OVERVIEW

The North Florida Transportation Planning Organization (North Florida TPO) Transportation Improvement Program (TIP) for Fiscal Years 2026/2027 through 2030/2031 begins with preparing a *"List of Priority Projects"* to be used in developing the Florida Department of Transportation's (FDOT) Tentative Five Year Work Program. The *"List of Priority Projects"* identifies potential projects to be funded in the new fifth year (2030/2031) of the FDOT Work Program. However, by creating the Strategic Intermodal System (SIS) and the Transportation Regional Incentive Program (TRIP) in Florida, the *"List of Priority Projects"* now includes potential projects to be funded in other years of the FDOT Work Program under the SIS and TRIP programs. The *"List of Priority Projects"* includes a prioritized listing of state highway, mass transit, aviation, intermodal, Transportation Alternative Program (TAP) and Transportation Regional Incentive Program (TRIP) projects.

The North Florida TPO expects all projects currently programmed in the FDOT Work Program to advance to the next development phase. This will ensure that the 3-C planning process (continuing, cooperative, and comprehensive) in the North Florida TPO area is being implemented, as required by federal and state statutes. If FDOT cannot complete the programmed phase and advance the project to the next logical phase, it is incumbent that the agency provides an explanation to the North Florida TPO.

PROJECT PHASING

- Project Development and Environment (PD&E)
- Preliminary Engineering (PE)
- Right-of-Way (ROW)
- Construction (CST)

2050 LONG RANGE TRANSPORTATION PLAN

On November 14, 2024 the North Florida TPO adopted Path Forward 2050, a fiscally constrained Long Range Transportation Plan for Clay, Duval, Nassau and St. Johns Counties. Concurrent with this effort the following documents were prepared:

- **Environmental Justice and Environmental Mitigation**

The North TPO uses a three-step approach to environmental justice evaluation within the 2050 LRTP. This involves defining environmental justice areas within the region, identifying 2050 needs plan projects within these areas, and providing strategies to ensure these communities are not negatively impacted. This approach ensures that transportation planning is equitable and inclusive, addressing the needs and concerns of disadvantaged communities.

Projects that lie in Environment Justice Areas are indicated on the List of Region-Wide Priority Projects. Supporting documentation is available on the TPO's website.

- Region-wide priority projects in at risk areas in this report are identified by Environmental Justice areas.

- **Regional Strategic Safety Plan**

- This plan was updated. It identifies high crash corridors, high crash intersections and corridors with a high incidence of bicycle and pedestrian crashes. High crash corridors are identified on the List of Region-Wide Priority Projects. Supporting documentation is available at: <https://northfloridatpo.com/uploads/Studies/Strategic-Safety-Plan.pdf>

- Region-wide priority projects on HIGH CRASH CORRIDORS are identified as such.

- **Congestion Management Process**

- The Congestion Management Process was updated in 2024. Supporting documentation is available at: <https://northfloridatpo.com/uploads/North-Florida-TPO-2024-CMP.pdf>

All documentation for the 2050 Long Range Transportation Plan is available on the TPO website

LIST OF PRIORITY PROJECTS PROCESS

Develop List of Candidate Projects (*January*)

 - Concurrency Management Process
 - Public Input
2. Project Ranking (*February*)
 - Unless otherwise indicated, projects were initially prioritized in Path Forward 2050, the North Florida TPO's Long Range Transportation Plan adopted November 14, 2024
 - TPO Staff works with local governments to develop a preliminary List of Priority Projects to submit to the Technical Advisory Committee (TAC), Citizens Advisory Committee (CAC) and Transportation Planning Organization (TPO) Board for review and approval at the March TAC, CAC and TPO Board Meetings.
 - Mass transit and aviation projects are prioritized by the submitting agencies and are forwarded to the North Florida TPO to include in the LOPP Document.
3. Adopting the List of Priority Projects (*March*)
 - Following approval by the North Florida TPO, the List of Priority Projects is submitted to FDOT for use in developing the Five-Year Tentative Work Program.
