Section A8 - Transportation Disadvantaged (Appendix VIII)	A8-1
Section A9 - FHWA Eastern Federal Lands Highway Division (Appendix IX)	A9-1
Section A10 – Transportation Performance Measures (Appendix X)	A10-1

EXECUTIVE SUMMARY

PURPOSE

The Transportation Improvement Program (TIP) is a staged multi-year program of transportation project improvements to be implemented during the next five-year period in the North Florida TPO area which will be funded by Title 23 U.S.C. and 49 U.S.C Chapter 53 funds and includes all regionally significant projects regardless of funding source. In addition, for information purposes and air quality conformity analysis, the TIP identifies all regionally significant transportation projects requiring Federal Highway Administration (FHWA) and/or Federal Transit Administration (FTA) approval, regardless of funding source(s), as defined in 40 CFR 51.392. The TIP also includes a listing of projects that are financed with non-federal dollars, which assist local governments within the North Florida TPO area with their transportation planning efforts. Projects listed in the TIP include recommended improvements consistent with the approved 2045 Long Range Transportation Plan and the adopted comprehensive plans of member local governments within the North Florida TPO area. In addition, non-federally funded projects are included for information.

TIME FRAME

This document includes a five-year implementation schedule for Fiscal Year 2024/2025 through Fiscal Year 2028/2029. Herein, Fiscal Year July 1, 2024 to June 30, 2025 pertains to the Florida Department of Transportation (FDOT). All other agency projects proposed within the five-year TIP are based upon the fiscal year beginning October 1 through September 30.

FINANCIAL PLAN

The TIP is financially constrained for each year. Federally funded projects identified in the TIP can be implemented using current and proposed revenue sources based on the FDOT Tentative Work Program and locally dedicated transportation revenues. In section II a five-year financial summary of federal and non-federal funded projects is included in the TIP. This summary provides a listing of the federal funding codes as well as the dollar amounts allocated to each by fiscal year. Also included in the financial summary by funding code is a project list to be implemented, project description, phasing schedule by fiscal year, and the amount of funds allocated.

To further ensure the financial soundness of the TIP, all projects funded by the FDOT with federal or non-federal dollars are considered committed projects if included in the first three years of the FDOT Five-Year Work Program. Section 339.135 (4)(b)(5) Florida Statutes mandates that the FDOT Work Program includes a balanced 36-month forecast of cash and expenditures and a five-year finance plan supporting the Work Program. All local government projects (non-federally funded) that are included in the TIP are part of a member local government's capital improvement program. Non-federally funded projects with funding in the first year of local government

capital improvement elements or capital improvement programs are considered to be committed projects, as indicated in Appendix II of the TIP. Additional projects that would be included in the approved TIP if reasonable additional resources beyond those identified in the financial plan were available may be identified pursuant to s.339.175(8)(c)(3), F.S.

The TIP is developed by the TPO in cooperation with the State and the public transit operator, who will provide the TPO with estimates of Federal and State funds for the TPO to develop the financial plan.

YEAR OF EXPENDITURE (YOE)

The TIP is presented in Year of Expenditure (YOE) dollars, which are adjusted for inflation from the present time to the expected year of construction. Using YOE ensures that the more accurate cost estimates are used in planning, programming and implementing projects.

Planning regulations require that revenue and cost estimates in the Long Range Transportation Plan (LRTP), State Transportation Improvement Program (STIP) and the TIP must use inflation or growth rate(s) to reflect “year of expenditure dollars,” based on reasonable financial principles and information, developed cooperatively by the State, MPOs and public transportation operators.

CONSISTENCY

All projects in the TIP are supported and documented in the 2045 LRTP adopted November 14, 2019. Regionally significant projects have individual LRTP reference numbers in each TIP item. All other projects are supported in the 2045 LRTP in the Goals and Objectives found in Appendix III. To the maximum extent feasible, projects are consistent with port and aviation master plans, public transit developments plans and approved local government comprehensive plans.

The TIP projects are also consistent with the State Freight Plan and Asset Management Plan. Here are the links to those plans:

<https://www.fdot.gov/rail/plandev/freight-mobility-and-trade-plan> and

<https://fdotwww.blob.core.windows.net/sitefinity/docs/default-source/planning/tamp/fdot-tamp.pdf>

PROJECT PRIORITY STATEMENT

The TIP for Fiscal Years 2024/2025 through 2028/2029 begins with the *List of Priority Projects (LOPP)* which is used in developing the Florida Department of Transportation's (FDOT) Tentative Five-Year Work Program FY 2024/25 – 2028/29. The LOPP identifies potential projects to be funded in the new fifth year (FY 2028/2029) of the FDOT Work Program.

Projects are first prioritized in the LRTP. Prioritization is detailed in <https://northfloridatpo.com/planning/lrtp-2045> The LOPP is submitted annually to FDOT to recommend inclusion of candidate projects in the FDOT Program. The LOPP includes a prioritized listing of state highway, mass transit, aviation, intermodal, and Transportation Alternative Program (TAP) and TRIP projects.

Projects selected are consistent with provisions of the Infrastructure Investment and Jobs Act (IIJA), the Florida Department of Transportation's Adopted Five Year Work Program, and federal requirements including 23 C.F.R 450.332(c).. The projects are financially feasible for the appropriate funding category and represent the North Florida TPO's priorities. The FY 2024/2025 through 2028/2029 TIP is consistent with the adopted 2045 LRTP.

The LOPP process is as follows:

1) Develop List of Candidate Projects (*December – January*)

a) A list of candidate projects is developed from the following:

- Projects in the previous year List of Priority Projects not funded through construction.
- Local County/City submittals within the North Florida TPO area
- Local Airport and Transit Authority submittals within the North Florida TPO area
- Congestion Management Process
- Public Input

2) Ranking the List of Candidate Projects (*February*)

a) Unless otherwise indicated, projects were initially prioritized in Path Forward 2045, the North Florida TPO's Long Range Transportation Plan adopted November 14, 2019

b) TPO Staff works with local governments to develop a preliminary List of Priority Projects to submit to the Technical Advisory Committee (TAC), Citizens Advisory Committee (CAC) and Transportation Planning Organization (TPO) Board for review and approval at the March TAC, CAC and TPO Board Meetings.

c) Mass transit and aviation projects are prioritized by the submitting agencies and are forwarded to the North Florida TPO to include in the LOPP Document.

3) TPO Board approval and submittal of the *List of Priority Projects to FDOT (March)*

PUBLIC PARTICIPATION

As a result of the North Florida TPO Public Participation Process, developed and adopted pursuant to the requirements of 23 CFR 450.316(b)(1), the North Florida TPO is committed to effective and enhanced public involvement in developing its plans and programs. Public input into the TIP, schedule for the months of April and May 2024, is accomplished by a combination of the following:

While developing the TIP, County-specific PowerPoint virtual presentations will be delivered for Clay, Duval, Nassau and St Johns Counties as well as a Regional TIP Virtual public meeting. Recordings of these presentations will be posted online. The TIP will be presented at the North Florida TPO TAC, CAC and Board meetings for input and feedback.

The TIP will be developed with reasonable opportunity for public comment in accordance with the requirements of 23 CFR 450.316 and 23 C.F.R 450.326(b). In addition of sharing the TIP meeting information with TPO Committees and county / city contacts (Public Information Officers in the TPO area), our public involvement efforts will include promoting the virtual presentations through the TPO's e-newsletter, newspaper advertising, TPO's social media, as well as through local digital news media.

The draft TIP will be made available to the general public and groups' identified above for review and comments via the TPO website in a PDF format: <http://northfloridatpo.com/>. In addition, we are introducing this year our new Interactive TIP tool with a public facing website: <https://northfloridatpo.ecointeractive.com/home/>. To increase our efficiency and transparency, the Interactive TIP Tool will not only allow the public to see proposed changes before they are adopted but will provide more project information, regular updates, and the opportunity for the public to ask questions or provide comments on projects and changes. Finally, a web-based public involvement tool <https://publicinput.com/tip2024> will be used to gather input. All comments and responses will be documented in Appendix VI. Comments will be forwarded to the responsible agency.

TIP MODIFICATION AND AMENDMENT PROCESS

The TIP modification and amendment process is outlined in the North Florida TPO Public Participation Plan on the TPO website: https://northfloridatpo.com/uploads/TPO-Public-Participation-Plan-2023-Update_2023-02-28-155023_tquy.pdf

CERTIFICATION

The North Florida TPO's Federal Transportation Management Area (TMA) quadrennial certification review was conducted virtually on May 5, 2020. FHWA and FTA jointly certified that the transportation planning process of the North Florida TPO, substantially meets the federal planning requirements in 23 CFR 450 Subpart C. This certification remains in effect until September 2024. The TPO is currently

undergoing the Federal TMA certification review and the outcome will be made available at the completion of the review anticipated in September 2024.

In the interim of the Federal quadrennial review process, the North Florida TPO and FDOT annually conducts a Joint Certification, which was last completed April 11, 2024.

MANAGEMENT SYSTEMS

The North Florida TPO Congestion Management Process (CMP) was updated in June 2019. It is currently being revised concurrent with the LRTP update. The CMP identifies many improvements that can enhance traffic operations, decrease congestion, and improve the travel environment. These improvements include transportation demand management (TDM) strategies, strategies to promote increased transit, bicycle and pedestrian travel, and strategies that provide for more efficient traffic operations. Traffic operations and access management strategies include Intelligent Transportation Systems (ITS) and emerging technology solutions. These strategies are being incorporated into the TIP as funding becomes available. The projects that are included in this TIP are consistent with the Congestion Management System, as well as the projects that were advanced from previous TIPs.

All capital improvement projects on identified congestion management corridors and/or hot spots will be considered for congestion management. The TPO staff along with the committees and board identify projects from the CMP to be included in the TIP based on the following criteria: 1) identify high priority projects based on the ranking provided for the congested corridors within the CMP; and 2) obtain stakeholder input on the projects identified and refine the order based on their input. The projects listed in the TIP identify a funding source to implement the proposed improvement(s) on the selected congested corridors.

FULL PROJECT COSTS AND OTHER PROJECT DETAILS

Strategic Intermodal System (SIS) Projects

The normal project production sequence is to have a Project Development and Environment (PD&E) phase, a Design (PE) phase, a Right of Way (ROW) phase and a Construction (CST) or Design Build (DSB) phase. Some projects may not have a ROW phase, if land is not needed to complete the project. Costs on the TIP pages for projects on the SIS will have historical costs, five years of the current TIP and five years beyond the current TIP, which may or may not be the total project cost. If there is no CST or DSB phase on the TIP page, then the entry will probably not reflect the total project cost. For some projects, such as resurfacing, safety or operational projects, there may not be a total cost provided but rather additional details on that program.

The SIS is a network of high priority transportation facilities which includes the state's largest and most significant commercial service airports, spaceport, deepwater seaports, freight rail terminals, passenger rail and intercity bus terminals, rail corridors, waterways and

highways. All projects on the SIS will have a SIS identifier on the TIP page. For costs beyond the 10-year window, access to the Long Range Transportation Plan (LRTP) is provided. The link to the North Florida TPO Long Range Transportation Plan is <https://northfloridatpo.com/uploads/2045-LRTP-Summary-Report.pdf>. The LRTP reference on the TIP page is from the Path Forward 2045 LRTP Project Master List located in Appendix II and provides details regarding the project in the LRTP. Full project cost information can be found in Appendix VII of the TIP document. If there is no LRTP reference in the TIP, total project costs are provided in the TIP.

Non SIS projects

The normal project production sequence is to have a Project Development and Environment (PD&E) phase, a Design (PE) phase, a Right of Way (ROW) phase and a Construction (CST) phase. Some projects may not have a ROW phase, if land is not needed to complete the project. Costs on the TIP pages for projects not on the SIS will have historical costs and five years of the current TIP, which may or may not be the total project cost. If there is no CST phase on the TIP page, then the entry will probably not reflect the total project cost. For some projects, such as resurfacing, safety or operational projects, there may not be a total cost provided but rather additional details on that program.

Total project costs and other project details will be accessible on the TIP for all non SIS projects in the TIP. All projects not on the SIS will have a Non-SIS identifier on the TIP page.

For costs beyond the five-year window, access to the LRTP is provided. The link to the North Florida TPO Long Range Transportation Plan is <https://northfloridatpo.com/uploads/2045-LRTP-Summary-Report.pdf>. The LRTP reference on the TIP page is from the Path Forward 2045 LRTP Master Project List located in Appendix II and provides details regarding the project in the LRTP. Full project cost information can be found in Appendix VII of the TIP document. If there is no LRTP reference in the TIP, total project costs are provided in the TIP.

TRANSPORTATION DISADVANTAGED

According to Rule 41-2.009(2), Florida Administrative Code, and Subsection 427.015(1), Florida Statutes, a transportation disadvantaged element will be included in the Metropolitan Planning Organization's Transportation Improvement Program. This element is required to include:

"a project and program description, the planned costs and anticipated revenues for the services, identification of the year the project or services are to be undertaken and implemented and assurances that there has been coordination with local public transit and local government comprehensive planning bodies."

Appendix VIII identifies the Transportation Disadvantaged project funding (TDTF) for the Clay, Duval, Nassau and St. Johns Counties. TDTF is 80% federal / 20% state. These funds are allocated to the Community Transportation Coordinator in each county. The Northeast Florida Regional Council serves as the designated official planning agency in coordinating transportation services for the transportation disadvantaged in Clay, Duval, Nassau and St. Johns Counties.

If you have any questions or comments pertaining to TPO plan, programs or projects **please contact us** at (904) 306-7500. Our address is 980 North Jefferson St., Jacksonville, FL 32209. For complaints, questions or concerns about civil rights or non-discrimination, or for special requests under the Americans with Disabilities Act, please contact **Marci Larson**, Public Affairs Manager/ Title VI Coordinator at (904) 306-7513 or mlarson@northfloridatpo.com

APPENDIX III

Path Forward Goals and Objectives

Path Forward 2045 Goals, Objectives, and Policies

It is North Florida Transportation Planning Organization's (TPO's) mission is to provide a regional forum for developing a transportation system that moves people and goods safely, economically and efficiently while maintaining a high quality of life in North Florida. The TPO's vision is to promote the regional optimization of mobility consistent with the values of local communities through the Long Range Transportation Plan (LRTP). The LRTP indicates the transportation improvements necessary for optimal movement of people and goods, based on current needs and forecasted future growth. The recommended transportation improvement projects in the plan are guided by defined goals, objectives, and performance measures.

Specifically, the LRTP goals and objectives are to enhance the following:

- Economic Competitiveness
- Livability
- Safety
- Mobility and Accessibility
- Equity in Decision Making
- System Preservation
- Resilient Multimodal Infrastructure
- Tourism Transport Management

The goals, objectives, and performance measures proposed are based on the transportation user's point of view as explained in the document below. The order of the goals and objectives do not indicate priority.

GOAL I: INVEST IN PROJECTS THAT ENHANCE ECONOMIC COMPETITIVENESS

Investing in projects that enhance economic competitiveness focusing on improving the following: travel time reliability (the most important factor for freight operators), enhance access to jobs, and maximizing return on investment.

The objectives associated with this enhancing economic competitiveness are listed below.

- **OBJECTIVE 1.1:** Improve travel reliability on major freight routes.

Performance Measure		Benchmark
I.1.1	Truck Travel Time Reliability The sum of maximum Truck Travel Time Reliability (TTTR) for each reporting segment, divided by the total Interstate System miles	Maintain or improve Truck Travel Time Reliability Calculation is only available on corridors with Blue Toad devices (I-10, I-95, SR 10, SR 21, SR 200, US 17, US 90, SR 13, I-295, US 1) Existing values are reported in the Congestion Management Process.

- **OBJECTIVE 1.2:** Enhance access to jobs, services, and retail for all.

Performance Measure		Benchmark
I.2.1	Jobs within a half mile of a major arterial	Maintain or improve access to jobs Existing value is reported in the Congestion Management Process.
I.2.2	Projects that enhance access to jobs through transit	Evaluation of projects/scenarios

- **OBJECTIVE 1.3:** Maximize return on investment.

Performance Measure		Benchmark
I.3.1	Benefit/Cost ratio	Rank benefit to cost ratio in evaluation of projects/scenarios
I.3.2	Return on Investment	Rank return on investment in evaluation of projects/scenarios

GOAL 2: INVEST IN LIVABLE AND SUSTAINABLE COMMUNITIES

There is no single definition of what constitutes a “livable” or “sustainable” transportation system. However, the North Florida TPO has adopted the following definition of a sustainable transportation system endorsed by the Transportation Research Board Sustainable Transportation Indicators Subcommittee:

*Allows the **basic access** and development needs of individuals, companies, and society to be met **safely** and in a manner consistent with **human and ecosystem health** and **promotes equity** within and between successive generations.*

*Is **affordable**, operates fairly and **efficiently**, offers a **choice of transportation modes**, and supports a **competitive economy**, as well as **balanced regional development**.*

***Limits air, water, noise emissions, waste and resource use.** Limits emissions and waste within the planet’s ability to absorb them, uses renewable resources at or below their rates of generation, and uses non-renewable resources at or below the rates of development of renewable substitutes, while minimizing the impact on the use of land and the generation of noise.*

The goals associated with livability and sustainability are listed below.

- **OBJECTIVE 2.1:** Enhance transit accessibility.

Performance Measure		Benchmark
2.1.1	Percent of Population within a quarter mile walk of a transit stop	Maintain or improve the percent of population within a quarter mile walk of a transit stop. Existing value is reported in the Congestion Management Process.
2.1.2	Population within 5 miles of park and ride lots	Maintain or improve the population within 5 miles of park and ride lots. Existing value is reported in the Congestion Management Process.

- **OBJECTIVE 2.2:** Enhance transit ridership.

Performance Measure		Benchmark
2.2.1	Passengers per vehicle revenue mile	Maintain or improve passengers per revenue mile. Existing value is reported in the Congestion Management Process.
2.2.2	Passengers per vehicle revenue hour	Maintain or improve passengers per revenue hour. Existing value is reported in the Congestion Management Process.

- **OBJECTIVE 2.3:** Enhance bicycle and pedestrian quality of service.

Performance Measure		Benchmark
2.3.1	Lane miles with bicycle and pedestrian facilities	Maintain or improve lane miles with bicycle and pedestrian facilities. Existing values are reported in the Congestion Management Process.

- **OBJECTIVE 2.4:** Reduce the cost of congestion per capita.

Performance Measure		Benchmark
2.4.1	Cost of congestion	Maintain or reduce the cost of congestion. Existing value is reported in the Congestion Management Process.
2.4.2	Congestion cost per capita	Maintain or reduce congestion cost per capita. Existing value is reported in the Congestion Management Process.

- **OBJECTIVE 2.5:** Reduce the impacts of investments on the natural environment.

Performance Measure		Benchmark
2.5.1	Environmental screening and mitigation	Apply Efficient Transportation Decision Making Process to all projects in LRTP.

- **OBJECTIVE 2.6:** Reduce emissions from automobiles.

Performance Measure		Benchmark
2.6.1	Carbon dioxide, nitrous oxides, and volatile organic compound emissions due to reduced delay.	Estimate emission reduction due to reduced delay in the evaluation of projects/scenarios. Existing value is reported in the Congestion Management Process.
2.6.2	Emissions due to vehicle electrification	Estimate emission reduction due to electrification of the vehicle fleet. ¹

¹The TPO has an Alternative Fuels Master Plan and a Clean Fuels Program promoting alternative fuels and alternative fuel vehicles.

- **OBJECTIVE 2.7:** Ensure consistency with land use planning.

Performance Measure		Benchmark
---------------------	--	-----------

2.7.1	Includes active transportation design principles in context sensitive solutions	Include walkability standards in context sensitive solutions.
2.7.2	Land Use scenarios are consistent with county comprehensive plans	Ensure consistency with comprehensive plans.

- **OBJECTIVE 2.8:** Support regional evacuation needs.

Performance Measure		Benchmark
2.8.1	Projects that improve evacuation routes.	Evaluation of projects/scenarios.

- **OBJECTIVE 2.9:** Support micro transit, mobility as a service (MaaS) and other new and innovative transit options

GOAL 3: ENCOURAGE SAFE AND SECURE TRAVEL

Investing in projects that enhance safety will lead to reduced crashes and lower crash severity for all modes.

- **OBJECTIVE 3.1:** Reduce crashes for all modes.

Performance Measure		Benchmark
3.1.1	Number of vehicle crashes	Reduce the number of vehicle crashes. Existing value is reported in the Congestion Management Process.
3.1.2	Crash rate per million vehicle miles	Reduce the crashes rate. Existing value is reported in the Congestion Management Process.
3.1.3	Number of serious injuries	Reduce the crashes rate. Existing value is reported in the Congestion Management Process.

3.1.4	Rate of serious injuries per million vehicle miles	Reduce the number of serious injuries. Existing value is reported in the Congestion Management Process.
3.1.5	Number of non-motorized fatalities and non-motorized serious injuries	Reduce the number of non-motorized fatalities and non-motorized serious injuries. Existing value is reported in the Congestion Management Process.
3.1.6	Number of bicycle crashes	Reduce the number of bicycle crashes. Existing value is reported in the Congestion Management Process.
3.1.7	Number of pedestrian crashes	Reduce the number of pedestrian crashes. Existing value is reported in the Congestion Management Process.

- **OBJECTIVE 3.2:** Reduce fatal crashes for all modes.

Performance Measure		Benchmark
3.2.1	Number of fatalities	Reduce the number of fatalities. Existing value is reported in the Congestion Management Process.
3.2.2	Fatality rate per million vehicle miles	Reduce the fatality rate. Existing value is reported in the Congestion Management Process.
3.2.3	Number of bicycle fatalities	Reduce the number of bicycle fatalities. Existing value is reported in the Congestion Management Process.
3.2.4	Number of pedestrian fatalities	Reduce the number of pedestrian fatalities. Existing value is reported in the Congestion Management Process.

- **OBJECTIVE 3.3:** Promote the implementation of safety and security improvements in the design or retrofit of all transportation systems.

Performance Measure		
3.3.1	Implemented safety measures on high crash corridors identified in the Regional Strategic Safety Plan.	Reported in the Regional Strategic Safety Plan.

- **OBJECTIVE 3.4:** Enhance security for all modes through the appropriate use of authorized access, surveillance systems and Intelligent Transportation Systems (ITS).

Performance Measure		
3.4.1	All transit projects are required to have a Threat and Vulnerability Assessment.	A Threat and Vulnerability Assessment considers the full spectrum of threats (natural, criminal, terrorist, accidental, etc)

		for a given facility/location as well as the vulnerability of the facility/location to an attack.
--	--	---

GOAL 4: ENHANCE MOBILITY AND ACCESSIBILITY

Enhancing mobility includes addressing the four dimensions of mobility – quantity of travel, quality of travel, system accessibility and system utilization. Several of these measures also support other goals and objectives (such as livability and sustainability).

Mobility is about more than increasing the volume of persons served and managing congestion. Users want a less stressful commute, but they also want improved reliability of their travel, more choices including transit, walking, and bicycling and to ensure we optimize system operations before we invest in new infrastructure. Understanding the trade-offs of these goals in the context of each corridor being considered is an essential element to identifying the right mobility solution for any project.

- **OBJECTIVE 4.1:** Optimize the quantity of travel.

Performance Measure		Benchmark
4.1.1	Vehicle-miles traveled	Generally, increases in the quantity traveled (throughout) are preferred. However, consistent with livability and sustainability goals, one objective is to reduce the amount of travel needed. Therefore, no benchmarks are proposed, but monitoring is recommended. Existing values are reported in the Congestion Management Process.
4.1.2	Person-miles traveled	
4.1.3	Truck-miles traveled	
4.1.4	Vehicle Occupancy	
4.1.5	Transit ridership	Increase transit ridership Existing values are reported in the Congestion Management Process.

- **OBJECTIVE 4.2:** Optimize the quality of travel.

Performance Measure		Benchmark
4.2.1	Average Travel Speed	Maintain or improve the average travel speed Existing value is reported in the Congestion Management Process.

4.2.2	Average Vehicle Delay	Maintain or reduce the average vehicle delay Existing value is reported in the Congestion Management Process.
4.2.3	Average Commute Time	Maintain or reduce the average commute time Existing value is reported in the Congestion Management Process.

Performance Measure		Benchmark
4.2.4	Interstate Level of Travel Time Reliability - Percent of person-miles traveled on the Interstate that are Reliable	Maintain or improve the Interstate Level of Travel Time Reliability. Calculation is only available on corridors with Blue Toad devices (I-10, I-95, I-295) Existing values are reported in the Congestion Management Process.
4.2.5	Non-Interstate Level of Travel Time Reliability - Percent of person-miles traveled on the Non-Interstate that are Reliable	Maintain or improve the Non-Interstate Level of Travel Time Reliability. Calculation is only available on corridors with Blue Toad devices (SR 10, SR 21, SR 200, US 17, US 90, SR 13, US 1) Existing values are reported in the Congestion Management Process.
4.2.5	Level of service on rural facilities	Maintain the level of service standard (FDOT standard for Strategic Intermodal System facilities and local government standards for other facilities) Existing values are reported in the Congestion Management Process.

- **OBJECTIVE 4.3:** Improve the accessibility to mode choices.

Performance Measure		Benchmark
4.3.1	Percent of system miles with bicycle accommodations	Maintain or improve the percent of system miles with bicycle accommodations. Existing value is reported in the Congestion Management Process.

4.3.2	Percent of system miles with pedestrian accommodations	Maintain or improve the percent of system miles with pedestrian accommodations. Existing value is reported in the Congestion Management Process.
4.3.3	Transit coverage – Percent of population within quarter mile of a transit route	Increase the percent of population within quarter mile of a transit route. Existing value is reported in the Congestion Management Process.

- **OBJECTIVE 4.4:** Optimize the utilization of the system.

Performance Measure		Benchmark
4.4.1	Percent of system heavily congested	Maintain or reduce the percent of system heavily congested. Existing value is reported in the Congestion Management Process.
4.4.2	Percent of travel heavily congested	Maintain or reduce the percent of travel heavily congested. Existing value is reported in the Congestion Management Process.
4.4.3	Vehicles per lane mile	Optimize the vehicles per lane mile for a desired LOS Existing value is reported in the Congestion Management Process.
4.4.4	Duration of congestion	Maintain or reduce the duration of congestion Existing value is reported in the Congestion Management Process.
4.4.5	Transit average load (Passengers per transit vehicle)	Optimize the transit average load for a desired quality of service Existing value is reported in the Congestion Management Process.

GOAL 5: ENHANCE EQUITY IN DECISION MAKING

Enhancing equity in decision making emphasizes the principle of 'Environmental Justice'. The United States Environmental Protection Agency (EPA) defines Environmental Justice as follows.

Environmental Justice is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies. EPA has this goal for all communities and persons across this Nation [sic]. It will be achieved when everyone enjoys the same degree of protection from environmental and health hazards and equal access to the decision-making process to have a healthy environment in which to live, learn, and work.

Additionally, the United States Department of Transportation defines three fundamental Environmental Justice principles for the Federal Highway Administration and the Federal Transit Administration as follows:

- 1. To avoid, minimize, or mitigate disproportionately high and adverse human health and environmental effects, including social and economic effects, on minority populations and low-income populations.*
- 2. To ensure the full and fair participation by all potentially affected communities in the transportation decision-making process.*
- 3. To prevent the denial of, reduction in, or significant delay in the receipt of benefits by minority and low-income populations.*

To address these goals, these three principles are adopted as objectives for this LRTP listed below. The performance measures associated with each objective are less quantifiable than the objectives associated with other goals and are more process oriented. These three factors will be considered as part of the Needs Plan and Cost Feasible Plan and will be implemented using Geographic Information Systems techniques to identify the minority and low-income populations and by designing outreach programs to involve minority and low-income populations.

- **OBJECTIVE 5.1:** Avoid, minimize, or mitigate disproportionately high and adverse human health and environmental effects (including social and economic effects) on minority and low-income populations.

The performance of this objective is qualitative.

- **OBJECTIVE 5.2:** Ensure full and fair participation by all potentially affected communities in the transportation decision-making process.

Performance Measure

5.2.1	Adherence to the Public Involvement Plan
-------	--

- **OBJECTIVE 5.3:** Prevent the denial of, reduction in, or significant delay of the receipt of benefits by minority and low-income populations.

Performance Measure		Benchmark
5.3.1	Number of projects in low income and minority census tracts	Evaluation of projects/scenario

- **OBJECTIVE 5.4:** Provide Ladders of Opportunity.

Performance Measure		Benchmark
5.4.1	Number of projects in low income and minority census tracts	Evaluation of projects/scenario
5.4.2	Jobs within a half mile of a state road	Maintain or improve access to jobs Existing value is reported in the Congestion Management Process.
5.4.3	Projects that enhance access to jobs through transit	Evaluation of projects/scenarios

GOAL 6: PRESERVE AND MAINTAIN OUR EXISTING SYSTEM

Preserving and maintaining the existing system is integral to the optimization of mobility. The Federal Highway Administration (FHWA) and Florida Department of Transportation (FDOT) established formal goals and objectives for systems preservation that are proposed for adoption as part of this LRTP. They include:

1. Have 95 percent of the Strategic Intermodal System in good or better condition.
2. Have 85 percent of other arterials in good or better condition.
3. Strengthen bridges that are either (1) structurally deficient or (2) posted for weight restriction within six years on FDOT facilities.
4. Replace bridges that require structural repair and are more cost effective to replace within nine years on FDOT facilities.
5. Satisfy FDOT's off system bridge replacement goals.
6. Maintain signing and pavement markings to accommodate all users including automated vehicles.

7. Maintain technology/infrastructure introduced to accommodate connected vehicles.

In addition, the objective of the systems preservation and maintenance goal is to provide a transit fleet that meets Federal Transit Administration's (FTA's) requirements for system preservation, vehicle age and maintenance.

The objectives for preserving and maintaining the existing system are listed below.

- **OBJECTIVE 6.1:** Maintain and update roadways to current standards.

Performance Measure		Benchmark
6.1.1	Percent of Interstate Pavement in Good Condition	Maintain or improve Existing value is reported in the Congestion Management Process.
6.1.2	Percent of Interstate Pavement in Poor Condition	Maintain or reduce Existing value is reported in the Congestion Management Process.
6.1.3	Percent of Non-Interstate Pavement in Good Condition	Maintain or improve Existing value is reported in the Congestion Management Process.
6.1.4	Percent of Non-Interstate Pavement in Poor Condition	Maintain or reduce Existing value is reported in the Congestion Management Process.

- **OBJECTIVE 6.2:** Maintain and update bridges to current standards

Performance Measure		Benchmark
6.2.1	Percent of National Highway System Bridges in Good Condition	Maintain or improve Existing value is reported in the Congestion Management Process.
6.2.2	Percent of National Highway System Bridges in Poor Condition	Maintain or reduce Existing value is reported in the Congestion Management Process.
6.2.3	Percent of State Highway Bridges in Good Condition	Maintain or improve Existing value is reported in the Congestion Management Process.
6.2.4	Percent of State Highway Bridges in Poor Condition	Maintain or reduce

		Existing value is reported in the Congestion Management Process.
6.2.5	Percent of Non-State Highway Bridges in Good Condition	Maintain or improve Existing value is reported in the Congestion Management Process.
6.2.6	Percent of Non-State Highway Bridges in Poor Condition	Maintain or reduce Existing value is reported in the Congestion Management Process.

- **OBJECTIVE 6.3:** Maintain and update transit systems to current standards

Performance Measure		Benchmark
6.3.1	Average Age of Vehicles	Maintain or reduce Existing value is reported in the Congestion Management Process.
6.3.2	Average Rating of Facilities on TERM Scale	Maintain or improve Fall below 3.0

GOAL 7: CREATE RELIABLE AND RESILIENT MULTIMODAL INFRASTRUCTURE

A reliable and resilient multimodal transportation infrastructure provides accessible and diverse transportation options that ensure mobility, system preservation, supports evacuation needs, and addresses social equity.

The objectives for reliable and resilient multimodal infrastructure are listed below.

- **OBJECTIVE 7.1:** Incorporate climate risk in project planning, system preservation and maintenance and determine appropriate measures to mitigate risk or repurpose threatened facilities.

Performance Measure		Benchmark
7.1.1	Consideration for vulnerable, at-risk facilities	Evaluation of projects/scenarios

- **OBJECTIVE 7.2:** Provide reliable mobility access and minimize impact of disruptions to regional mobility.

The performance of this objective is qualitative.

- **OBJECTIVE 7.3:** Support regional evacuation needs as reflected in municipal Emergency Management Plans.

Performance Measure	Benchmark

7.3.1	Number of projects on an evacuation route	Evaluation of projects/scenarios
-------	---	----------------------------------

- **OBJECTIVE 7.4:** Address social equity in adaptation/resilience strategy implementation.

Performance Measure		Benchmark
7.4.1	Number of projects in low income census tracts	Evaluation of projects/scenarios

GOAL 8: ENHANCE TOURISM TRANSPORT MANAGEMENT

Tourism Transport Management involves improving transportation options for recreational, event, and general tourism travel to enhance the overall transportation system while improving mobility and transportation options.

The objectives for tourism transport management are listed below.

- **OBJECTIVE 8.1:** Develop a Regional Tourism Transport Management Program.

Performance Measure	
8.1.1	Complete Regional Tourism Transport Management Plan

- **OBJECTIVE 8.2:** Improve and provide diverse tourism transportation options.

Performance Measure		Benchmark
8.2.1	Number of projects in high tourism areas	Evaluation of projects/scenarios

- **OBJECTIVE 8.3:** Encourage the integration of alternative transportation into tourist activities.

Performance Measure	
8.3.1	County comprehensive plans include alternative transportation for tourists

GOAL 9: ENSURE NORTH FLORIDA IS READY FOR CONNECTED AND AUTONOMOUS VEHICLES AND INTERNET OF THINGS (IOT) TECHNOLOGIES THAT SUPPORT TRANSPORTATION

The North Florida Region will continue to embrace emerging technologies, including connected and automated vehicles, Internet of Things (IoT) components and advanced data management and analytics, preparing the transportation infrastructure in the region for these advances in transportation technology.

FDOT's Office of Policy Planning has recently developed "Guidance for Assessing Planning Impacts and Opportunities of Automated, Connected, Electric and Shared-Use (ACES) Vehicles" that outlines 33 elements that Transportation Planning Organizations (TPO's) in Florida should consider in their short, medium and long-range planning. These elements should be adopted by the TPO in future work efforts.

The objectives to ensure North Florida is ready for Connected and Autonomous Vehicles (CAV) and IoT technologies are listed below.

- **OBJECTIVE 9.1:** Deploy a regional data exchange

Performance Measure	
9.1.1	Complete Phase I of the data exchange
9.1.2	Develop a CV module for CV data storage and analytics

- **OBJECTIVE 9.2:** Prepare infrastructure for connected and automated vehicles

Performance Measure		Benchmark
9.2.1	Miles of vehicle to infrastructure (V2I) technology (DSRC, C-V2X, or 5G)	Increase miles of V2I technology
9.2.2	Miles of fiber optic cable	Increase miles of fiber optic cable

- **OBJECTIVE 9.3:** Implement cybersecurity measures and best practices throughout the system to protect user privacy and data and to ensure safe operations.

Performance Measure	
9.3.1	Complete Cybersecurity Plan
9.3.2	Develop and Implement Strategy for Security Credential Management Plan (SCMS)

- **OBJECTIVE 9.4:** Develop and implement policies that support connected and automated vehicles

Performance Measure	
9.4.1	Complete a Connected and Autonomous Vehicle Policy Plan

- **OBJECTIVE 9.5:** Deploy strategies to support First Mile/Last Mile travel options.

Performance Measure	
9.5.1	Complete First Mile/Last Mile Plan

- **OBJECTIVE 9.6:** Incorporate CAV into the North Florida Travel Demand Model.

Performance Measure	
9.6.1	CAV included in the North Florida Travel Demand Model

- **OBJECTIVE 9.7:** Implement scenario planning activities surrounding Connected, Automated, Electric and Shared vehicles to determine the impacts on network usage, funding and other performance measures.

Performance Measure	
9.7.1	Develop scenarios surrounding ACES
9.7.2	Develop scenario planning methodology to determine impacts on the network usage, funding, and other performance measures

- **OBJECTIVE 9.8:** Consider Autonomous Vehicle only lanes or zones to support enhanced mobility opportunities resulting from automated vehicles.

Performance Measure	
9.8.1	Complete a study on autonomous vehicle only lanes or zones

OVERVIEW

The North Florida Transportation Planning Organization (North Florida TPO) Transportation Improvement Program (TIP) for Fiscal Years 2024/2025 through 2028/2029 begins with preparing a "List of Priority Projects" to be used in developing the Florida Department of Transportation's (FDOT) Tentative Five Year Work Program. The "List of Priority Projects" identifies potential projects to be funded in the new fifth year (2028/2029) of the FDOT Work Program. However, by creating the Strategic Intermodal System (SIS) and the Transportation Regional Incentive Program (TRIP) in Florida, the "List of Priority Projects" now includes potential projects to be funded in other years of the FDOT Work Program under the SIS and TRIP programs. The "List of Priority Projects" includes a prioritized listing of state highway, mass transit, aviation, intermodal, and Transportation Alternative Program (TAP) and Transportation Regional Incentive Program (TRIP) projects.

The North Florida TPO expects all projects currently programmed in the FDOT Work Program to advance to the next development phase. This will ensure that implementing the 3-C planning process (continuing, cooperative, and comprehensive) in the North Florida TPO area is being implemented, as required by federal and state statutes. If FDOT cannot complete the programmed phase and advance the project to the next logical phase, it is incumbent that the agency provides an explanation to the North Florida TPO.

PROJECT PHASING

- Project Development and Environment (PD&E)
- Preliminary Engineering (PE)
- Right-of-Way (ROW)
- Construction (CST)

2045 LONG RANGE TRANSPORTATION PLAN

On November 14, 2019 the North Florida TPO adopted Path Forward 2045, a fiscally constrained Long Range Transportation Plan for Clay, Duval, Nassau and St. Johns Counties. Concurrent with this effort the following documents were prepared:

- **Resilience and Vulnerability**
 - The North TPO examined the vulnerability of major roads in the region. Vulnerability is ranked from low to high. The vulnerability rating of relevant facilities is indicated on the List of Region-Wide Priority Projects. Supporting documentation is available at: <http://pathforward2045.com/wp-content/uploads/2019/08/Resiliency-Phase-II-Tech-Memo-1Finalv3.pdf>
 - Region-wide priority projects identified as at risk in this report are identified by vulnerability category.
 - Low Vulnerability
 - Moderate-Low Vulnerability
 - Moderate High Vulnerability
 - High Vulnerability
- **Regional System Safety Plan**
 - This plan was updated. It identifies high crash corridors, high crash intersections and corridors with a high incidence of bicycle and pedestrian crashes. High crash corridors are identified on the List of Region-Wide Priority Projects. Supporting documentation is available at: https://northfloridatpo.com/uploads/Studies/FINAL_RSSP_NOV2019.pdf
 - Region-wide priority projects on HIGH CRASH CORRIDORS are identified as such.
- **Congestion Management Process**
 - The Congestion Management Process was updated. Supporting documentation is available at: https://northfloridatpo.com/uploads/Studies/performance/2019_NFTP_CMP.pdf

All documentation for the 2045 Long Range Transportation Plan is available at www.pathforward2045.com and at <http://northfloridatpo.com/planning/lrtp>

LIST OF PRIORITY PROJECTS PROCESS

Develop List of Candidate Projects (*January*)

1. A list of candidate projects is developed from the following:
 - Projects in the previous year *List of Priority Projects* not funded through construction.
 - Local County/City submittals within the North Florida TPO area
 - Local Airport and Transit Authority submittals within the North Florida TPO area
 - Concurrency Management Process
 - Public Input
2. Project Ranking (*February*)
 - Unless otherwise indicated, projects were initially prioritized in Path Forward 2045, the North Florida TPO's Long Range Transportation Plan adopted November 14, 2019
 - TPO Staff works with local governments to develop a preliminary List of Priority Projects to submit to the Technical Advisory Committee (TAC), Citizens Advisory Committee (CAC) and Transportation Planning Organization (TPO) Board for review and approval at the March TAC, CAC and TPO Board Meetings.
 - Mass transit and aviation projects are prioritized by the submitting agencies and are forwarded to the North Florida TPO to include in the LOPP Document.
 - Adopting the List of Priority Projects (March)
 - Following approval by the North Florida TPO, the List of Priority Projects is submitted to FDOT for use in developing the Five-Year Tentative Work Program.

2023 ANNUAL LIST OF PRIORITY PROJECTS

REGION-WIDE PRIORITY PROJECTS

2023 REGION-WIDE PRIORITY PROJECTS				
Rank	Project	Limits	Description	Status
PRIORITIES FUNDED IN THE CURRENT 5-YEAR WORK PROGRAM				
	CR 220 Clay County (430719-3)	Henley Rd to Knight Boxx Rd	Widen to 4-lanes	Construction FY 2024
	First Coast Expressway Clay and St. Johns Counties (422938-6) (422938-5) (422938-7) (422938-8)	Blanding Blvd to N of SR 16	New construction	Construction FY 2023
		N of SR 16 to E of CR 209	New construction	Construction FY 2023
		E of CR 209 to CR16A spur (includes bridge)	New construction	Design Build FY 24/25/26
		CR 16A spur to I-95	New construction	Design Build FY 25/26
	SR 16/CR 208 St. Johns County (434562-1)	@ I-95	Interchange improvements	Construction FY 2026
	SR 202 J. Turner Butler Blvd Duval County (439467-1)	@ San Pablo Rd	Modify interchange	Under Construction
	SR 111 Edgewood Ave Duval County (442848-1)	US 17 Main St to Cassat Ave	Context sensitive solutions	Construction FY 2023
	SR 313 St. Johns County (210230-4)	SR 207 to Holmes Rd	New road construction	Under Construction
	US 17 Clay County (441406-1)	@ Governors Creek Bridge	Sidewalk	Construction complete
	SR 202 J. Turner Butler Blvd Duval County (447149-1)	@ Kernan Blvd	Interchange Improvements	Under Construction FY 2022
	SR 10 Atlantic Blvd Duval County (439302-1)	Silversmith Creek Bridge	Milling, resurfacing, railing and sidewalk construction *Moderate-Low Vulnerability	Construction FY 2026
	US 17 Clay County (441213-1)	@ CR 220	Intersection improvement	Construction in FY 2023
	US 17 Main St Duval County (209411-8)	New Berlin Rd to Airport Center Dr	Widen to 5-lanes with multi-use trail *Moderate-Low Vulnerability	Construction in FY 2026

2023 ANNUAL LIST OF PRIORITY PROJECTS

2023 REGION-WIDE PRIORITY PROJECTS				
Rank	Project	Limits	Description	Status
	SR A1A Mayport Rd <i>Duval County</i> (443502-1)	SR 10 Atlantic Blvd to Dutton Island Rd	Context sensitive improvements **High Crash Corridor *Moderate-High Vulnerability	Construction in FY 2026
	US 1 <i>Duval County</i> (437728-3)	At Racetrack Rd	Intersection Improvements	Construction in FY 2024
	I-295 <i>Duval County</i> (437728-3)	At SR 13	Interchange improvements	Construction in FY 2024
UNFUNDED PRIORITIES				
1	SR 228 Normandy Blvd <i>Duval County</i>	Equestrian Center to US 301	Widen to 4-lanes with bike lanes and sidewalks *Moderate Vulnerability	
2	CR 220 <i>Clay County</i>	SR 21 to Henley Rd	Widen to 4-lanes High Crash Intersection (CR220 & Henley Rd)	
3	SR 200/SR A1A <i>Nassau County</i>	I-95 to Amelia Island Pkw	Intersection improvements High Crash Corridor *Moderate-High Vulnerability	
4	SR 16 <i>St. Johns County</i>	International Golf Pkwy to Outlet Mall Entrance	Widen to 4 lanes	PE in 24
5	Main St (US 17) <i>Duval County</i>	Airport Center Dr to Pecan Park Rd	Widen from 2 lanes to 5 lanes with multiuse path on the east side	
6	SR 312 Extension <i>St. Johns County</i>	SR 207 to US 1	New road construction	
7	SR 16 <i>Clay County</i>	Green Cove Springs City Limits to First Coast Expressway Interchange	Widen to 4-lanes *Low Vulnerability	
8	US 17 <i>Nassau County</i> (447364-3)	Duval County Line to SR 200	Widen to 4- lanes/Intersection improvements	PE 2023 (South of William Burgess to SSR 200) ROW in 24&25

2023 ANNUAL LIST OF PRIORITY PROJECTS

2023 REGION-WIDE PRIORITY PROJECTS				
Rank	Project	Limits	Description	Status
9	SR 212 Beach Boulevard <i>Duval County</i>	Parental Home Rd to I-295	Bicycle, pedestrian and intersection improvements High Crash Corridor *Moderate-Low Vulnerability	
10	CR 2209 <i>St. Johns County</i>	SR 9B to SR 16	9B to Silverleaf Pkwy Widen to 6-lanes /Intersection Improvements; Silverleaf Pkwy to SR 16 Design 6 lane and Construct 4 lane	
11	US 17 <i>Clay County</i>	End of 4-lane south of Town Center Blvd. to CR 315	Widen to 6 lanes	
12	SR 115 Lem Turner Rd <i>Duval/Nassau Counties</i>	I-295 to US 301	Widen to 4-lanes with multi-use trail/Intersection Improvements *Moderate Low Vulnerability	
13	SR 104 Dunn Ave <i>Duval County</i>	New Kings Road to I-295	Widen/intersection improvements *Low Vulnerability	
14	SR A1A <i>St. Johns County</i>	Mickler Road to Marsh Landing Pkwy	Intersection Improvements	
15	Atlantic Blvd/Third Street (SR A1A) <i>Duval County</i>	Mayport Rd (SR A1A) to St. Johns County Line	Context Sensitive Improvements: Bicycle, Pedestrian and intersection upgrades High Crash Corridor *Moderate-High Vulnerability	
16	SR A1A <i>St. Johns County</i>	Mickler Rd. to Sawgrass Dr. W.	Widen to 4 Lanes & Bike Lanes - Construction	

2023 ANNUAL LIST OF PRIORITY PROJECTS

2023 REGION-WIDE PRIORITY PROJECTS				
Rank	Project	Limits	Description	Status
17	SR 21 Blanding Blvd <i>Clay/Duval Counties</i> (446808-1) (446808-2)	CR 220 to Collins Road	Intersection improvements High Crash Corridor *Low Vulnerability	CST FY 2025 (Wells rd to Duval County Line)
18	CR 217 <i>Clay/Duval County</i>	CR 218 to SR 228	Add lanes and reconstruct	
19	Southside Blvd <i>Duval County</i>	Beach Blvd to US 1	Intersection Improvements	
20	Moncrief Road <i>Duval County</i>	13 th St to US 1 Kings Rd	Context Sensitive Improvements: Safety, Bicycle, Pedestrian and intersection upgrades	

** Vulnerability evaluated in the Resiliency & Vulnerability Study
High Crash Corridors and Intersections identified in the Regional System Safety Plan*

2023 ANNUAL LIST OF PRIORITY PROJECTS

AVIATION PRIORITY PROJECTS—JACKSONVILLE AVIATION AUTHORITY

Project
Jacksonville International - Concourse B Program - \$300,000,000
Cecil Spaceport – Eastside Roadway - \$16,000,000

2023 ANNUAL LIST OF PRIORITY PROJECTS

MASS TRANSIT PRIORITIES—JACKSONVILLE TRANSPORTATION AUTHORITY

Rank	Project	Description	Justification
1	Vehicle Acquisition	Annual SU funding with \$2.5 toll credit matching	Replace new buses/rolling stock with zero and low emission buses plus related equipment
2	Para-Transit (CTC)	Purchase para-transit equipment	Required for ADA compliance
3	U²C Agile Program	Various U ² C routes throughout the Jacksonville area	Autonomous transit routes at various locations around Jacksonville
4	U²C Phase 3	The third phase of the U ² C program	The third phase of the U ² C program which is the development of the Neighborhood extensions
5	Ferry	Acquisition of a Ferry Boat and supporting infrastructure	A new boat and its supporting infrastructure to minimize service interruptions, address useful life of current boat, and handle service expansion and lot increase.
6	JTA Facility Decentralization and Sustainable Fleet Master Plan	Develop a programmatic strategy and phased implementation plan for the decentralization of JTA's operations and maintenance functions from the current Myrtle Avenue Operations Campus (MAOC) along with the development of a Zero-Emission Fleet Transition Plan	Holistic approach to the development of a sustainable transportation system including the transit network and operations, the fleet, and our facilities
7	My JTA Mobility Application	Mobile application that will enable multimodal trip planning and ticketing, real time arrival departure information, vehicle crowding information, and customer notifications of detours and trip interruptions.	Provides a single Mobility as a Service mobile application to meet both Fixed Route and On-Demand regional transportation needs for Northeast Florida's residents

2023 ANNUAL LIST OF PRIORITY PROJECTS

8	Vision Zero Safety Improvements	Plan, design, and construct facilities/streets that reduce traffic related accidents	Strategy to eliminate all traffic fatalities and severe injuries, while increasing safe, healthy, and equitable mobility for all
9	Commuter Rail Project Development	Promote transit oriented development, station area planning, and funding for Commuter Rail service on the Southeast Corridor	Project Development and Engineering (PD&E) is funded through the LOGT, but there is no funding included for development of the locally preferred alternative and final design.
10	Complete Streets Projects	Plan, design, and construct streets that enables safe access for all people who need to use them, including pedestrians, bicyclists, motorists, and transit riders of all ages and abilities. This includes existing unfunded Complete Streets projects such as Moncrief/Myrtle Corridor.	Address mobility challenges along corridors for pedestrians, transit passengers, motorists, and bicyclists
11	ITS/Corridor Development/Service Enhancement	Develop/implement transit signal priority (TSP) device on bus rapid transit (BRT) routes and future BRT routes as well as high transit volume corridors	Capacity constraints on major corridors suggest implementation of ITS to enhance mobility
12	JRTC Amtrak Station Relocation	Relocate Amtrak station from Clifford Lane to Prime Osborn Convention Center site	Immediate opportunity to restore intercity passenger service to Downtown Jacksonville

2023 ANNUAL LIST OF PRIORITY PROJECTS

MASS TRANSIT PRIORITIES—ST. JOHNS COUNTY/SUNSHINE BUS

Rank	Project	Description	Justification
1	Operating Assistance 5307	Funding for operations and administration	Expand transit system to support additional revenue miles and passengers
2	Preventative Maintenance Capitalized Operating Expense	Funding for preventative maintenance on revenue vehicles	Keep vehicles in service and facilitate continued operations
3	Operating Assistance CTD/Trip Equipment Grant	Continuing Bus Operations	Match for FTA 5307 and support for current and expanded service
4	Operating Assistance Block Grant Funds	Continuing Bus Operations	Support current service and expand service
5	Operating and Capital Assistance FTA 5310	Continuing Bus Operations	Support current service and expand service
6	Operating and Capital Assistance FTA 5311	Continuing Bus Operations	Support current service and expand service
7	Capital Assistance STP Flex	Vehicle Acquisition	Vehicles for route expansion, and paratransit vehicle replacements
8	Rolling Stock	Vehicle Acquisition	Paratransit vehicle replacement
9	System Planning	Plan updates	Update plans as a prerequisite to receiving state and federal funds
10	Shelter Installation	Bus shelters	System improvements, permanent shelters
11	Security Maintenance	Maintain existing security equipment	Maintain and replace existing security equipment at Transit Facility and on Buses
12	Equipment	Shop equipment	Required to meet maintenance schedules
13	Facility Maintenance	Repair/Replace Facility & Equipment	Maintain transit facility and grounds

These projects have been selected from the agency Transit Development Plan and prioritized by St. Johns County Commission//Sunshine Bus.

2023 ANNUAL LIST OF PRIORITY PROJECTS

PORT PRIORITIES—JAXPORT

Project
Portwide Crane Purchase (4 Ship-to-Shore Cranes)
Dames Point Marine Terminal (DPMT) Development & Expansion
Talleyrand Marine Terminal (TMT) Development & Expansion
Blount Island Marine Terminal (BIMT) redevelopment for auto processing expansion
Dredge Material Management Area (DMMA) expansion/capacity creation
Berth reconstruction at upgrades at BIMT and Talleyrand Marine Terminal (TMT)
Cargo Handling Equipment Electrification
Terminal expansion near TMT, BIMT and Dames Point Marine Terminal (DPMT)
ITS improvements for cargo movements at JAXPORT terminals

2023 ANNUAL LIST OF PRIORITY PROJECTS

PORT PRIORITIES—PORT OF FERNANDINA

Project
Resiliency Projects to prevent future flooding
Reinvestment in berths and existing storage facilities
Addition of new covered storage/transit facilities

2023 ANNUAL LIST OF PRIORITY PROJECTS

TRANSPORTATION ALTERNATIVES PROGRAM (TAP) PROJECTS

MULTI-USE TRAILS				
Rank	Project Name	Limits	Estimated Cost	Status

	Black Creek Trail Extension across US 17 Bridge <i>Clay County</i> (446154-1)	US17 from Ball Rd to Black Creek Trail	\$3.5 M	PE FY 22/23 Construction FY 25/26
UNFUNDED PRIORITIES				
1	Amelia Island Trail Phase 5 <i>Nassau County</i>	8th Street and Amelia Island Parkway Intersection to the 14th Street and Sadler Road Intersection	Estimate Needed	
2	UNF Drive/ Alumni Drive <i>Duval County</i>	I-295 – Kernan Blvd	Estimate needed	
3	Doctors Lake Extension <i>Clay County</i>	Wells Rd to Duval County line	Estimate needed	
4	Vilano Trail <i>St. Johns County</i> (447736-1) (429931-1)	San Marco Avenue to Duval County Line	\$61.2M	PD&E FY 22/23 PE FY 23/24 (Magnolia ave to 24 th st)

2023 ANNUAL LIST OF PRIORITY PROJECTS

TRANSPORTATION ALTERNATIVES PROGRAM (TAP) PROJECTS

SCHOOL SAFETY SIDEWALKS			
Rank	Project Name	Limits	Cost Estimate
CONSTRUCTION FUNDED			
	Yulee Elementary School <i>Nassau County</i> (430916-3)	Sidewalks on Felmor Road to provide access to Yulee Elementary School.	PE FY 24/25 \$113k (Safe Streets to School) CST FY 26/27 (Safe Streets to School)
	Palm Valley Rd <i>St. Johns County</i> (450657-1)	Palm Valley Road from Landrum Ln to Woody Creek Dr	CST FY 22/23
UNFUNDED PRIORITIES			
1	San Jose Elementary School <i>Duval County</i>	Construct new sidewalk to fill gaps	Estimate needed
2	Doctor's Inlet Elementary <i>Clay County</i>	Old Jennings Rd from College Dr. to Knight Boxx Rd.	Estimate Needed
3	Russell Sampson Rd. <i>St. Johns County</i>	Heritage Oaks Neighborhood to St. Johns Forest Neighborhood	Estimate needed

2023 ANNUAL LIST OF PRIORITY PROJECTS

SUNTRAILS PRIORITIES

SunTrails is a competitive program. Projects compete statewide, must be on the SunTrails map, must have a detailed study with segment by segment cost estimates. Applications will be submitted when projects meet these criteria. www.floridasuntrail.com

Project Name	Project Description/Project Limits	Estimated Cost
St. Johns River to Sea Loop	West of I-95 to City of St. Augustine to Flagler County Line	This project is specifically reference in State legislation and does not compete for funding with the projects listed below.
Timucuan Trail <i>Duval County</i>	Fort George River to Hanna Park	Study/Estimate needed
North Nassau Trail <i>Nassau County</i>	Amelia Island Trail North to Georgia State Line via US 17	Study/Estimate Needed
Vilano Trail <i>St. Johns County</i>	San Marco Avenue to Duval County Line	Estimates are available for each segment of this trail
Northeast Florida Greenway Trails Old Jennings/Long Bay <i>Clay County</i>	Old Jennings/Long Bay from Live Oak Ln to SR 21	Study/Estimate Needed

2023 ANNUAL LIST OF PRIORITY PROJECTS

TRANSPORTATION REGIONAL INCENTIVE PROGRAM (TRIP) PROJECT PRIORITIES

The Transportation Regional Incentive Program (TRIP) is funded with Documentary Stamp funds. The North Florida TPO is the TRIP Agency for Baker, Clay, Duval, Nassau, Putnam and St. Johns Counties. This list is approved by the TRIP Agency, which includes the North Florida TPO Board and one member of the Baker and Putnam County Commissions. TRIP eligible projects include all funded projects included in the Region-Wide Priority list in addition to the projects listed below. These projects are not ranked.

TRANSPORTATION REGIONAL INCENTIVE PROGRAM (TRIP) PROJECT PRIORITIES				
County	Project	Limits	Description	Status
Baker	Midpoint Parkway/Truck By-Pass, Phase 1		Construct new 2-lane road	
Putnam	US 17	Volusia County Line to Pomona Park/Feagle Avenue	Widen to 4-lanes	
Duval	SR 228 Normandy Blvd	Equestrian Center to US 301	Widen to 4-lanes with bike lanes and sidewalks	
Clay	CR 220	SR 21 to Henley Rd	Widen to 4-lanes	
Nassau	SR 200/SR A1A	I-95 to Amelia Island Pkwy	Intersection improvements <i>High Crash Corridor</i>	
St. Johns	SR 16	International Golf Pkwy to Outlet Mall Entrance	Widen to 4 lanes	PE in 24
Duval	Main St (US 17)	Airport Center Dr to Pecan Park Rd	Widen from 2 lanes to 5 lanes with multiuse path on the east side	
St. Johns	SR 312 Extension	SR 207 to US 1	New road construction	

2023 ANNUAL LIST OF PRIORITY PROJECTS

TRANSPORTATION REGIONAL INCENTIVE PROGRAM (TRIP) PROJECT PRIORITIES				
County	Project	Limits	Description	Status
<i>Clay</i>	SR 16	Green Cove Springs City Limits to First Coast Expressway Interchange	Widen to 4-lanes	
<i>Nassau</i>	US 17 (447364-3)	Duval County Line to SR 200	Widen to 4-lanes/Intersection improvements	PE 2023 (South of William Burgess to SSR 200) ROW in 24&25
<i>Duval</i>	SR 212 Beach Boulevard	Parental Home Rd to I-295	Bicycle, pedestrian and intersection improvements High Crash Corridor	
<i>St. Johns</i>	CR 2209	SR 9B to SR 16	9B to Silverleaf Pkwy Widen to 6-lanes /Intersection Improvements; Silverleaf Pkwy to SR 16 Design 6 lane and Construct 4 lane	
<i>Clay</i>	US 17	End of 4-lane south of Town Center Blvd. to CR 315	Widen to 6 lanes	
<i>Duval/Nassau</i>	SR 115 Lem Turner Rd	I-295 to US 301	Widen to 4-lanes with multi-use trail/Intersection Improvements *Moderate Low Vulnerability	
<i>Duval</i>	SR 104 Dunn Ave	New Kings Road to I-295	Widen/intersection improvements	
<i>St. Johns</i>	SR A1A	Mickler Road to Marsh Landing Pkwy	Intersection Improvements	
<i>Duval</i>	Atlantic Blvd/Third Street (SR A1A)	Mayport Rd (SR A1A) to St. Johns County Line	Context Sensitive Improvements: Bicycle, Pedestrian and intersection upgrades	

2023 ANNUAL LIST OF PRIORITY PROJECTS

TRANSPORTATION REGIONAL INCENTIVE PROGRAM (TRIP) PROJECT PRIORITIES				
County	Project	Limits	Description	Status
<i>St. Johns</i>	SR A1A	Mickler Rd. to Sawgrass Dr. W.	Widen to 4 Lanes & Bike Lanes - Construction	
<i>Clay/Duval</i>	SR 21 Blanding Blvd (446808-1) (446808-2)	CR 220 to Collins Road	Intersection improvements	CST FY 2025 (Wells rd to Duval County Line)
<i>Clay/Duval</i>	CR 217	CR 218 to SR 228	Add lanes and reconstruct	
<i>Duval</i>	Southside Blvd <i>Duval County</i>	Beach Blvd to US 1	Intersection Improvements	
<i>Duval</i>	Moncrief Road <i>Duval County</i>	13 th St to US 1 Kings Rd	Context Sensitive Improvements: Safety, Bicycle, Pedestrian and intersection upgrades

Purpose

Purpose

This document provides language that Florida's metropolitan planning organizations (MPO) may incorporate in Transportation Improvement Programs (TIP) to meet the federal transportation performance management rules.

The document is consistent with the Transportation Performance Measures (TPM) Consensus Planning Document developed jointly by the Florida Department of Transportation (FDOT) and the Metropolitan Planning Organization Advisory Council (MPOAC). The Consensus Planning Document outlines the minimum roles of FDOT, the MPOs, and the public transportation providers in the MPO planning areas to ensure consistency to the maximum extent practicable in satisfying the federal transportation performance management requirements.

The document is organized as follows:

- Section 1 provides a brief background on transportation performance management;
- Section 2 covers the Highway Safety measures (PM1);
- Section 3 covers the Bridge and Pavement Condition measures (PM2);
- Section 4 covers System Performance and Freight Movement measures (PM3);
- Section 5 covers Transit Asset Management (TAM) measures; and
- Section 6 covers Transit Safety measures.

Section 1 Background

1.0 Background

Transportation Performance Management (TPM) is a strategic approach to connect transportation investment and policy decisions to help achieve performance goals. Performance measures are quantitative expressions used to evaluate progress toward goals. Performance targets are quantifiable levels of performance to be achieved within a time period. Federal transportation law requires state departments of transportation (DOT), MPOs, and public transportation providers to conduct performance-based planning by tracking performance and establishing data-driven targets to assess progress toward achieving goals. Performance-based planning supports the efficient investment of transportation funds by increasing accountability, providing transparency, and linking investment decisions to key outcomes related to seven national goals established by the U.S. Congress:

- Improving safety;
- Maintaining infrastructure condition;
- Reducing traffic congestion;
- Improving the efficiency of the system and freight movement;
- Protecting the environment; and
- Reducing delays in project delivery.

Federal law requires FDOT, the MPOs, and public transportation providers to coordinate when selecting performance targets. FDOT and the MPOAC developed the TPM Consensus Planning Document to describe the processes through which these agencies will cooperatively develop and share information related to transportation performance management and target setting.

Section 2

Highway Safety Measures (PM1)

2.0 Highway Safety Measures (PM1)

The first of FHWA's performance management rules establishes measures to assess fatalities and serious injuries on all public roads. The rule requires state DOTs and MPOs to annually establish targets and report performance and progress toward targets to FHWA for the following safety-related performance measures:

1. Number of Fatalities;
2. Rate of Fatalities per 100 million Vehicle Miles Traveled (VMT);
3. Number of Serious Injuries;
4. Rate of Serious Injuries per 100 million VMT; and
5. Number of Nonmotorized Fatalities and Serious Injuries.

2.1 Highway Safety Targets

2.1.1 Statewide Targets

Safety performance measure targets are required to be adopted on an annual basis. In August of each calendar year, FDOT reports targets to FHWA for the following calendar year. On August 31, 2023, FDOT established statewide safety performance targets for calendar year 2024. Table 3.1 presents FDOT's statewide targets.

Table 2.1 Statewide Highway Safety Performance Targets

Performance Measure	Calendar Year 2024 Statewide Target
Number of fatalities	0
Rate of fatalities per 100 million vehicle miles traveled (VMT)	0
Number of serious injuries	0
Rate of serious injures per 100 million vehicle miles traveled (VMT)	0
Number of non-motorized fatalities and serious injuries	0

FDOT adopted a vision of zero traffic-related fatalities in 2012. This, in effect, became FDOT's target for zero traffic fatalities and quantified the policy set by Florida's Legislature more than 35 years ago (Section 334.046(2), Florida Statutes, emphasis added):

*"The mission of the Department of Transportation shall be to provide a **safe** statewide transportation system..."*

FDOT and Florida's traffic safety partners are committed to eliminating fatalities and serious injuries. As stated in the Safe System approach promoted by FHWA, the death or serious injury of any person is unacceptable. [The Florida Transportation Plan](#) (FTP), the state's long-range transportation plan, identifies eliminating transportation-related fatalities and serious injuries as the state's highest transportation priority. Therefore, FDOT established 0 as the only acceptable target for all five federal safety performance measures.

2.1.2 MPO Safety Targets

MPOs are required to establish safety targets annually within 180 days of when FDOT established targets. MPOs establish targets by either agreeing to program projects that will support the statewide targets or establish their own quantitative targets for the MPO planning area.

The North Florida TPO, along with FDOT and other traffic safety partners, shares a high concern about the unacceptable number of traffic fatalities, both statewide and nationally. As such, on February 8, 2024, the North Florida TPO agreed to support FDOT's statewide safety performance targets for calendar year 2024, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the statewide targets. The safety initiatives within this TIP are intended to contribute toward achieving these targets.

2.2 Safety Trends in the MPO Area

The North Florida TPO tracks the safety performance measures every year to analyze past trends and identify regional safety issues. Tracking these measures will help to estimate the effectiveness of future MPO transportation investment, as reflected in the TIP. The following figures show the trends from 2018 to 2022 for all five of the TPO's federal safety performance measures.

Figure 2.1 Number of Fatalities

Figure 2.2 Number of Serious Injuries

Figure 2.3 Rate of Fatalities

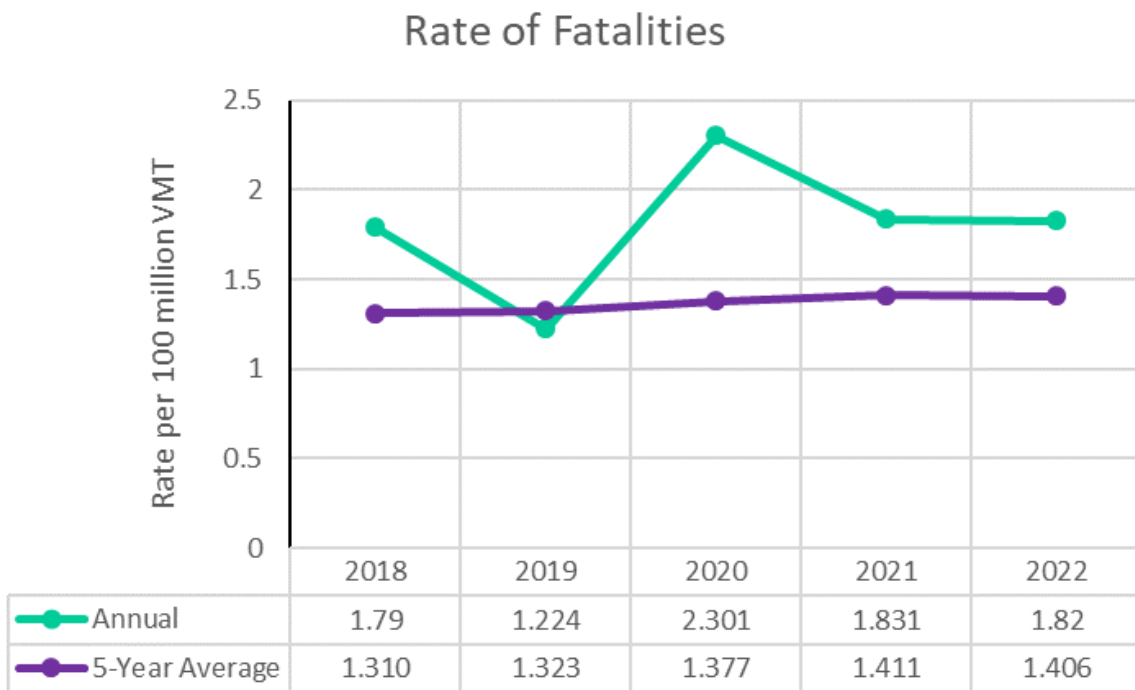

Figure 2.4 Rate of Serious Injuries

Figure 2.5 Non-Motorized Fatalities and Serious Injuries

Concurrent with the update of Path Forward 2050, the TPO's Long Range Transportation Plan, the TPO is updating the Regional Congestion Management Process. The Regional Strategic Safety Plan was updated in 2023 and is available on the TPO's website. Historically, the TPO has reported progress in achieving these and other adopted measures in the Annual Mobility Report. The report is available on the TPO website and on-line tool is available as well.

2.3 FDOT Safety Planning and Programming

2.3.1 Florida's Strategic Highway Safety Plan

[Florida's Strategic Highway Safety Plan](#) (SHSP), published in March 2021, identifies strategies to achieve zero traffic deaths and serious injuries. The SHSP was updated in coordination with Florida's 27 MPOs and the MPOAC, as well as other statewide traffic safety partners. The SHSP development process included review of safety-related goals, objectives, and strategies in MPO plans. The SHSP guides FDOT, MPOs, and other safety partners in addressing safety and defines a framework for implementation activities to be carried out throughout the state.

Florida's transportation safety partners have focused on reducing fatalities and serious injuries through the 4Es of engineering, education, enforcement, and emergency response. To achieve zero, FDOT and other safety partners will expand beyond addressing specific hazards and influencing individual behavior to reshaping transportation systems and communities to create a safer environment for all travel. The updated SHSP calls on Florida to think more broadly and inclusively by addressing four additional topics, which are referred to as the 4Is: information intelligence, innovation, insight into communities, and investments and policies. The SHSP also embraces an integrated "Safe System" approach that involves designing and managing road infrastructure to keep the risk of a mistake low and to ensure that when a mistake leads to a crash, the impact on the human body does not result in a fatality or serious injury. The five Safe System elements together create a holistic approach with layers of protection: safer road users, safer vehicles, safer speeds, safer roads, and post-crash care.

The SHSP also expands the list of emphasis areas for Florida's safety programs to include six evolving emphasis areas, which are high-risk or high-impact crashes that are a subset of an existing emphasis area or emerging risks and new innovations, where safety implications are unknown. These evolving emphasis areas include work zones, drowsy and ill driving, rail grade crossings, roadway transit, micromobility, and connected and automated vehicles.

2.3.2 Florida's Highway Safety Improvement Program

While the FTP and the SHSP both highlight the statewide commitment to a vision of zero deaths, the Florida Highway Safety Improvement Program (HSIP) Annual Report documents statewide performance and progress toward that vision. It also lists all HSIP projects that were obligated during the reporting year and the relationship of each project to the SHSP.

As discussed above, in the 2023 HSIP Annual Report, FDOT reported calendar year 2024 statewide safety performance targets at "0" for each safety performance measure to reflect the vision of zero deaths. Annually, FHWA determines whether Florida has met the targets or performed better than the baseline for at least four of the five measures. If this does not occur

FDOT must submit an annual implementation plan with actions, it will take to meet targets in the future.

On April 20, 2023, FHWA reported the results of its 2021 safety target assessment. FHWA concluded that Florida had not met or made significant progress toward its 2021 safety targets, noting that zero had not been achieved for any measure and that only three out of five measures (number of serious injuries, serious injury rate, and number of non-motorized fatalities and serious injuries) were better than the baseline. Subsequently, FDOT developed an HSIP Implementation Plan to highlight additional strategies it will undertake in support of the safety targets. [The HSIP Implementation Plan](#) was submitted with the HSIP Annual Report to FHWA on August 31, 2023.

Consistent with FHWA requirements, the HSIP Implementation Plan focuses specifically on implementation of the HSIP as a core federal-aid highway program and documents the continued enhancements planned for Florida's HSIP to better leverage the benefits of this program. However, recognizing that FDOT already allocates all HSIP funding to safety programs - and building on the integrated approach that underscores FDOT's safety programs - the HSIP Implementation Plan also documents how additional FDOT, and partner activities may contribute to progress toward zero. Building on the foundation of prior HSIP Implementation Plans, the 2023 HSIP Implementation Plan identifies the following key commitments:

- Improve partner coordination and align safety activities.
- Maximize HSIP infrastructure investments.
- Enhance safety data systems and analysis.
- Implement key safety countermeasures.
- Focus on safety marketing and education on target audiences.
- Capitalize on new and existing funding opportunities.

Florida conducts extensive safety data analysis to understand the state's traffic safety challenges and identify and implement successful safety solutions. Florida's transportation system is evaluated using location-specific analyses that evaluate locations where the number of crashes or crash rates are the highest and where fatalities and serious injuries are most prominent. These analyses are paired with additional systemic analyses to identify characteristics that contribute to certain crash types and prioritize countermeasures that can be deployed across the system as a whole. As countermeasures are implemented, Florida also employs predictive analyses to evaluate the performance of roadways (i.e., evaluating results of implemented crash modification factors against projected crash reduction factors).

FDOT's State Safety Office works closely with FDOT Districts and regional and local traffic safety partners to develop the annual HSIP updates. Historic, risk-based, and predictive safety analyses are conducted to identify appropriate proven countermeasures to reduce fatalities and serious injuries associated with Florida's SHSP emphasis areas, resulting in a list of projects that reflect the greatest needs and are anticipated to achieve the highest benefit. While these projects and the associated policies and standards may take years to be implemented, they are built on proven countermeasures for improving safety and addressing serious crash risks or safety problems identified through a data-driven process. Florida continues to allocate all available HSIP funding to safety projects. [FDOT's HSIP Guidelines](#) provide detailed information on this data-driven process and funding eligibility.

Florida received an allocation of approximately \$156 million in HSIP funds for use during the 2023 state fiscal year from July 1, 2022 through June 30, 2023, and fully allocated those funds to safety projects. FDOT used these HSIP funds to complete projects that address intersections, lane departure, pedestrian and bicyclist safety, and other programs representing the remaining SHSP emphasis areas. This year's HSIP allocated \$128.7 million in infrastructure investments on state-maintained roadways and \$27.5 million in infrastructure investments on local roadways. A list of HSIP projects can be found in the [HSIP 2023 Annual Report](#).

Beginning in fiscal year 2024, HSIP funding is distributed among FDOT Districts based on statutory formula to allow the Districts to have more clearly defined funding levels for which they can better plan to select and fund projects. MPOs and local agencies coordinate with FDOT Districts to identify and implement effective highway safety improvement projects on non-state roadways.

2.3.3 Additional FDOT Safety Planning Activities

In addition to HSIP, safety is considered as a factor in FDOT planning and priority setting for projects in preservation and capacity programs. Data is analyzed for each potential project, using traffic safety data and traffic demand modeling, among other data. The [Florida PD&E Manual](#) requires the consideration of safety when preparing a proposed project's purpose and need as part of the analysis of alternatives. Florida design and construction standards include safety criteria and countermeasures, which are incorporated in every construction project. FDOT also recognizes the importance of the American Association of State Highway Transportation Official (AASHTO) Highway Safety Manual (HSM). Through dedicated and consistent training and messaging over the last several years, the HSM is now an integral part of project development and design.

FDOT holds Program Planning Workshops annually to determine the level of funding to be allocated over the next 5 to 10 years to preserve and provide for a safe transportation system. Certain funding types are further analyzed and prioritized by FDOT Central Offices, after projects are prioritized collaboratively by the MPOs, local governments, and FDOT Districts; for example, the Safety Office is responsible for the HSIP and Highway Safety Program (HSP) and the Systems Implementation Office is responsible for the Strategic Intermodal System (SIS). Both the Safety and SIS programs consider the reduction of traffic fatalities and serious injuries in their criteria for ranking projects.

2.4 Safety Investments in the TIP

The North Florida TPO recognizes the importance of linking goals, objectives, and investment priorities to established performance objectives, and that this link is critical to the achievement of national transportation goals and statewide and regional performance targets. As such, the North Florida TPO 2045 LRTP reflects the goals, objectives, performance measures, and targets as they are available and described in other state and public transportation plans and processes; specifically, the Florida Strategic Highway Safety Plan (SHSP), the Florida Highway Safety Improvement Program (HSIP), and the Florida Transportation Plan (FTP).

- The Florida Strategic Highway Safety Plan (SHSP) is the statewide plan focusing on how to accomplish the vision of eliminating fatalities and reducing serious injuries on all public roads. The SHSP was developed in coordination with Florida's 27 metropolitan planning

organizations (TPOs) through Florida's Metropolitan Planning Organization Advisory Council (MPOAC). The SHSP guides FDOT, TPOs, and other safety partners in addressing safety and defines a framework for implementation activities to be carried out throughout the State.

- The FDOT HSIP process provides for a continuous and systematic process that identifies and reviews traffic safety issues around the state to identify locations with potential for improvement. The ultimate goal of the HSIP process is to reduce the number of crashes, injuries and fatalities by eliminating certain predominant types of crashes through the implementation of engineering solutions.
- Transportation projects are identified and prioritized with the TPOs and non-metropolitan local governments. Data are analyzed for each potential project, using traffic safety data and traffic demand modeling, among other data. The FDOT Project Development and Environment Manual requires the consideration of safety when preparing a proposed project's purpose and need, and defines several factors related to safety, including crash modification factor and safety performance factor, as part of the analysis of alternatives. TPOs and local governments consider safety data analysis when determining project priorities.

The North Florida TPO TIP increases the safety of the transportation system for motorized and non-motorized users as required. The LRTP aligns with the Florida SHSP and the FDOT HSIP with specific strategies to improve safety performance focused on prioritized safety projects, pedestrian and/or bicycle safety enhancements, and traffic operation improvements to address our goal to reduce fatalities and serious injuries.

The Florida SHSP and HSIP strategies and goals are reflected in the TPO's Regional System Safety Plan that was updated in 2023. The LRTP identifies safety needs within the metropolitan planning area and provides funding for targeted safety improvements. The North Florida TPO has developed a project selection process that scores projects on a number of performance metrics. These metrics are outlined in the 2045 LRTP are consistent with those in the Congestion Management Process. These include the following:

- Goal 3: Encourage Safe and Secure Travel, which includes Objective 3.1, reduce crashes, Objective 3.2, to reduce fatal crashes, Objective 3.3, to promote the implementation of safety and security improvements and Objective 3.4, to enhance security for all modes. To satisfy this objective, the TPO will identify projects and programs that will enhance safety and security and lead to a reduced number of crashes and lower crash severity.

The TPO's commitment to safety is reflected in Path Forward 2045, the Long Range Transportation Plan in the Annual List of Priority Project's and in the Unified Planning Work Program. District 2 identifies high crash corridors and intersections in the List of Priority Projects for special consideration in project programming. In the Unified Planning Work Program (UPWP), the TPO studies corridors of concern to local governments who in turn request safety recommended safety enhancements. The TPO further demonstrates its commitment by contributing CM and SU funding to these projects when necessary.

All projects in this TIP support progress towards achieving the safety performance targets, through their adherence to the TPO policies, programs, and standards related to safety.

Highway Safety Measures (PM1)

The TPO updated the Strategic Safety Plan in 2023 focusing on a priority network of interstate system facilities, expressways, other state-maintained roadways and arterials and major collectors maintained by local governments to support implementing Florida's Target Zero initiative. A comprehensive analysis was performed to identify priorities for safety projects relating to bicyclists and pedestrians, lighting, lane departure crashes, interchanges and intersections. A list of the top 25 projects were compiled based on the economic impact of each project. Projects that already had committed funding were omitted from the list. The top 25 rankings are shown below.

Figure XX. Top 25 Safety Priorities from the North Florida TPO Strategic Safety Plan

The North Florida TPO continues monitoring investments in the TIP and demonstrating progress toward goals and objectives. The 2024/25–2028/29 TIP includes \$3.5 billion to fund 147 projects aimed at improving safety between the four counties. These projects fall in the following categories:

- Bike lanes /Sidewalks / Trails
- Lighting
- Traffic control devices / system
- Safety projects
- Pedestrian Crossings / Push button

Highway Safety Measures (PM1)

- Corridor & intersection improvements
- Add turning lanes
- Signing and pavement markings

The following table provides specific examples of the safety projects programmed in the TIP.

Table 2.2 North Florida TPO Safety Project Examples

Project Number	Project Name	County	Type of Work
2093014	I-295(SR9A) FROM SOUTHSIDE CONNECTOR(SR113) TO SR202 JTB	Duval	Add Lanes & Reconstruct

This TIP includes specific investment priorities that support all of the TPO's goals including safety, using a prioritization and project selection process established previously in the LRTP. The TPO's goal of reducing fatal and serious injury crashes is linked to this investment plan and the process used in prioritizing the projects is consistent with federal requirements. The TPO has long utilized an annual project ranking criteria that identifies and prioritizes projects aimed at improving

Highway Safety Measures (PM1)

transportation safety. The TPO has recently started a pilot program to aid municipalities and schools with submitting Safe Routes to Schools applications.

Because safety is inherent in so many FDOT and North Florida TPO programs and projects, and because of the broad and holistic approach FDOT is undertaking with its commitment to Vision Zero, the program of projects in this TIP is anticipated to support progress towards achieving the safety targets.

Section 3

Pavement & Bridge Condition Measures (PM2)

3.0 Pavement & Bridge Condition Measures (PM2)

FHWA's Bridge & Pavement Condition Performance Measures Final Rule, which is also referred to as the PM2 rule, requires state DOTs and MPOs to establish targets for the following six performance measures:

1. Percent of NHS bridges (by deck area) classified as in good condition;
2. Percent of NHS bridges (by deck area) classified as in poor condition;
3. Percent of Interstate pavements in good condition;
4. Percent of Interstate pavements in poor condition;
5. Percent of non-Interstate National Highway System (NHS) pavements in good condition; and
6. Percent of non-Interstate NHS pavements in poor condition.

For the pavement measures, five pavement metrics are used to assess condition:

- International Roughness Index (IRI) - an indicator of roughness (applicable to asphalt, jointed concrete, and continuously reinforced concrete pavements);
- Cracking percent – percentage of pavement surface exhibiting cracking (applicable to asphalt, jointed concrete, and continuously reinforced concrete pavements);
- Rutting - extent of surface depressions (applicable to asphalt pavements only);
- Faulting - vertical misalignment of pavement joints (applicable to jointed concrete pavements only); and
- Present Serviceability Rating (PSR) – a quality rating applicable only to NHS roads with posted speed limits of less than 40 miles per hour (e.g., toll plazas, border crossings). States may choose to collect and report PSR for applicable segments as an alternative to the other four metrics.

3.1 Bridge & Pavement Condition Targets

3.1.1 Statewide Targets

Federal rules require state DOTs to establish two-year and four-year targets for bridge and pavement condition measures. On December 16, 2022, FDOT established statewide bridge and pavement targets for the second performance period ending in 2025. These targets are identical to those set for 2019 and 2021, respectively. Florida's performance through 2021 exceeds the targets. The two-year targets represent bridge and pavement condition at the end of calendar year 2023, while the four-year targets represent condition at the end of 2025. Table 4.1 presents the statewide targets.

Table 3.1 Statewide Bridge and Pavement Condition Performance Targets

Performance Measure	2022 Statewide Conditions	2023 Statewide Target	2025 Statewide Target
Percent of NHS bridges (by deck area) in good condition	58.2%	≥50.0%	≥50.0%
Percent of NHS bridges (by deck area) in poor condition	0.6%	≤10.0%	≤10.0%
Percent of Interstate pavements in good condition	73.4%	≥60.0%	≥60.0%
Percent of Interstate pavements in poor condition	0.2%	≤5.0%	≤5.0%
Percent of non-Interstate pavements in good condition	48.8%	≥40.0%	≥40.0%
Percent of non-Interstate pavements in poor condition	0.6%	≤5.0%	≤5.0%

Source: 2022 Statewide Conditions fdotsourcebook.com.

In determining its approach to establishing performance targets for the federal bridge and pavement condition performance measures, FDOT considered many factors. FDOT is mandated by Florida Statute 334.046 to preserve the state’s bridges and pavement to specific state-defined standards. To adhere to the statutory guidelines, FDOT prioritizes funding allocations to ensure the current transportation system is adequately preserved and maintained before funding is allocated for capacity improvements. These state statutory guidelines envelope the statewide federal targets that have been established for bridges and pavements.

In addition, FDOT developed a [Transportation Asset Management Plan](#) (TAMP) for the state NHS bridge and pavement assets. The TAMP must include investment strategies leading to a program of projects that would make progress toward achievement of the State’s targets for asset condition and performance of the NHS. FDOT’s current TAMP was submitted on December 30, 2022 and recertified by FHWA on February 23, 2023.

Further, the federal pavement condition measures require a data collection methodology that is a departure from the methods historically used by FDOT. For bridge condition, performance is measured in deck area under the federal measure, while FDOT programs its bridge repair or replacement work on a bridge-by-bridge basis. As such, the federal measures are not directly comparable to the methods that are most familiar to FDOT.

FDOT collects and reports bridge and pavement data to FHWA each year to track performance and progress toward the targets. The percentage of Florida’s bridges in good condition is slowly decreasing, which is to be expected as the bridge inventory grows older. Reported bridge and pavement data through 2022 exceeded the established targets. Based on analyses of the data, the previous statewide targets are still appropriate for 2023 and 2025.

FHWA determined that FDOT made significant progress toward its 2021 PM2 targets; FHWA’s assessment of progress toward the 2023 targets is anticipated to be provided in 2024.

3.1.2 MPO Targets

MPOs must set four-year targets for the six bridge and pavement condition measures within 180 days of when FDOT established targets. MPOs can either agree to program projects that will support the statewide targets or establish their own quantifiable targets for the MPO’s planning area for one or more measures.

On February 9, 2023, the North Florida TPO agreed to support FDOT's statewide bridge and pavement performance targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the statewide targets.

3.2 Bridge & Pavement Investments in the TIP

The North Florida TPO TIP reflects investment priorities established in the Path Forward 2045 LRTP. Bridge and pavement investments in the TIP support Goal 6 of the Long Range Transportation Plan as shown below:

GOAL 6: PRESERVE AND MAINTAIN OUR EXISTING SYSTEM

Preserving and maintaining the existing system is integral to the optimization of mobility. The Federal Highway Administration (FHWA) and Florida Department of Transportation (FDOT) established formal goals and objectives for systems preservation that are proposed for adoption as part of this LRTP. They include:

1. Have 95 percent of the Strategic Intermodal System in good or better condition.
2. Have 85 percent of other arterials in good or better condition.
3. Strengthen bridges that are either (1) structurally deficient or (2) posted for weight restriction within six years on FDOT facilities.
4. Replace bridges that require structural repair and are more cost effective to replace within nine years on FDOT facilities.
5. Satisfy FDOT's off system bridge replacement goals.
6. Maintain signing and pavement markings to accommodate all users including automated vehicles.
7. Maintain technology/infrastructure introduced to accommodate connected vehicles

In addition, the objective of the systems preservation and maintenance goal is to provide a transit fleet that meets Federal Transit Administration's (FTA's) requirements for system preservation, vehicle age and maintenance.

The focus of the North Florida TPO's investments in bridge and pavement condition include bridge replacement or reconstruction, new bridge capacity on the NHS, pavement replacement or reconstruction and new NHS lanes or widenings, including resurfacing existing lanes associated with new capacity. Specific projects within the TIP are listed below:

By advancing these projects, and other system preservation projects included in the North Florida TPO TIP, it is expected that progress will be made towards achieving the targets set in this section.

The TIP devotes a significant amount of resources to projects that will maintain bridge and pavement condition performance. Investments in bridge and pavement condition include bridge replacement and reconstruction, pavement replacement and reconstruction, and new bridge and pavement capacity. The TIP will fund \$674 million for bridges, \$459 million for resurfacing, and \$2.1 billion for new capacity.

The projects included in the TIP are consistent with FDOT's Five Year Work Program. Therefore, they reflect FDOT's approach of prioritizing funding to ensure the transportation system is adequately preserved and maintained. Per federal planning requirements, the state selects projects on the NHS in cooperation with the MPO from the approved TIP. Given the significant resources devoted in the TIP to pavement and bridge projects, the MPO anticipates that once implemented, the TIP will contribute to progress towards achieving the statewide pavement and bridge condition performance targets.

Section 4
System Performance, Freight
and Congestion Mitigation &
Air Quality Improvement
Program Measures PM3)

4.0 System Performance, Freight, & Congestion Mitigation & Air Quality Improvement Program Measures (PM3)

FHWA's System Performance/Freight/CMAQ Performance Measures Final Rule, which is referred to as the PM3 rule, requires state DOTs and MPOs to establish targets for the following six performance measures:

National Highway Performance Program (NHPP)

1. Percent of person-miles traveled on the Interstate system that are reliable;
2. Percent of person-miles traveled on the non-Interstate NHS that are reliable;

National Highway Freight Program (NHFP)

3. Truck Travel Time Reliability index (TTTR);

Congestion Mitigation and Air Quality Improvement Program (CMAQ)

4. Annual hours of peak hour excessive delay per capita (PHED);
5. Percent of non-single occupant vehicle travel (Non-SOV); and
6. Cumulative 2-year and 4-year reduction of on-road mobile source emissions (NO_x, VOC, CO, PM₁₀, and PM_{2.5}) for CMAQ funded projects.

Because all areas in Florida meet current national air quality standards, the three CMAQ measures do not apply in Florida. A description of the first three measures is below.

The first two performance measures assess the percent of person-miles traveled on the Interstate or the non-Interstate NHS that are reliable. Reliability is defined as the ratio of longer travel times to a normal travel time over all applicable roads, across four time periods between the hours of 6 a.m. and 8 p.m. each day.

The third performance measure assesses the reliability of truck travel on the Interstate system. The TTTR assesses how reliable the Interstate network is by comparing the worst travel times for trucks against the travel time they typically experience.

4.1 System Performance and Freight Targets

4.1.1 Statewide Targets

Federal rules require state DOTs to establish two-year and four-year targets for the system performance and freight targets. On December 16, 2022, FDOT established statewide performance targets for the second performance period ending in 2025. The 2-year and 4-year targets set for this performance period are identical to the 2-year and 4-year targets set for the previous performance period. Florida's performance through 2021 exceeds the targets. The two-year targets represent performance at the end of calendar year 2023, while the four-year targets represent performance at the end of 2025. Table 5.1 presents the statewide targets.

Table 4.1 Statewide System Performance and Freight Targets

Performance Measure	2022 Statewide Conditions	2023 Statewide Target	2025 Statewide Target
Percent of person-miles traveled on the Interstate system that are reliable	85.7%	≥75.0%	≥70.0%
Percent of person-miles traveled on the non-Interstate NHS that are reliable	92.1%	≥50.0%	≥50.0%
Truck travel time reliability (Interstate)	1.46	1.75	2.00

Source: 2022 Statewide Conditions fdotsourcebook.com.

FDOT collects and reports reliability data to FHWA each year to track performance and progress toward the reliability targets. Actual performance in 2021 was better than the 2021 targets. FHWA’s assessment of progress toward the 2023 targets is anticipated to be released in March 2024.

System performance and freight are addressed through several statewide initiatives:

- Florida’s Strategic Intermodal System (SIS) is composed of transportation facilities of statewide and interregional significance. The SIS is a primary focus of FDOT’s capacity investments and is Florida’s primary network for ensuring a strong link between transportation and economic competitiveness. These facilities, which span all modes and includes highways, are the workhorses of Florida’s transportation system and account for a dominant share of the people and freight movement to, from and within Florida. The SIS includes 92 percent of NHS lane miles in the state. Thus, FDOT’s focus on improving performance of the SIS goes hand-in-hand with improving the NHS, which is the focus of the FHWA’s TPM program. The [SIS Policy Plan](#) was updated in early 2022 consistent with the updated FTP. The SIS Policy Plan defines the policy framework for designating which facilities are part of the SIS, as well as how SIS investment needs are identified and prioritized. The development of the SIS Five-Year Plan by FDOT considers scores on a range of measures including mobility, safety, preservation, and economic competitiveness as part of FDOT’s Strategic Investment Tool (SIT).
- In addition, [FDOT’s Freight Mobility and Trade Plan](#) (FMTP) defines policies and investments that will enhance Florida’s economic development efforts into the future. The FMTP identifies truck bottlenecks and other freight investment needs and defines the process for setting priorities among these needs to receive funding from the National Highway Freight Program (NHFP). Project evaluation criteria tie back to the FMTP objectives to ensure high priority projects support the statewide freight vision. In May 2020, FHWA approved the FMTP as FDOT’s State Freight Plan. An update to the FMTP will be adopted in the spring of 2024.

4.1.2 MPO Targets

MPOs must establish four-year targets for all three performance measures. MPOs can either agree to program projects that will support the statewide targets or establish their own quantifiable targets for the MPO’s planning area for one or more measures.

On February 9, 2023, the North Florida TPO agreed to support FDOT's statewide system performance and freight targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the statewide targets.

4.2 System Performance and Freight Investments in the TIP

The North Florida TPO has a long history of investing in technology to improve system performance. The TPO has upgraded signal controllers throughout the region, procured BlueToad devices to monitor the performance of major arterials throughout the region, paid for the installation of wind sensors on bridges throughout the region and funded construction of the regional transportation management center. Real-time data is available to the public on the TPO's website.

Since 2014 and the completion of the 2013 Congestion Management Process (CMP) the North Florida TPO has reported annually on progress made in achieve performance measures adopted in the CMP. The 2019 CMP, Path Forward 2045 and the Regional System Safety Plan all included the Federal performance measures and FDOT/North Florida TPO targets. Progress made is reported in subsequent Annual Mobility Reports.

The North Florida TPO TIP reflects investment priorities established in the Path Forward 2045 LRTP. The focus of the North Florida TPO's investments that address system performance and freight include corridor improvements, intersection improvements (on NHS roads), projects evaluated in the Congestion Management Plan (CMP) and selected for the TIP, investments in transit, bicycle, or pedestrian systems that promote mode shift, freight improvements (Interstate) that increase reliability (could include improved weigh stations, addressing identified truck bottlenecks on the Interstate, etc.), TSMO/ITS projects or programs and travel demand management programs, park, and ride lots, etc. Specific projects within the TIP are listed below:

Table 4.2 North Florida TPO System Performance Projects

System Performance, Freight, & Congestion Mitigation & Air Quality Improvement Program Measures (PM3)

The TIP devotes a significant amount of resources to programs and projects that will improve system performance and freight reliability on the Interstate and non-Interstate NHS. The TIP will fund \$41 million for intersection improvements, \$2 billion for congestion relief projects, \$177 million for TDM and \$72 million for TSMO projects.

The projects included in the TIP are consistent with FDOT's Five Year Work Program. Therefore, they reflect FDOT's approach of prioritizing funding to address performance goals and targets. Per federal planning requirements, the state selects projects on the NHS in cooperation with the MPO from the approved TIP. Given the significant resources devoted in the TIP to programs that address system performance and freight, the MPO anticipates that once implemented, the TIP will contribute to progress towards achieving the statewide reliability performance targets.

Section 5 Transit Asset Management Measures

5.0 Transit Asset Management Measures

5.1 Transit Asset Performance Measures

FTA's Transit Asset Management (TAM) regulations apply to all recipients and subrecipients of Federal transit funding that own, operate, or manage public transportation capital assets. The regulations define the term "state of good repair," require that public transportation providers develop and implement TAM plans, and established state of good repair standards and performance measures for four asset categories: equipment, rolling stock, transit infrastructure, and facilities. Table 5.1 identifies the TAM performance measures.

Table 5.1 FTA TAM Performance Measures

Asset Category	Performance Measure
Equipment	Percentage of non-revenue, support-service and maintenance vehicles that have met or exceeded their Useful Life Benchmark
Rolling Stock	Percentage of revenue vehicles within a particular asset class that have either met or exceeded their Useful Life Benchmark
Infrastructure	Percentage of track segments with performance restrictions
Facilities	Percentage of facilities within an asset class rated below condition 3 on the TERM scale

For equipment and rolling stock classes, useful life benchmark (ULB) is defined as the expected lifecycle of a capital asset, or the acceptable period of use in service, for a particular transit provider's operating environment. ULB considers a provider's unique operating environment such as geography, service frequency, etc.

Public transportation providers are required to establish and report TAM targets annually for the following fiscal year. Each public transportation provider or its sponsors must share its targets with each MPO in which the public transportation provider's projects and services are programmed in the MPO's TIP. MPOs are not required to establish TAM targets annually each time the transit provider establishes targets. Instead, MPO targets must be established when the MPO updates the LRTP (although it is recommended that MPOs reflect the most current transit provider targets in the TIP if they have not yet taken action to update MPO targets). When establishing TAM targets, the MPO can either agree to program projects that will support the transit provider targets or establish its own separate regional TAM targets for the MPO planning area. MPO targets may differ from agency targets, especially if there are multiple transit agencies in the MPO planning area. To the maximum extent practicable, public transit providers, states, and MPOs must coordinate with each other in the selection of performance targets.

The TAM regulation defines two tiers of public transportation providers based on size parameters. Tier I providers are those that operate rail service, or more than 100 vehicles in all fixed route modes, or more than 100 vehicles in one non-fixed route mode. Tier II providers are those that are a subrecipient of FTA 5311 funds, or an American Indian Tribe, or have 100 or less vehicles across all fixed route modes or have 100 or less vehicles in one non-fixed route mode. A Tier I provider must establish its own TAM targets, as well as report performance and other data to FTA. A Tier II provider has the option to establish its own targets or to participate in a Group Plan with other Tier II providers whereby targets are established for the entire group in coordination with a group plan sponsor, typically a state DOT.

Table 5.2 Tier I and Tier II Definitions

Tier I	Tier II
Operates rail service OR	Subrecipient of FTA 5311 funds OR
≥ 101 vehicles across all fixed route modes OR	American Indian Tribe OR
≥ 101 vehicles in one non-fixed route mode	≤ 100 vehicles across all fixed route modes OR
	≤ 100 vehicles in one non-fixed route mode

5.2 FDOT Group TAM Plan Participants

A total of 19 public transportation providers participated in the [FDOT Group TAM Plan](#) and continue to coordinate with FDOT on establishing and reporting group targets to FTA through the National Transit Database (NTD) (Table 6.2). These are FDOT's Section 5311 Rural Program subrecipients. The Group TAM Plan was adopted in September 2022 and covers fiscal years 2022-2023 through 2025-2026. Group TAM Plan targets for fiscal year 2023 were submitted to NTD in September 2023. An MPO has the option of including the full table below for context, or just identifying those Tier II providers in the MPO planning area that participated in the Group TAM Plan, if any. If the MPO area includes any providers participating in the Group TAM Plan, the MPO should check with FDOT before submitting the TIP to confirm the final 2023 targets.

Table 5.3 Florida Group TAM Plan Participants

District	Participating Transit Providers
1	Central Florida Regional Planning Council Hendry County
2	Baker County Council on Aging Levy County Transit Nassau County Council on Aging/Nassau TRANSIT Ride Solution (Putnam County) Suwannee River Economic Council Suwannee Valley Transit Authority
3	Big Bend Transit Calhoun County Senior Citizens Association Gulf County ARC JTRANS Liberty County Transit Tri-County Community Council Wakulla Transportation
4	<i>No participating providers</i>
5	Flagler County Public Transportation Marion Transit Sumter County Transit
6	Key West Transit
7	<i>No participating providers</i>

5.3 Transit Asset Management Targets

The North Florida TPO is served by three (3) transit service providers: Jacksonville Transportation Authority (JTA), St. Johns County Sunshine Bus, and Nassau County Transit. JTA and St. Sunshine Bus are considered Tier I providers and, as such, each must develop a TAM Plan. Nassau County Transit is considered a Tier II provider and is included in the group TAM plan developed by the FDOT Public Transit Office in Tallahassee. JTA also provides transit service in Clay County as the Community Transportation Coordinator for that county.

5.3.1 Transit Agency Targets

The Jacksonville Transportation Authority (JTA) established TAM targets for each of the applicable asset categories on February 14, 2019. Table 5.3 presents the targets currently listed in their Transit Asset Management Plan. The St. Johns County Sunshine Bus established TAM targets for each of the applicable asset categories on October 20, 2018. Table 5.3b presents the targets currently listed in their Transit Asset Management Plan.

Nassau County Council on Aging/Nassau TRANSIT is part of the Group TAM Plan for Fiscal Years 2022/2023 – 2025/2026 developed by FDOT for Tier II providers in Florida. The FY 2022 asset conditions and FY 2023 targets for the Tier II providers are shown in Table 6.4. *Note: FDOT will provide an update once FY 2023 performance and FY 2024 targets are available.*

The transit provider's TAM targets are based on the condition of existing transit assets and planned investments in equipment, rolling stock, infrastructure, and facilities. The targets reflect the most recent data available on the number, age, and condition of transit assets, and capital investment plans for improving these assets. The table summarizes both existing conditions for the most recent year available, and the current targets.

Table 5.4 Transit Asset Management Targets for JTA

Asset Category - Performance Measure	Asset Class	FY 2023 Asset Condition	FY 2024 Target
Rolling Stock			
Age - % of revenue vehicles within a particular asset class that have met or exceeded their ULB	Buses (JTA/CC)	19%	27%
	Cutaways (JTA/CC)	75%	73%
	Vans (JTA/CC)	18%	10%
	Automated Guideway Vehicle	0%	67%
	Ferryboat	0%	0%
Equipment			
Age - % of non-revenue vehicles within a particular asset class that have met or exceeded their ULB	Automobile	100%	100%
	Trucks and other Rubber Tire Vehicles	56%	83%
	SUVs	41%	81%
	Trucks	70%	83%
	Vans	100%	100%
	Boats	100%	100%
Infrastructure			
% of track segments with performance restrictions	Rail Fixed Guideway	0%	0%
Facilities			
Condition - % of facilities with a condition rating below 3.0 on the FTA Transit Economic Requirements Model (TERM) Scale	Admin/Maintenance Facilities	0%	0%
	Passenger Parking Facilities	3%	3%
	Passenger Facilities	0%	0%
	Parking Facilities	4%	4%

Table 5.5 Transit Asset Management Targets for St. Johns County Sunshine Bus

Asset Category - Performance Measure	Asset Class	FY 2022 Asset Condition	FY 2023 Target
Rolling Stock			
Age - % of revenue vehicles within a particular asset class that have met or exceeded their ULB	Cutaway	54%	57%
	Minivan	100%	50%
	Van	22%	22%
Equipment			
Age - % of non-revenue vehicles within a particular asset class that have met or exceeded their ULB	Trucks and other Rubber Tire Vehicles	50%	0%
Facilities			
Condition - % of facilities with a condition rating below 3.0 on the FTA Transit Economic Requirements Model (TERM) Scale	Admin/Maintenance Facilities	0%	0%

Table 5.6 FDOT Group Plan Transit Asset Management Targets for Tier II Providers

Asset Category - Performance Measure	Asset Class	FY 2021 Asset Conditions	FY 2022 Performance	FY2023 Target
Revenue Vehicles				
Age - % of revenue vehicles within a particular asset class that have met or exceeded their Useful Life Benchmark (ULB)	Automobile	0%	0%	0%
	Bus	21.54%	16.42%	16.0%
	Cutaway Bus	9.81%	7.19%	7.0%
	School Bus	100.0%	100.0%	100.0%
	Mini-Van	19.59%	30.85%	30.0%
	SUV	20%	9.09%	9.0%
	Van	40.58%	39.68%	39.0%
Equipment				
Age - % of equipment or non-revenue vehicles within a particular asset class that have met or exceeded their Useful Life Benchmark (ULB)	Non-Revenue Automobile	75%	100%	100.0%
	Trucks and other Rubber Tire Vehicles	6.25%	6.25%	6.0%
Facilities				
Condition - % of facilities with a condition rating below 3.0 on the FTA Transit Economic Requirements Model (TERM) Scale	Passenger/ Parking Facilities	0%	0%	0%
	Administration/ Maintenance Facilities	6.67%	6.67%	6.0%

5.3.2 MPO Transit Asset Management Targets

As discussed above, MPOs are not required to establish TAM targets annually each time the transit provider establishes targets. Instead, MPO's must revisit targets each time the MPO updates the LRTP. MPOs can either agree to program projects that will support the transit provider targets or establish separate regional TAM targets for the MPO planning area. MPO targets may differ from agency targets, especially if there are multiple transit agencies in the MPO planning area.

On October 11, 2018 the North Florida TPO agreed to support St. Johns County Sunshine Bus and Tier II transit agencies asset targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the provider's targets.

On February 14, 2019 the North Florida TPO agreed to support the JTA's TAM targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the provider's targets.

5.4 Transit Asset Management Investments in the TIP

The North Florida TPO TIP was developed and is managed in cooperation with JTA, St. Johns County Sunshine Bus, and Nassau County Transit. It reflects the investment priorities established in the Path Forward 2045, the adopted Long Range Transportation Plan

FTA funding, as programmed by the region's transit providers and FDOT, is used for program and products to improve the condition of the region's transit assets. The focus of the North Florida TPO's investments that address transit state of good repair include bus and other vehicle purchases and replacement, equipment purchases and replacements, retrofits and repair, rehabilitation, and replacement of transit facilities and infrastructure.

To assist the Tier 1 providers in meeting their TAM targets the North Florida TPO provides the following financial assistance annually:

- FM 4067899 St Johns County BCC STP funds for Purchase of Buses/Equipment (\$250,000)
- FM 2159233 JTA/STP Funds Duval County Purchase Buses/Equipment (\$1,000,000)

Additionally, the following projects are programmed in the TIP to aid in meeting transit asset management targets:

Table 5.7 North Florida TPO Transit Asset Projects

Project Number	Project Name	Type of Work	County
4067898	ST.JOHNS CNTY FED 5307 OPERATING GRANT	Operating For Fixed Route	St. Johns
4117591	JACKSONVILLE JTA STATE BLOCK GRANT OPERATING FUNDS	Operating For Fixed Route	Duval

4272631	NASSAU COUNTY FED SECT 5311 RURAL TRANSIT FUNDING	Operating/Admin. Assistance	Nassau
4272651	ST JOHNS CNTY FED SECT 5311 RURAL TRANSIT FUNDING	Operating/Admin. Assistance	St. Johns
4456471	CLAY COUNTY FED SECT 5311 RURAL TRANSIT JTA	Operating/Admin. Assistance	Clay
4337151	JTA BUS AND BUS FACILITIES SECTION 5339	Transit Improvement	Duval
4337161	SECTION 5337 JTA STATE OF GOOD REPAIR	Transit Improvement	Duval

Transit asset condition and state of good repair is a consideration in the methodology that the North Florida TPO uses to select projects for inclusion in the TIP. The TIP includes specific investment priorities that support all of the MPO's goals, including transit state of good repair, using a prioritization and project selection process established in the LRTP. This prioritization process considers factors such as useful life benchmarks and maintain a state of good repair. To

Transit Asset Management Measures

support progress towards TAM performance targets, transit investment and maintenance funding in the LRTP Path Forward 2045 accounted for approximately 15.5 percent of total LRTP funding (not including SIS funding) and 35 percent of requested Jacksonville Transportation Authority funding for transit preservation. Improving the State of Good Repair (SGR) of capital assets is an overarching goal of this process.

The TIP devotes resources to projects that will maintain and improve transit state of good repair. Investments in transit assets in the TIP include \$105 million for vehicle and facility improvements.

The North Florida TIP has been evaluated and the anticipated effect of the overall program is that, once implemented, progress will be made towards achieving the TAM performance targets. The North Florida TPO will continue to coordinate with the JTA, St. Johns County Sunshine Bus and Nassau County Transit to maintain the region's transit assets in a state of good repair.

For more information on these programs and projects, see sections B, E and G.

Investment decisions for asset replacement in the FDOT Group TAM Plan inventory are made with the goal to maintain or improve the percentage of vehicles, equipment, and facilities in an adequate or better condition. FDOT and its subrecipient transit providers will monitor all assets for unsafe conditions. Identifying an opportunity to improve the safety of an asset, however, does not necessarily indicate an unsafe condition. If an unacceptable safety risk associated with an asset is identified, that asset will be ranked with higher investment priority to the extent practicable. The subrecipients prioritize the rehabilitation and replacement of vehicles that provide transit service over non-revenue vehicles and facilities.

.

Section 6

Transit Safety Performance

6.0 Transit Safety Performance

FTA's Public Transportation Agency Safety Plan (PTASP) regulations established transit safety performance management requirements for providers of public transportation systems that receive federal financial assistance under 49 U.S.C. Chapter 53.

The regulations apply to all operators of public transportation that are a recipient or sub-recipient of FTA Urbanized Area Formula Grant Program funds under 49 U.S.C. Section 5307, or that operate a rail transit system that is subject to FTA's State Safety Oversight Program. The PTASP regulations do not apply to certain modes of transit service that are subject to the safety jurisdiction of another Federal agency, including passenger ferry operations regulated by the United States Coast Guard, and commuter rail operations that are regulated by the Federal Railroad Administration.

The PTASP must include performance targets for the performance measures established by FTA in the [National Public Transportation Safety Plan](#), which was published on January 28, 2017. The transit safety performance measures are:

- Total number of reportable fatalities and rate per total vehicle revenue miles by mode.
- Total number of reportable injuries and rate per total vehicle revenue miles by mode.
- Total number of reportable safety events and rate per total vehicle revenue miles by mode.
- System reliability – mean distance between major mechanical failures by mode.

In Florida, each Section 5307 or 5311 public transportation provider must develop a System Safety Program Plan (SSPP) under Chapter 14-90, Florida Administrative Code. FDOT technical guidance recommends that Florida's transit agencies revise their existing SSPPs to be compliant with the FTA PTASP requirements.¹

Each public transportation provider that is subject to the PTASP regulations must certify that its SSPP meets the requirements for a PTASP, including transit safety targets for the federally required measures. Providers were required to certify their initial PTASP and safety targets by July 20, 2021. Once the public transportation provider establishes safety targets it must make the targets available to MPOs to aid in the planning process. MPOs are not required to establish transit safety targets annually each time the transit provider establishes targets. Instead, MPO targets must be established when the MPO updates the LRTP (although it is recommended that MPOs reflect the current transit provider targets in their TIPs).

When establishing transit safety targets, the MPO can either agree to program projects that will support the transit provider targets or establish its own separate regional transit safety targets for the MPO planning area. In addition, the North Florida TPO must reflect those targets in LRTP and TIP updates.

¹ FDOT Public Transportation Agency Safety Plan Guidance Document for Transit Agencies. Available at [ptasp-14-90-guidance-document_09112019.docx \(live.com\)](#)

6.1 Transit Safety Targets

The following public transportation provider(s) operate in the North Florida TPO planning area: JTA, St. Johns County Sunshine Bus, and Nassau County Transit. Of these, JTA and St. Johns County Sunshine Bus are responsible for developing a PTASP and establishing transit safety performance targets annually.

See example in the appendix section A.8.

6.1.1 Transit Agency Safety Targets

The JTA and St. Johns County/Sunshine Bus both established the transit safety targets identified in Table 6.1 in July 2020. These targets are updated or affirmed annually. The values displayed in the Table reflect the latest annual update from July 2022.

Table 6.1 Transit Safety Performance Targets for JTA and St. Johns County/Sunshine Bus

Transit Mode	Fatalities (total)	Fatalities (rate)	Injuries (total)	Injuries (rate)	Safety Events (total)	Safety Events (rate)	System Reliability
JTA							
Fixed Route Bus	0	0	63	0.6	35	3.5	20,000 VRM
ADA/Paratransit	0	0	9	0.2	190	4	27,500 VRM
Rail	0	0	4	3	16	12	9,440 VRM
Ferry	0	0	1	NA	1	NA	NA
St. Johns County/Sunshine Bus							
Fixed Route Bus	0	0	5	0.5	10	0.9	0.5
Paratransit	0	0	8	1.04	5	0.65	0.75

6.1.2 MPO Transit Safety Targets

As discussed above, MPOs are not required to establish transit safety targets annually each time the transit provider establishes targets. Instead, MPO's must revisit targets each time the MPO updates the LRTP. MPOs can either agree to program projects that will support the transit provider targets or establish separate regional transit safety targets for the MPO planning area. MPO targets may differ from agency targets, especially if there are multiple transit agencies in the MPO planning area.

On October 8, 2020 the North Florida TPO agreed to support both the Jacksonville Transportation Authority and St. Johns County/Sunshine Bus transit safety targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the provider's targets

6.2 Transit Safety Investments in the TIP

The North Florida TPO TIP was developed and is managed in cooperation with JTA, St. Johns County Sunshine Bus, and Nassau County Transit. It reflects the investment priorities established in the Path Forward 2045 LRTP.

FTA funding, as programmed by the region's transit providers and FDOT, is used for programs and products to improve the safety of the region's transit systems. The focus of the North Florida TPO's investments that address transit safety include the following projects:

Table 6.2 North Florida TPO Transit Safety Investments

Project Number	Project Name	Type of Work	County
4067898	ST.JOHN'S CNTY FED 5307 OPERATING GRANT	Operating For Fixed Route	St. Johns
4117591	JACKSONVILLE JTA STATE BLOCK GRANT OPERATING FUNDS	Operating For Fixed Route	Duval
4184411	ST. JOHNS COUNTY BLOCK GRANT OPERATING FUNDS	Operating For Fixed Route	St. Johns

4337151	JTA BUS AND BUS FACILITIES SECTION 5339	Transit Improvement	Duval
4337161	SECTION 5337 JTA STATE OF GOOD REPAIR	Transit Improvement	Duval

Transit safety is a consideration in the methodology the North Florida TPO uses to select projects for inclusion in the TIP. The TIP includes specific investment priorities that support all of the MPO's goals, including transit safety, using a prioritization and project selection process established in the LRTP. This process evaluates projects that, once implemented, are anticipated to improve transit safety in the MPO's planning area. This prioritization process is primarily driven by the strong partnership with the TPO's regional transit agencies. These agencies are included in the TPO's board and committees and have strong influence over the TIP development and LRTP direction.

The North Florida TPO TIP has been evaluated and the anticipated effect of the overall program is that, once implemented, progress will be made towards achieving the transit safety performance targets. The North Florida TPO will continue to coordinate with the JTA, St. Johns County Sunshine Bus, and Nassau County Transit to maintain and improve the safety of the region's transit system and maintain transit assets in a state of good repair.

The TIP devotes resources to projects that will maintain and improve transit safety. Investments in transit safety in the TIP include \$82 million for operating and safety programs and projects. For more information on these programs and projects, see sections B, E and G of the main TIP document.

For more information on these programs and projects, see sections B, E and G.
