a "grievance."

a. Filing a Complaint
The CTC will provide all riders, sponsoring agencies and service providers with a description of the complaint procedure. Grievance procedures are posted in the Rider's Guide and distributed to all clients. Riders can file complaints with the CTC by phone 265-8928, fax 265-8919, email ConnexionComplaint@JTAFLA.com or by regular mail to 100 N. Myrtle Ave., Jacksonville, FL 32204. All complaints must be submitted immediately after the incident and should include the passenger's name and address, date and time of the incident, and a detailed explanation of the incident.
Grievance Procedure

When requested, the CTC will respond in writing to complaints, within 7 business days. Complaints that cannot be resolved to the satisfaction of the complainant can be appealed to the Grievance Committee.

b. Appeal to the Grievance Committee
The CTC shall advise and provide direction to all persons, agencies or entities from which a complaint has been received of their right to file a formal written grievance to the North Florida TPO for review by the Grievance Committee. The CTC will provide the Grievance Committee with a report on each issue or item brought before the Committee and shall conduct additional investigation as required by the Grievance Committee.

c. Recording of Complaints
The CTC will keep a computerized file of all complaints and generate a monthly report identifying emerging patterns of complaints. At minimum this report should identify the number of complaints by type including on-time performance (late trips), safety, vehicle condition, and customer service (driver behavior and reservationist behavior for example).

Written responses to complaints forwarded by any agency will be copied to the agency.

Section 3: Definition of a Grievance
For the purposes of this Committee a grievance is defined as:

“A circumstance or condition thought to be unjust and grounds for a grievance or resentment not resolved by the Community Transportation Coordinator (CTC) through the complaint procedure.” Grievances could include unresolved service complaints, denial of service, suspension of service, and unresolved safety issues.

Issues concerning eligibility determination are the sole responsibility of the entity/authority determining eligibility and are not subject to these grievance procedures. An exemption to the policy is not allowable under the grievance procedure.

Section 4: Grievance Procedures
The following procedures are established to provide regular opportunities for grievances to be brought before the Grievance Committee. The CTC provides copies of the Grievance Procedures to clients who have a service suspension.

a. Filing a Grievance
If a system user, sponsoring agency, community service provider or entity has a grievance with an action taken by the CTC in response to a complaint will present the grievance to the North Florida TPO within thirty (30) days of the written response from the CTC. All grievances must be in writing and shall include the following information:

exceed the current funding level. Every year the Florida Commission for the Transportation Disadvantaged educate the Florida legislature on the critical need of the transportation disadvantaged and to encourage legislation to secure additional funding for the program.

**Duval County Funding Priorities**

The JTA will continue to identify funding sources to acquire new technology that will enhance customer service, reduce operating costs, and improve the ability to coordinate transportation in the region. Vehicle Mobile Data Terminals, Interactive Voice Recognition technology, improved Computer Aided Dispatch/Automated Vehicle Location systems and the acquisition of additional components to the existing scheduling software will be priorities over the next five years.

JTA seeks capital funding and operating assistance from many sources to improve its services, as well as advancing projects forward to construction using local funding for projects such as the BRT east and southwest corridor design projects. Recent projects submitted to the Federal Transit Administration (JTA) would provide for enhanced stations and shelters for the Downtown BRT north corridor design, right of way and construction as well as for the BRT southeast corridor design, right of way and construction; to provide for associated equipment for buses and vans as well as for replacement buses and vans as well as enhanced facilities; to provide for rehabilitation of Skyway facilities, as well as being able to obtain funding through Florida Department of Transportation (FDOT) Service Development Grants that would expand and enhance services, especially for under and unemployed individuals and persons with disabilities.

The projects listed in Table 17A are indicative of the types of federal capital funds currently programmed to benefit the general population of Duval County. It is not a complete list of projects.

Regional Mobility Management Program

JTA has developed an ambitious program for coordinating regional mobility in 13 counties of Northeast Florida. The vision for the regional mobility management program is clear, simple, and achievable:

1) Partner with organizations to improve access to diverse transportation services, improve the rider’s travel experience, and achieve cost savings through regional coordination;

2) Shift the focus from individual agencies to the customer;

3) Emphasize the entire travel experience, not just the time on the vehicle.

The JTA has assembled $3.7 million through federal, state, local, and private sources for the development and implementation of this unique regional mobility management program. The key features to date have not been combined and implemented anywhere else in the U.S. They include: a web-based regional trip-booking and scheduling system; TransPortal, a web-based open source code one call/one click system and regional travel training program. In addition, the program includes coordinated outreach and marketing efforts to promote regionally coordinated service delivery.

The combination of these three key elements and the focus on integrating One Click and regional trip-booking are what makes this program unique and a model for the rest of the country. Deployment of a web-based regional scheduling system is the most technically and politically challenging aspect of the JTA program and its accomplishment is groundbreaking. The web-based regional scheduling system allows staff across the region to book and schedule trips for their clients with the scheduling algorithms identifying and combining regional trips more cost-
Eligibility Criteria for TD Funded Trips

The Duval County Transportation Disadvantaged Coordinating Board has established an eligibility process for the provision of non-sponsored service to Duval County residents. Recognizing that the Non-Sponsored funding is very limited the CTC has decided to recertify clients every THREE years. Clients will need to reapply every THREE (3) years to continue eligibility. If there is change in a customer's financial or medical condition, they should contact eligibility immediately to discuss. Proof of income and medical verification are required to qualify for non-sponsored funding. Upon expiration or failure to re-certify for eligibility, a customer will not be able to utilize transportation until the process is completed. Applications for non-sponsored eligibility determination process requires a multi-step qualification process that substantiates the individual's ability to meet the criteria outlined in Chapter 427, F.S.

The applicants must meet the following criteria:

- Are not eligible for transportation service sponsored or provided by another program or agency as part of an agency's eligible services.

- Must be a resident of Duval County

- Cannot access JTA fixed routes bus service due to a physical or cognitive disability that prevents usage of the fixed route system or qualifies for the fixed route senior fare card.

- Do not have access to a household member's automobile and are therefore transportation dependent on others

  AND

- Have a documented household income which does not exceed 150 percent of the federal poverty guidelines (see Table 19). Household income includes ALL income that an applicant receives prior to disbursement to any assisted living facility or care provider.

Temporary Eligibility for the TD Life Sustaining (TDLS) Program

The CTC will provide temporary eligibility for a period not to exceed 6 months for applicants receiving life sustaining dialysis or oncology/chemo

Contracts with transportation operators allow re-negotiating for up to three years, if adequate service has been provided. The CTC, however, is not bound to renewal and may re-bid services at the end of any contract year. Transportation providers are compensated for the services they provide at varying rates. Some are paid by the vehicle hour for dedicated vehicles or on a per grid or per trip basis for non-dedicated vehicles. The rate per vehicle hour varies by vehicle type and/or capacity. Generally, vans and minivans are more expensive to operate and consequently, are paid at a higher rate than smaller vehicles. To improve cost effectiveness, some providers operate vehicles on a split-shift. That is, they operate only during peak service hours. Split-shift vehicles are paid at a higher rate.

The CTC follows the request for Proposal (RFP) process established by the Jacksonville Transportation Authority to contract with transportation operators. A sample copy of a Request for Proposal from JTA is included in Appendix D.
2. Public Transit Utilization

Fixed-Route Bus Service

In addition to paratransit service, the coordinated transportation system also issues single use tickets and monthly passes for the fixed-route bus service provided by the Jacksonville Transportation Authority (JTA). Passengers who live within 3/4 mile of a JTA fixed-route bus line are required to use the bus if they are physically capable of boarding and exiting the vehicle. The entire JTA bus fleet is wheelchair accessible. The JTA currently operates 37 local bus routes of which 6 are Express Bus routes.
least 95 percent of all trips will be performed on-time. Scheduling initiatives and carrier eligibility for performance incentives will be used to work toward this goal.

q. Out of Service Area

The Duval County Transportation Disadvantaged Coordinating Board has established that limited out-of-County trips are eligible under the Transportation Disadvantaged (TD) non-sponsored program. Out-of-county trips are considered on a case by case basis for medical trips only. No trips will exceed 15 miles from the Duval County line. The CTC reserves the right to ask a person to travel to the closest medical provider or to one that is within the TD service area (Duval County).

r. Passenger Assistance

The driver shall assist passengers boarding and exiting the vehicle. If necessary or requested assistance can also be provided to the seating position, fastening the seatbelt, securing the wheelchair, storing mobility assistance devices and closing the vehicle door.

The driver shall provide the passenger with boarding assistance, if necessary or requested, to the seating portion of the vehicle. The boarding assistance shall include opening the vehicle door, fastening the seat belt or utilization of wheelchair securement devices, storage of mobility assistive devices and closing the vehicle door. The driver may open and close doors to buildings, if requested by the passenger, except in situations in which assistance in opening/closing building doors would not be safe for passengers remaining on the vehicle. Assisted access must be in a dignified manner. Drivers shall not assist wheelchair up or down stairs.
These are trips for passengers making frequent, regularly scheduled trips to day programs within a defined service area. Under the group classification, five or more passengers must be traveling together on the same vehicle to or from a single destination.
