TRANSPORTATION IMPROVEMENT PROGRAM

FY 2025/26 – 2029/30

980 North Jefferson Street, Jacksonville FL 32209

TRANSPORTATION IMPROVEMENT PROGRAM

FY 2025/26 - FY 2029/30

The Transportation Improvement Program has been developed consistent with federal and state requirements and approved by the North Florida TPO June 12, 2025.

A blue ink signature of Randy White, written in a cursive style.

The Honorable Randy White, Chairman

The preparation of this report has been financed in part through grants from the Federal Highway Administration and Federal Transit Administration, U.S. Department of Transportation, under the Metropolitan Planning Program, Section 104(f) of Title 23, U.S. Code. The contents of this report do not necessarily reflect the official views or policy of the U.S. Department of Transportation.

980 North Jefferson Street • Jacksonville, FL 32209 • www.NorthFloridaTPO.com

**RESOLUTION 2025-5
APPROVING THE TRANSPORTATION IMPROVEMENT PROGRAM FOR
FISCAL YEARS 2025/26 THROUGH 2029/30**

WHEREAS, the North Florida Transportation Planning Organization is the designated and constituted body responsible for the urban transportation planning and programming process for the Fernandina-Yulee, Jacksonville and St. Augustine Urban Areas; and

WHEREAS, the North Florida Transportation Planning Organization has, in accordance with 23 USC 134(j) and 49 USC 5303, developed a Transportation Improvement Program for Fiscal Years 2025/26 through 2029/30; and

WHEREAS, the Transportation Improvement Program, including the annual element, is a fiscally constrained subset of the adopted Long Range Transportation Plan; and

WHEREAS, the North Florida Transportation Planning Organization Board has reviewed the Final Draft Fiscal Years 2025-2030 Transportation Improvement Program (TIP), and finds it consistent with the goals and objectives of the Transportation Plan for the Fernandina-Yulee, Jacksonville and St. Augustine Urban Areas

NOW, THEREFORE, BE IT RESOLVED that the North Florida Transportation Planning Organization approves and endorses this Transportation Improvement Program for Fiscal Years 2025/26 through 2029/30.

Adopted by the North Florida Transportation Planning Organization in regular meeting assembled in the City of Jacksonville on the 12th day of June 2025.

EXECUTIVE SUMMARY

PURPOSE

The Transportation Improvement Program (TIP) is a staged multi-year program of transportation project improvements to be implemented during the next five-year period in the North Florida TPO area which will be funded by Title 23 U.S.C. and 49 U.S.C Chapter 53 funds and includes all regionally significant projects regardless of funding source. In addition, for information purposes and air quality conformity analysis, the TIP identifies all regionally significant transportation projects requiring Federal Highway Administration (FHWA) and/or Federal Transit Administration (FTA) approval, regardless of funding source(s), as defined in 40 CFR 51.392. The TIP also includes a listing of projects that are financed with non-federal dollars, which assist local governments within the North Florida TPO area with their transportation planning efforts. Projects listed in the TIP include recommended improvements consistent with the approved 2050 Long Range Transportation Plan and the adopted comprehensive plans of member local governments within the North Florida TPO area. In addition, non-federally funded projects are included for information.

TIME FRAME

This document includes a five-year implementation schedule for Fiscal Year 2025/2026 through Fiscal Year 2029/2030. Herein, Fiscal Year July 1, 2025 to June 30, 2026 pertains to the Florida Department of Transportation (FDOT). All other agency projects proposed within the five-year TIP are based upon the fiscal year beginning October 1 through September 30.

FINANCIAL PLAN

The TIP is financially constrained for each year. Federally funded projects identified in the TIP can be implemented using current and proposed revenue sources based on the FDOT Tentative Work Program and locally dedicated transportation revenues. In section II a five-year financial summary of federal and non-federal funded projects is included in the TIP. This summary provides a listing of the federal funding codes as well as the dollar amounts allocated to each by fiscal year. Also included in the financial summary by funding code is a project list to be implemented, project description, phasing schedule by fiscal year, and the amount of funds allocated.

To further ensure the financial soundness of the TIP, all projects funded by the FDOT with federal or non-federal dollars are considered committed projects if included in the first three years of the FDOT Five-Year Work Program. Section 339.135 (4)(b)(5) Florida Statutes mandates that the FDOT Work Program includes a balanced 36-month forecast of cash and expenditures and a five-year finance plan supporting the Work Program. All local government projects (non-federally funded) that are included in the TIP are part of a member local government's capital improvement program. Non-federally funded projects with funding in the first year of local government

capital improvement elements or capital improvement programs are considered to be committed projects, as indicated in Appendix II of the TIP. Additional projects that would be included in the approved TIP if reasonable additional resources beyond those identified in the financial plan were available may be identified pursuant to s.339.175(8)(c)(3), F.S.

The TIP is developed by the TPO in cooperation with the State and the public transit operator, who will provide the TPO with estimates of Federal and State funds for the TPO to develop the financial plan.

YEAR OF EXPENDITURE (YOE)

The TIP is presented in Year of Expenditure (YOE) dollars, which are adjusted for inflation from the present time to the expected year of construction. Using YOE ensures that the more accurate cost estimates are used in planning, programming and implementing projects.

Planning regulations require that revenue and cost estimates in the Long-Range Transportation Plan (LRTP), State Transportation Improvement Program (STIP) and the TIP must use inflation or growth rate(s) to reflect “year of expenditure dollars,” based on reasonable financial principles and information, developed cooperatively by the State, MPOs and public transportation operators.

CONSISTENCY

All projects in the TIP are supported and documented in the 2050 LRTP adopted November 6, 2024. Regionally significant projects have individual LRTP reference numbers in each TIP item. All other projects are supported in the 2050 LRTP in the Goals and Objectives found in Appendix III. To the maximum extent feasible, projects are consistent with port and aviation master plans, public transit developments plans and approved local government comprehensive plans.

The TIP projects are also consistent with the State Freight Plan and Asset Management Plan. Here are the links to those plans:

<https://www.fdot.gov/rail/plandev/freight-mobility-and-trade-plan> and

<https://fdotwww.blob.core.windows.net/sitefinity/docs/default-source/planning/tamp/fdot-tamp.pdf>

PROJECT PRIORITY STATEMENT

The TIP for Fiscal Years 2025/2026 through 2029/2030 begins with the *List of Priority Projects (LOPP)* which is used in developing the Florida Department of Transportation's (FDOT) Tentative Five-Year Work Program FY 2025/26 – 2029/30. The LOPP identifies potential projects to be funded in the new fifth year (FY 2029/2030) of the FDOT Work Program.

Projects are first prioritized in the LRTP. More details about prioritization can be found in the [2050 LRTP webpage](#). The LOPP is submitted annually to FDOT to recommend the inclusion of candidate projects in the FDOT Program. The LOPP includes a prioritized listing of state highway, mass transit, aviation, intermodal, and Transportation Alternative Program (TAP) and TRIP projects.

Projects selected are consistent with provisions of the Infrastructure Investment and Jobs Act (IIJA), the Florida Department of Transportation's Adopted Five Year Work Program, and federal requirements including 23 C.F.R 450.332(c). The projects are financially feasible for the appropriate funding category and represent the North Florida TPO's priorities. The FY 2025/2026 through 2029/2030 TIP is consistent with the adopted 2050 LRTP.

The LOPP process is as follows:

1) Develop List of Candidate Projects (*December – January*)

a) A list of candidate projects is developed from the following:

- Projects in the previous year List of Priority Projects not funded through construction.
- Local County/City submittals within the North Florida TPO area
- Local Airport and Transit Authority submittals within the North Florida TPO area
- Congestion Management Process
- Public Input

2) Ranking the List of Candidate Projects (*February*)

a) Unless otherwise indicated, projects were initially prioritized in Path Forward 2050, the North Florida TPO's Long Range Transportation Plan adopted November 6, 2024.

b) TPO Staff works with local governments to develop a preliminary List of Priority Projects to submit to the Technical Advisory Committee (TAC), Citizens Advisory Committee (CAC) and Transportation Planning Organization (TPO) Board for review and approval at the March TAC, CAC and TPO Board Meetings.

c) Mass transit and aviation projects are prioritized by the submitting agencies and are forwarded to the North Florida TPO to include in the LOPP Document.

3) TPO Board approval and submittal of the *List of Priority Projects to FDOT (March)*

TPO priorities are adopted annually and submitted by each county commission. The list is subject to change based on each county priority ranking.

PUBLIC PARTICIPATION

As a result of the North Florida TPO Public Participation Process, developed and adopted pursuant to the requirements of 23 CFR 450.316(b)(1), the North Florida TPO is committed to effective and enhanced public involvement in developing its plans and programs. Public input into the TIP, in May 2025, was accomplished by a combination of the following:

While developing the TIP, County-specific PowerPoint virtual presentations were be delivered for Clay, Duval, Nassau and St Johns Counties as well as a Regional TIP Virtual public meeting on May 22. Recordings of these presentations were posted online. A presentation of the TIP was also delivered in-person to the North Florida TPO TAC, CAC and Board meetings for input and feedback.

The TIP was developed with reasonable opportunity for public comment in accordance with the requirements of 23 CFR 450.316 and 23 C.F.R 450.326(b). In addition of sharing the TIP meeting information with TPO Committees and county / city contacts (Public Information Officers in the TPO area), our public involvement efforts included promoting the virtual presentations through the TPO's e-newsletter (3,200 recipients), newspaper advertising, TPO's social media, as well as through local digital news media like News4Jax (see link to TIP report below) and JAX Today with a 30,000 readership. (<https://www.news4jax.com/news/local/2025/05/15/kings-road-corridor-set-for-upgrades-in-new-transportation-plan/>) .

The draft TIP was made available to the general public and groups' identified above for review and comments via the TPO's website as a PDF format: <https://northfloridatpo.com/planning/tip> as well as thru the public facing website of our Interactive TIP tool: <https://northfloridatpo.ecointeractive.com/home/>. To increase our efficiency and transparency, the Interactive TIP Tool allows the public to see proposed changes before they are adopted and provide more project information, regular updates, and the opportunity for the public to ask questions or provide comments on projects and changes. Finally, a web-based public involvement tool <https://publicinput.com/2025tip> was used to gather input. Public outreach results are documented below. All comments and responses are documented in Appendix VI. Comments were forwarded to the agency responsible.

TIP MODIFICATION AND AMENDMENT PROCESS

The TIP modification and amendment process is outlined in the North Florida TPO Public Participation Plan on the TPO website:
https://northfloridatpo.com/uploads/TPO-Public-Participation-Plan-2023-Update_2023-02-28-155023_tquy.pdf

CERTIFICATION

The North Florida TPO's Federal Transportation Management Area (TMA) quadrennial certification review was conducted virtually on May 2, 2024. FHWA and FTA jointly certified that the transportation planning process of the North Florida TPO substantially meets the federal planning requirements in 23 CFR 450 Subpart C. This certification remains in effect until September 2028.

In the interim of the Federal quadrennial review process, the North Florida TPO and FDOT annually conduct a Joint Certification, which was last completed April 10, 2025.

MANAGEMENT SYSTEMS

The North Florida TPO Congestion Management Process (CMP) was updated in June 2024. The CMP identifies many improvements that can enhance traffic operations, decrease congestion, and improve the travel environment. These improvements include transportation demand management (TDM) strategies, strategies to promote increased transit, bicycle and pedestrian travel, and strategies that provide for more efficient traffic operations. Traffic operations and access management strategies include Intelligent

Transportation Systems (ITS) and emerging technology solutions. These strategies are being incorporated into the TIP as funding becomes available. The projects that are included in this TIP are consistent with the Congestion Management System, as well as the projects that were advanced from previous TIPs.

All capital improvement projects on identified congestion management corridors and/or hot spots will be considered for congestion management. The TPO staff along with the committees and board identify projects from the CMP to be included in the TIP based on the following criteria: 1) identify high priority projects based on the ranking provided for the congested corridors within the CMP; and 2) obtain stakeholder input on the projects identified and refine the order based on their input. The projects listed in the TIP identify a funding source to implement the proposed improvement(s) on the selected congested corridors.

FULL PROJECT COSTS AND OTHER PROJECT DETAILS

Strategic Intermodal System (SIS) Projects

The normal project production sequence is to have a Project Development and Environment (PD&E) phase, a Design (PE) phase, a Right of Way (ROW) phase and a Construction (CST) or Design Build (DSB) phase. Some projects may not have a ROW phase, if land is not needed to complete the project. Costs on the TIP pages for projects on the SIS will have historical costs, five years of the current TIP and five years beyond the current TIP, which may or may not be the total project cost. If there is no CST or DSB phase on the TIP page, then the entry will probably not reflect the total project cost. For some projects, such as resurfacing, safety or operational projects, there may not be a total cost provided but rather additional details on that program.

The SIS is a network of high priority transportation facilities which includes the state's largest and most significant commercial service airports, spaceport, deepwater seaports, freight rail terminals, passenger rail and intercity bus terminals, rail corridors, waterways and highways. All projects on the SIS will have a SIS identifier on the TIP page. For costs beyond the 10-year window, access to the Long-Range Transportation Plan (LRTP) is provided. The North Florida TPO's Long Range Transportation Plan Path Forward 2050 can be found at www.NorthFloridaTPO.com. The LRTP reference on the TIP page is from the Path Forward 2050 LRTP Project Master List located in Appendix II and provides details regarding the project in the LRTP. Full project cost information can be found in Appendix VII of the TIP document. If there is no LRTP reference in the TIP, total project costs are provided in the TIP.

Non-SIS projects

The normal project production sequence is to have a Project Development and Environment (PD&E) phase, a Design (PE) phase, a Right of Way (ROW) phase and a Construction (CST) phase. Some projects may not have a ROW phase, if land is not needed to complete the project. Costs on the TIP pages for projects not on the SIS will have historical costs and five years of the current TIP, which may or may not be the total project cost. If there is no CST phase on the TIP page, then the entry will probably not reflect the total project cost. For

some projects, such as resurfacing, safety or operational projects, there may not be a total cost provided but rather additional details on that program.

Total project costs and other project details will be accessible on the TIP for all non-SIS projects in the TIP. All projects not on the SIS will have a non-SIS identifier on the TIP page.

For costs beyond the five-year window, access to the LRTP is provided. The North Florida TPO's Long Range Transportation Plan Path Forward 2050 can be found at www.NorthFloridaTPO.com. The LRTP reference on the TIP page is from the Path Forward 2050 LRTP Master Project List located in Appendix II and provides details regarding the project in the LRTP. Full project cost information can be found in Appendix VII of the TIP document. If there is no LRTP reference in the TIP, total project costs are provided in the TIP.

TRANSPORTATION DISADVANTAGED

The Transportation Disadvantaged Program is a coordinated, statewide initiative that provides shared-ride services for individuals who are unable to transport themselves or afford necessary transportation. This includes at-risk children, seniors, individuals with disabilities, and low-income residents. Available in all 67 Florida counties, the program serves eligible residents who, due to physical or mental disability, income limitations, or age, lack reliable transportation options. Through a partnership of federal, state, and local agencies, the program ensures access to essential services such as medical care, employment, education, and other life-sustaining needs.

The Northeast Florida Regional Council serves as the designated official planning agency (DOPA) for coordinating transportation services for transportation-disadvantaged individuals in Clay, Duval, Nassau, and St. Johns Counties. The Council has established a Transportation Disadvantaged Local Coordinating Board (TDLCB) in each county to oversee the transit agency responsible for serving the transportation disadvantaged population (Community Transportation Coordinator (CTC)). The Community Transportation Coordinator (CTC) for Duval, Clay, and Nassau Counties is the Jacksonville Transportation Authority, while for St. Johns County, the CTC is the St. Johns County Council on Aging. Each TD board is composed of a diverse group of stakeholders, including representatives from state and local social service agencies, system users, senior citizens, and other community members. Every year each Transportation Disadvantaged Coordinating Board (TDLCB) approves the Transportation Disadvantaged Service Plan (TDSP) which consists of a minor update annually and a major update every five years. For more information about Duval, Clay, Nassau and St Johns Counties TDSP's, visit: <https://www.nefrc.org/transportation-disadvantaged>

The state of Florida, through the Florida Commission for the Transportation Disadvantaged, provides annual funding to both the designated official planning agency (DOPA) and the Community Transportation Coordinator (CTC). CTCs determine how its allocated funds are used, with the flexibility to dedicate 100% of the funding to providing transportation services for the disadvantaged population

and/or to purchase equipment necessary to support those services. Counties that choose to use the funds for passenger trips are required to establish eligibility criteria to ensure that services are delivered exclusively to individuals who meet the definition of "transportation disadvantaged" as outlined in Florida Statutes. In addition, the designated official planning agency for the county receives an annual allocation based on formula for planning activities.

Appendix VIII outlines the Transportation Disadvantaged Trust Fund (TDTF) allocations for Clay, Duval, Nassau, and St. Johns Counties for FY 2025-2026. TDTF funding consists of 80% federal and 20% state contributions and is distributed to each county's CTC.

If you have any questions or comments pertaining to TPO plan, programs or projects **please contact us** at (904) 306-7500. Our address is 980 North Jefferson St., Jacksonville, FL 32209. For complaints, questions or concerns about civil rights or non-discrimination, or for special requests under the Americans with Disabilities Act, please contact **Marci Larson**, Public Affairs Manager/ Title VI Coordinator at (904) 306-7513 or mlarson@northfloridatpo.com

Section J - Amendments

TIP amendment reports will be posted as separate documents throughout the fiscal year (beginning in October 2025 and through August 2026) in both the North Florida TPO's website and the Interactive TIP website.

Links are provided below:

<https://northfloridatpo.com/planning/tip>

<https://northfloridatpo.ecointeractive.com/>

A video tutorial is available to explain how to use the TIP website's interactive features. A link to the video is provided below:

APPENDIX I

Abbreviations & Acronyms

ABBREVIATIONS AND FUNDING SOURCES

AGENCIES

FAA	Federal Aviation Administration
FHWA	Federal Highway Administration
FTA	Federal Transit Administration
JAA	Jacksonville Aviation Authority
JTA	Jacksonville Transportation Authority
SA/STJAA	St. Augustine/St. Johns County Airport Authority

PROJECT PHASES

ADM	Administration
CAP	Capital
CST	Construction
DSB	Design Build
ENV	Environmental
INC	Contract Incentives
LAR	Local Advance Reimbursement

MNT	Bridge/Roadway/Contract Maintenance
MSC	Miscellaneous
OPS	Operations
PDE	Project, Development & Environment Study
PE	Preliminary Engineering
PLN	Planning
ROW	Right-of-Way Acquisition
RPY	Repayments
RRU	Railroad/Utilities

FUNDING SOURCES (as of 4/8/2025)

Code	Description
ACBR	ADVANCE CONSTRUCTION (BRT)
ACBZ	ADVANCE CONSTRUCTION (BRTZ)
ACCM	ADVANCE CONSTRUCTION (CM)
ACER	ADVANCE CONSTRUCTION (ER)
ACFP	AC FREIGHT PROG (NFP)
ACID	ADV CONSTRUCTION SAFETY (HSID)

ACLD	ADV CONSTRUCTION SAFETY (HSLD)
ACNP	ADVANCE CONSTRUCTION NHPP
ACNR	AC NAT HWY PERFORM RESURFACING
ACPR	AC - PROTECT GRANT PGM
ACSA	ADVANCE CONSTRUCTION (SA)
ACSL	ADVANCE CONSTRUCTION (SL)
ACSM	STBG AREA POP. W/ 5K TO 49,999
ACSN	ADVANCE CONSTRUCTION (SN)
ACSS	ADVANCE CONSTRUCTION (SS,HSP)
ACSU	ADVANCE CONSTRUCTION (SU)
ARDR	ARPA- SCETS MOTOR FUEL TAX
ARPA	AMERICAN RESCUE PLAN ACT
ARPI	ARPA INTEREST
ART	ARTERIAL HIGHWAYS PROGRAMS
ARTW	ARTERIAL WIDENING PROGRAM
BNBR	AMENDMENT 4 BONDS (BRIDGES)
BNDS	BOND - STATE
BNIR	INTRASTATE R/W & BRIDGE BONDS

BRAS	ANCILLARY STRUCTURES
BRP	STATE BRIDGE REPLACEMENT
BRRP	STATE BRIDGE REPAIR & REHAB
BRRR	BRIDGE REPAIR RAILROADS
BRTD	FED BRIDGE REPL--DISCRETIONARY
BRTZ	FED BRIDGE REPL - OFF SYSTEM
CARB	CARBON REDUCTION GRANT PGM
CARL	CARB FOR URB. LESS THAN 200K
CARM	CARB FOR SM. URB. 5K - 49,999
CARN	CARB FOR RURAL AREAS < 5K
CARU	CARB FOR URB. AREA > THAN 200K
CD22	CONGRESS GF EARMARKS HIP 2022
CD23	CONGRESS GF EARMARKS HIP 2023
CD24	CONGRESS GF EARMARKS HIP 2024
CIGP	COUNTY INCENTIVE GRANT PROGRAM
CM	CONGESTION MITIGATION - AQ
D	UNRESTRICTED STATE PRIMARY
DC	STATE PRIMARY PE CONSULTANTS

DDR	DISTRICT DEDICATED REVENUE
DEM	ENVIRONMENTAL MITIGATION
DER	EMERGENCY RELIEF - STATE FUNDS
DFTA	FED PASS-THROUGH \$ FROM FTA
DI	ST. - S/W INTER/INTRASTATE HWY
DIH	STATE IN-HOUSE PRODUCT SUPPORT
DIOH	STATE 100% - OVERHEAD
DIS	STRATEGIC INTERMODAL SYSTEM
DITS	STATEWIDE ITS - STATE 100%.
DL	LOCAL FUNDS - PTO - BUDGETED
DPTO	STATE - PTO
DRA	REST AREAS - STATE 100%
DS	STATE PRIMARY HIGHWAYS & PTO
DSB0	UNALLOCATED TO FACILITY
DSB1	SKYWAY
DSB2	EVERGLADES PKY/ALLIGATOR ALLEY
DSB3	PINELLAS BAYWAY
DSB7	MID-BAY BRIDGE AUTHORITY

DSBC	GARCON POINT BRIDGE
DSBD	I-95 EXPRESS LANES
DSBF	I-595
DSBG	I-75 ML TOLL CAP IMPROVEMENT
DSBH	I-4 ML TOLL CAP IMPROVEMENT
DSBI	PALMETTO ML TOLL CAP IMPROVE
DSBJ	I-295 EXPRESS LANES - CAPITAL
DSBK	TAMPA BAY EXPRESS LANES
DSBT	TURNPIKE/REIMBURSED BY TOLL
DSBW	WEKIVA PARKWAY
DSPC	SERVICE PATROL CONTRACT
DU	STATE PRIMARY/FEDERAL REIMB
DUCA	TRANSIT CARES/CRRSAA ACT
DWS	WEIGH STATIONS - STATE 100%
EB	EQUITY BONUS
EM19	GAA EARMARKS FY 2019
EM25	GAA EARMARKS FY 2025
ER17	2017 EMERGENCY RELIEF EVENTS

ER22	2022 EMERGENCY RELIEF EVENTS
ER23	2023 EMERGENCY RELIEF EVENTS
F001	FEDERAL DISCRETIONARY - US19
FAA	FEDERAL AVIATION ADMIN
FBD	FERRYBOAT DISCRETIONARY
FC5	OPEN GRADE FRICTION COURSE FC5
FCO	PRIMARY/FIXED CAPITAL OUTLAY
FEMA	FED EMERGENCY MGT AGENCY
FHPP	FEDERAL HIGH PRIORITY PROJECTS
FINC	FINANCING CORP
FLAP	FEDERAL LANDS ACCESS PROGRAM
FRA	FEDERAL RAILROAD ADMINISTRATN
FTA	FEDERAL TRANSIT ADMINISTRATION
FTAT	FHWA TRANSFER TO FTA (NON-BUD)
GFBR	GEN FUND BRIDGE REPAIR/REPLACE
GFBZ	GENERAL FUND BRIDGE OFF-SYSTEM
GFEV	GEN. FUND EVEHICLE CHARG. PGM
GFNP	NP FEDERAL RELIEF GENERAL FUND

GFSA	GF STPBG ANY AREA
GFSL	GF STPBG <200K<5K (SMALL URB)
GFSN	GF STPBG <5K (RURAL)
GFSU	GF STPBG >200 (URBAN)

GR23	GAA EARMARKS FY2023
GR24	GAA EARMARKS FY2024
GR25	GAA EARMARKS FY 2025
GRD	D FUNDS-GENERAL REVENUE
GRSC	GROWTH MANAGEMENT FOR SCOP
GRTR	FY2024 SB106 TRAIL NETWORK
HILL	HILLSBOROUGH CO SURTAX RESURF
HP	FEDERAL HIGHWAY PLANNING
HPP	HIGH PRIORITY PROJECTS
HR	FEDERAL HIGHWAY RESEARCH
HSP	SAFETY (HIWAY SAFETY PROGRAM)
HSPT	SAFETY EDUCATIONAL-TRANSFERRED
LF	LOCAL FUNDS

LFB	LOCAL FUNDS BUDGET
LFBN	LOCAL TO RESERVE BNDS BUDGET
LFD	"LF" FOR STTF UTILITY WORK
LFF	LOCAL FUND - FOR MATCHING F/A
LFI	LOCAL FUNDS INTEREST EARNED
LFNE	LOCAL FUNDS NOT IN ESCROW
LFP	LOCAL FUNDS FOR PARTICIPATING
LFR	LOCAL FUNDS/REIMBURSABLE
LFRF	LOCAL FUND REIMBURSABLE-FUTURE
LFU	LOCAL FUNDS_FOR UNFORSEEN WORK
MFF	MOVING FLORIDA FOWARD
NAEP	NEIGHBORHOOD ACCESS & EQUITY
NFP	NATIONAL FREIGHT PROGRAM
NFPD	NAT FREIGHT PGM-DISCRETIONARY
NH	PRINCIPAL ARTERIALS
NHBR	NATIONAL HIGWAYS BRIDGES
NHPF	NAT HWY PERF PGM-XFER FROM NFP
NHPP	IM, BRDG REPL, NATNL HWY-MAP21

NHRE	NAT HWY PERFORM - RESURFACING
NHTS	NATIONAL HWY TRAFFIC SAFETY
NSTP	NEW STARTS TRANSIT PROGRAM
NSWR	2015 SB2514A-NEW STARTS TRANST
PKBD	TURNPIKE MASTER BOND FUND
PKED	2012 SB1998-TURNPIKE FEEDER RD
PKLF	LOCAL SUPPORT FOR TURNPIKE
PKM1	TURNPIKE TOLL MAINTENANCE
PKOH	TURNPIKE INDIRECT COSTS
PKYI	TURNPIKE IMPROVEMENT
PKYO	TURNPIKE TOLL COLLECTION/OPER.
PKYR	TURNPIKE RENEWAL & REPLACEMENT
PL	METRO PLAN (85% FA; 15% OTHER)
PLH	PUBLIC LANDS HIGHWAY
PLHD	PUBLIC LANDS HIGHWAY DISCR
POED	2012 SB1998-SEAPORT INVESTMENT
PORB	PORT FUNDS RETURNED FROM BONDS
PORT	SEAPORTS

PROD	PROTECT DISC. GRANT PROGRAM
PROT	PROTECT GRANT PROGRAM
RBRP	REIMBURSABLE BRP FUNDS
RCP	RECONNECTING COMM. PILOT PGM
RECT	RECREATIONAL TRAILS
RED	REDISTR. OF FA (SEC 1102F)
REPE	REPURPOSED FEDERAL EARMARKS
RHH	RAIL HIGHWAY X-INGS - HAZARD
RHP	RAIL HIGHWAY X-INGS - PROT DEV
ROWR	ROW LEASE REVENUES
S117	STP EARMARKS - 2005
S99A	TRANS TO SIB FROM NH,IM,BRT
SA	STP, ANY AREA
SABR	STP, BRIDGES
SAFE	SECURE AIRPORTS FOR FL ECONOMY

APPENDIX III

Path Forward 2050 LRTP Goals and Objectives

November 2023
Prepared by: Atkins

Technical Report 2

Goals and Objectives

NORTH FLORIDA
TPO 

Table of Contents

2050 Long Range Transportation Plan (LRTP) Goals and Objectives	1
GOAL 1: INVEST IN PROJECTS THAT ENHANCE ECONOMIC COMPETITIVENESS	2
GOAL 2: INVEST IN LIVABLE AND SUSTAINABLE COMMUNITIES	3
GOAL 3: ENCOURAGE SAFE AND SECURE TRAVEL	5
GOAL 4: ENHANCE MOBILITY AND ACCESSIBILITY	6
GOAL 5: ENHANCE EQUITY IN DECISION MAKING	8
GOAL 6: PRESERVE AND MAINTAIN OUR EXISTING SYSTEM	10
GOAL 7: CREATE RELIABLE AND RESILIENT MULTIMODAL INFRASTRUCTURE	13
GOAL 8: ENHANCE TOURISM TRANSPORT MANAGEMENT	14
GOAL 9: ENSURE NORTH FLORIDA IS READY FUTURE TECHNOLOGIES THAT SUPPORT TRANSPORTATION	15

Goals and Objectives

2050 Long Range Transportation Plan (LRTP) Goals and Objectives

It is the North Florida Transportation Planning Organization's (TPO's) mission to provide a regional forum for developing a transportation system that moves people and goods safely, economically, and efficiently while maintaining a high quality of life in North Florida. The TPO's vision is to promote the regional optimization of mobility consistent with the values of local communities through the Long Range Transportation Plan (LRTP). The LRTP indicates the transportation improvements necessary for optimal movement of people and goods, based on current needs and forecasted future growth. The recommended transportation improvement projects in the plan are guided by defined goals, objectives, and performance measures.

Specifically, the LRTP goals and objectives are to:

1. Encourage Safe and Secure Travel
2. Invest in Projects that Enhance Economic Competitiveness
3. Invest in Livable and Sustainable Communities
4. Enhance Mobility and Accessibility
5. Enhance Equity in Decision Making
6. Preserve and Maintain Our Existing System
7. Create Reliable and Resilient Multimodal Infrastructure
8. Enhance Tourism Transport Management
9. Ensure North Florida is Ready Future Technologies That Support Transportation

The goals, objectives, and performance measures proposed are based on the transportation user's point of view as explained in the document below. The order of the goals and objectives does not indicate priority.

Goals and Objectives

GOAL 1: INVEST IN PROJECTS THAT ENHANCE ECONOMIC COMPETITIVENESS

Investing in projects that enhance economic competitiveness focus on improving travel time reliability (the principal factor for freight operators), enhancing access to jobs, and maximizing return on investment.

The objectives associated with this enhancing economic competitiveness are listed below.

OBJECTIVE 1.1: Improve travel reliability on major freight routes.

Performance Measure		Benchmark
1.1.1	Truck Travel Time Reliability Index. The Truck Travel Time Reliability Index compares longer travel times (95 th percentile) to the normal travel time for trucks. This is expressed as a ratio called the Truck Travel Time Reliability Index, or TTTR.	Truck Travel Time Reliability Index less than 2.0

OBJECTIVE 1.2: Maintain adequate infrastructure conditions on primary freight corridors.

Performance Measure		Benchmark
1.2.1	Percentage of primary freight corridor mileage with pavement in poor condition	Maintain and improve

Objective 1.3: Invest in infrastructure that supports growth and logistics.

Performance Measure		Benchmark
1.3.1	Number of automobiles shipped	Annual monitoring of automobiles shipped
1.3.2	Number of tons shipped	Annual monitoring of tons shipped
1.3.3	Number of containers shipped (20-ft Equivalency Units [TEU])	Annual monitoring of containers shipped
1.3.4	Air cargo shipped (1,000 lbs. loaded weight)	Annual monitoring of air cargo shipped

Goals and Objectives

GOAL 2: INVEST IN LIVABLE AND SUSTAINABLE COMMUNITIES

There is no single definition of what constitutes a “livable” or “sustainable” transportation system. However, the North Florida TPO adopted the following definition of a sustainable transportation system published by the Transportation Research Board Sustainable Transportation Indicators Subcommittee:

*Allows the **basic access** and development needs of individuals, companies, and society to be met **safely** and in a manner consistent with **human and ecosystem health** and **promotes equity** within and between successive generations.*

*Is **affordable**, operates fairly and **efficiently**, offers a **choice of transportation modes**, and supports a **competitive economy**, as well as **balanced regional development**.*

***Limits air, water, noise emissions, waste, and resource use.** Limits emissions and waste within the planet’s ability to absorb them, uses renewable resources at or below their rates of generation, and uses non-renewable resources at or below the rates of development of renewable substitutes while minimizing the impact on the use of land and the generation of noise.*

The goals associated with livability and sustainability are listed below.

OBJECTIVE 2.1: Enhance transit accessibility.

Performance Measure		Benchmark
2.1.1	Transit on-time performance	Maintain or improve the percent on-time arrival at transit stops.
2.1.2	Use of park-and-ride lots.	Maintain or increase the number of park and ride lots.

OBJECTIVE 2.2: Enhance bicycle and pedestrian quality of service throughout the region.

Policy		Benchmark
2.2.1	Create a network of connected bicycle and pedestrian facilities	Maintain or improve context appropriate bicycle and pedestrian facilities.
2.2.2	Pedestrian and bicycle Level of Traffic Stress (LTS)	Maintain or reduce pedestrian and bicycle LTS

Goals and Objectives

OBJECTIVE 2.3: Reduce the impacts of investments on the natural environment.

Policy		Benchmark
2.3.1	Environmental screening and mitigation	Apply Efficient Transportation Decision Making (ETDM) Process to all projects in LRTP.

OBJECTIVE 2.4: Reduce emissions from automobiles.

Performance Measure		Benchmark
2.4.1	Carbon dioxide, nitrous oxides, and volatile organic compound emissions due to reduced delay.	Maintain or reduce emissions from vehicles caused by travel delays and vehicle-miles traveled the evaluation of projects/scenarios.
2.4.2	Emissions due to promoting alternative fuels.	Maintain or reduce emissions by expanding the market share of alternative fuel vehicles. ¹

¹The TPO has an Alternative Fuels Master Plan and a Clean Fuels Program promoting alternative fuels and alternative fuel vehicles.

OBJECTIVE 2.5: Support regional evacuation needs.

Policy		Benchmark
2.5.1	Projects that improve evacuation routes.	Evaluation of projects.

OBJECTIVE 2.6: Provide more trails to connect destinations throughout the region, including the completion of existing regional and local trail systems.

Policy		Benchmark
2.6.1	Miles of multi-use trails that connect destinations	Maintain and increase the miles of multi-use trails.

OBJECTIVE 2.7: Provide more pedestrian facilities to connect destinations throughout the region.

Policy		Benchmark
2.7.1	Total sidewalk mileage	Maintain and increase the total miles of sidewalks.

Goals and Objectives

OBJECTIVE 2.8: Provide more bicycle facilities to connect destinations throughout the regions.

Policy		Benchmark
2.8.1	Total bicycle network mileage	Maintain and increase the total miles of sidewalks.

GOAL 3: ENCOURAGE SAFE AND SECURE TRAVEL

Investing in projects and programs that enhance safety will lead to reduced crashes and lower crash severity for all modes.

OBJECTIVE 3.1: Reduce crashes for all modes.

Policy		Benchmark
3.1.1	Reduce the number of fatalities on the transportation network	Reduce the number of fatalities to zero.
3.1.2	Reduce the number of serious injuries	Reduce the number of serious injuries to zero.
3.1.3	Reduce the fatality rate.	Reduce the fatality rate on the transportation network to zero.
3.1.4	Reduce the serious injury rate.	Reduce the serious injury rate on the transportation system to zero.
3.1.5	Reduce the total number of non-motorized fatalities	Reduce the total number of non-motorized fatalities on the transportation network to zero.
3.1.6	Reduce the total number of non-motorized serious injuries.	Reduce the total number of non-motorized serious injuries on the transportation network to zero.

OBJECTIVE 3.2: Promote the implementation of safety and security improvements in the design or retrofit of all transportation systems.

Goals and Objectives

Policy		
3.2.1	Implemented safety measures on high crash corridors identified in the Regional Strategic Safety Plan.	Reported in the Regional Strategic Safety Plan.

GOAL 4: ENHANCE MOBILITY AND ACCESSIBILITY

Enhancing mobility includes addressing the four dimensions of mobility – quantity of travel, quality of travel, system accessibility and system utilization. Several of these measures also support other goals and objectives (such as livability and sustainability).

Mobility is about more than increasing the volume of persons served and managing congestion. Users want a less stressful commute, but they also want improved reliability of their travel, more choices including transit, walking, and bicycling and to ensure we optimize system operations before we invest in new infrastructure. Understanding the trade-offs of these goals in the context of each corridor being considered is an essential element in identifying the right mobility solution for any project.

OBJECTIVE 4.1: Optimize the quantity of travel.

Performance Measure		Benchmark
4.1.1	Vehicle-miles traveled	Increase in vehicle occupancy.
4.1.2	Person-miles traveled	
4.1.3	Vehicle occupancy	
4.1.4	Transit ridership	Increase transit ridership
4.1.5	Air travel passengers	Increase air traffic passengers
4.1.6	Transit ridership	Increase transit riders

OBJECTIVE 4.2: Optimize the quality of travel.

Performance Measure		Benchmark
4.2.1	Average Vehicle Delay	Maintain or reduce the average vehicle delay
4.2.2	Average Commute Time	Maintain or reduce the average commute time

Goals and Objectives

4.2.3	Interstate Level of Travel Time Reliability - Percent of person-miles traveled on the Interstate that are reliable	Maintain or improve the Interstate Level of Travel Time Reliability of 70%. This figure will be revisited every 4 years..
4.2.4	Non-Interstate Level of Travel Time Reliability - Percent of person-miles traveled on the Non-Interstate that are reliable	Maintain or improve the Non-Interstate Level of Travel Time Reliability of 50%. This figure will be revisited every 4 years.

4.2.5	Level of service on rural facilities	Maintain the level of service standard (FDOT standard for Strategic Intermodal System facilities and local government standards for other facilities)
-------	--------------------------------------	---

OBJECTIVE 4.3: Optimize the utilization of the system.

Performance Measure		Benchmark
4.3.1	Percent of system heavily congested as defined in the FDOT Sourcebook	Maintain or reduce the percentage of miles congested by adding capacity for people vs cars.
4.3.2	Duration of congestion	Maintain or reduce the duration of congestion

OBJECTIVE 4.4: Deploy strategies to support First Mile/Last Mile travel options.

Policy	
4.4.1	Complete First Mile/Last Mile Plan

Goals and Objectives

GOAL 5: ENHANCE EQUITY IN DECISION MAKING

Enhancing equity in decision-making emphasizes the principle of 'Environmental Justice'. The United States Environmental Protection Agency (EPA) defines Environmental Justice as follows.

Environmental Justice is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies. EPA has this goal for all communities and persons across this Nation [sic]. It will be achieved when everyone enjoys the same degree of protection from environmental and health hazards and equal access to the decision-making process to have a healthy environment in which to live, learn, and work.

Additionally, the United States Department of Transportation defines three fundamental Environmental Justice principles for the Federal Highway Administration and the Federal Transit Administration as follows:

1. *To avoid, minimize, or mitigate disproportionately high and adverse human health and environmental effects, including social and economic effects, on minority populations and low-income populations.*
2. *To ensure the full and fair participation by all potentially affected communities in the transportation decision-making process.*
3. *To prevent the denial of, reduction in, or significant delay in the receipt of benefits by minority and low-income populations.*

To address these goals, these three principles are adopted as objectives for this LRTP listed below. The performance measures associated with each objective are less quantifiable than the objectives associated with other goals and are more process-oriented. These three factors will be considered as part of the Needs Plan and Cost Feasible Plan and will be implemented using Geographic Information Systems techniques to identify the minority and low-income populations and by designing outreach programs to involve minority and low-income populations.

Goals and Objectives

OBJECTIVE 5.1: Avoid, minimize, or mitigate disproportionately high and adverse human health and environmental effects (including social and economic effects) on minority and low-income populations.

OBJECTIVE 5.2: Ensure full and fair participation by all potentially affected communities in the transportation decision-making process.

Policy	
5.2.1	Adherence to the Public Involvement Plan

OBJECTIVE 5.3: Prevent the denial of, reduction in, or significant delay of the receipt of benefits by minority and low-income populations.

Policy		Benchmark
5.3.1	Number of projects in low-income and minority census tracts	Evaluation of projects

Goals and Objectives

GOAL 6: PRESERVE AND MAINTAIN OUR EXISTING SYSTEM

Preserving and maintaining the existing system is integral to the optimization of mobility. The Federal Highway Administration (FHWA) and Florida Department of Transportation (FDOT) established formal goals and objectives for systems preservation that are proposed for adoption as part of this LRTP.

In addition, the objective of the systems preservation and maintenance goal is to provide a transit fleet that meets Federal Transit Administration's (FTA's) requirements for system preservation, vehicle age, and maintenance.

The objectives for preserving and maintaining the existing system are listed below.

OBJECTIVE 6.1: Maintain and update roadways to current standards.

Performance Measure		Benchmark
6.1.1	Percent of Interstate Pavement in Good Condition	Maintain or improve percent of interstate pavements in good condition > 60%
6.1.2	Percent of Interstate Pavement in Poor Condition	Maintain or reduce percent of interstate pavements in poor condition < 5%
6.1.3	Percent of Non-Interstate Pavement in Good Condition	Maintain or improve percent of non-Interstate NHS pavements in good condition > 40%
6.1.4	Percent of Non-Interstate Pavement in Poor Condition	Maintain or reduce percent of non-interstate NHS pavements in poor condition < 5%
6.1.5	Percent of NHS bridges classified as in good condition	Maintain or improve percent of NHS Bridges classified as in Good condition by deck area > 50%
6.1.6	Percent of NHS bridges classified as in Poor condition	Maintain or improve percent of NHS Bridges classified as in Poor condition by deck area - < 10%

Goals and Objectives

OBJECTIVE 6.2: Maintain and update bridges to current standards

Performance Measure		Benchmark
6.2.1	Percent of National Highway System Bridges in Good Condition	Maintain or improve Existing value is reported in the Congestion Management Process.
6.2.2	Percent of National Highway System Bridges in Poor Condition	Maintain or reduce Existing value is reported in the Congestion Management Process.
6.2.3	Percent of State Highway Bridges in Good Condition	Maintain or improve Existing value is reported in the Congestion Management Process.
6.2.4	Percent of State Highway Bridges in Poor Condition	Maintain or reduce Existing value is reported in the Congestion Management Process.
6.2.5	Percent of Non-State Highway Bridges in Good Condition	Maintain or improve Existing value is reported in the Congestion Management Process.
6.2.6	Percent of Non-State Highway Bridges in Poor Condition	Maintain or reduce Existing value is reported in the Congestion Management Process.

Goals and Objectives

OBJECTIVE 6.3: Maintain and update transit systems to current standards

Performance Measure		Benchmark
6.3.1	Average Age of Rolling Stock	Percentage of revenue vehicle exceeding useful life benchmark
6.3.2	Average age of equipment	Percentage of nonrevenue service vehicles exceeding useful life benchmark
6.3.3	Conditions of transit facilities	Percentage of facilities rated under 3.0 on the Transit Economic Requirements Model (TERM) scale
6.3.4	Conditions of transit infrastructure	Percentage of track segments with performance restrictions.

Goals and Objectives

GOAL 7: CREATE RELIABLE AND RESILIENT MULTIMODAL INFRASTRUCTURE

A reliable and resilient multimodal transportation infrastructure provides accessible and diverse transportation options that ensure mobility, and system preservation, supports evacuation needs, and addresses social equity.

The objectives for reliable and resilient multimodal infrastructure are listed below.

OBJECTIVE 7.1: Incorporate climate risk in project planning, system preservation and maintenance and determine appropriate measures to mitigate risk or repurpose threatened facilities.

Policy		Benchmark
7.1.1	Consideration for vulnerable, at-risk facilities	Evaluation of projects/scenarios

OBJECTIVE 7.2: Support regional evacuation needs as reflected in municipal Emergency Management Plans.

Policy		Benchmark
7.2.1	Number of projects on an evacuation route	Evaluation of projects/scenarios

OBJECTIVE 7.3: Address social equity in adaptation/resilience strategy implementation.

Policy		Benchmark
7.3.1	Number of projects in low-income census tracts	Evaluation of projects/scenarios

Goals and Objectives

GOAL 8: ENHANCE TOURISM TRANSPORT MANAGEMENT

Tourism Transport Management involves improving transportation options for recreational, event, and general tourism travel to enhance the overall transportation system while improving mobility and transportation options.

The objectives for tourism transport management are listed below.

OBJECTIVE 8.1: Improve and provide diverse tourism transportation options.

Policy		Benchmark
8.1.1	Number of projects in high tourism areas	Evaluation of projects/scenarios
8.1.2	Support cruise line ridership	Maintain or increase the number of cruise passengers

OBJECTIVE 8.3: Encourage the integration of alternative transportation into tourist activities.

Policy	
8.2.1	County comprehensive plans include alternative transportation for tourists

Goals and Objectives

GOAL 9: ENSURE NORTH FLORIDA IS READY FUTURE TECHNOLOGIES THAT SUPPORT TRANSPORTATION

The North Florida Region will continue to embrace emerging technologies while solidifying partnerships with public sector agencies to demonstrate and deploy emerging technologies. The goal is to improve process and create efficiencies in public sector while embracing new technologies that benefit transportation in North Florida. As technology continues to advance, the promotion of clean and sustainable vehicles is vital to enhancing our region's economic competitiveness and quality of life.

The objectives to ensure North Florida is ready for future transportation and mobility technologies are listed below.

Objective 9.1: Accelerate Public Sector Modernization in Transportation

Policy	
9.1.1	Engage public sector partners to deploy technologies to modernize process, improve efficiency, and find innovative solutions to transportation issues.
9.1.2	Use emerging transportation data to better plan and respond to transportation issues.

Objective 9.2: Promote clean and sustainable fuels, vehicles and infrastructure

Policy	
9.2.1	Reduce petroleum consumption by increasing alternative fuels, vehicles and infrastructure diversity in North Florida.
9.2.2	Collaborate with community organizations, non-profits, local governments, utilities, and private sector stakeholders to implement alternative fuel programs and initiatives that prioritize equity and inclusivity.

TRANSPORTATION ALTERNATIVES PROGRAM (TAP) PROJECTS17

SUNTRAILS PRIORITIES.....18

TRANSPORTATION REGIONAL INCENTIVE PROGRAM (TRIP) PROJECT PRIORITIES19

OVERVIEW

The North Florida Transportation Planning Organization (North Florida TPO) Transportation Improvement Program (TIP) for Fiscal Years 2025/2026 through 2029/2030 begins with preparing a *"List of Priority Projects"* to be used in developing the Florida Department of Transportation's (FDOT) Tentative Five Year Work Program. The *"List of Priority Projects"* identifies potential projects to be funded in the new fifth year (2029/2030) of the FDOT Work Program. However, by creating the Strategic Intermodal System (SIS) and the Transportation Regional Incentive Program (TRIP) in Florida, the *"List of Priority Projects"* now includes potential projects to be funded in other years of the FDOT Work Program under the SIS and TRIP programs. The *"List of Priority Projects"* includes a prioritized listing of state highway, mass transit, aviation, intermodal, and Transportation Alternative Program (TAP) and Transportation Regional Incentive Program (TRIP) projects.

The North Florida TPO expects all projects currently programmed in the FDOT Work Program to advance to the next development phase. This will ensure that implementing the 3-C planning process (continuing, cooperative, and comprehensive) in the North Florida TPO area is being implemented, as required by federal and state statutes. If FDOT cannot complete the programmed phase and advance the project to the next logical phase, it is incumbent that the agency provides an explanation to the North Florida TPO.

PROJECT PHASING

- Project Development and Environment (PD&E)
- Preliminary Engineering (PE)
- Right-of-Way (ROW)
- Construction (CST)

2045 LONG RANGE TRANSPORTATION PLAN

On November 14, 2019 the North Florida TPO adopted Path Forward 2045, a fiscally constrained Long Range Transportation Plan for Clay, Duval, Nassau and St. Johns Counties. Concurrent with this effort the following documents were prepared:

- **Resilience and Vulnerability**

- The North TPO examined the vulnerability of major roads in the region. Vulnerability is ranked from low to high. The vulnerability rating of relevant facilities is indicated on the List of Region-Wide Priority Projects. Supporting documentation is available at: <http://pathforward2045.com/wp-content/uploads/2019/08/Resiliency-Phase-II-Tech-Memo-1Finalv3.pdf>
- Region-wide priority projects identified as at risk in this report are identified by vulnerability category.
 - Low Vulnerability
 - Moderate-Low Vulnerability
 - Moderate High Vulnerability
 - High Vulnerability

- **Regional System Safety Plan**

- This plan was updated. It identifies high crash corridors, high crash intersections and corridors with a high incidence of bicycle and pedestrian crashes. High crash corridors are identified on the List of Region-Wide Priority Projects. Supporting documentation is available at: https://northfloridatpo.com/uploads/Studies/FINAL_RSSP_NOV2019.pdf
- Region-wide priority projects on HIGH CRASH CORRIDORS are identified as such.

- **Congestion Management Process**

- The Congestion Management Process was updated. Supporting documentation is available at: https://northfloridatpo.com/uploads/Studies/performance/2019_NFTP_CMP.pdf

All documentation for the 2045 Long Range Transportation Plan is available at www.pathforward2045.com and at <http://northfloridatpo.com/planning/lrtp>

LIST OF PRIORITY PROJECTS PROCESS

Develop List of Candidate Projects (*January*)

1. A list of candidate projects is developed from the following:
 - Projects in the previous year *List of Priority Projects* not funded through construction.
 - Local County/City submittals within the North Florida TPO area
 - Local Airport and Transit Authority submittals within the North Florida TPO area
 - Concurrency Management Process
 - Public Input
2. Project Ranking (*February*)
 - Unless otherwise indicated, projects were initially prioritized in Path Forward 2045, the North Florida TPO's Long Range Transportation Plan adopted November 14, 2019
 - TPO Staff works with local governments to develop a preliminary List of Priority Projects to submit to the Technical Advisory Committee (TAC), Citizens Advisory Committee (CAC) and Transportation Planning Organization (TPO) Board for review and approval at the March TAC, CAC and TPO Board Meetings.
 - Mass transit and aviation projects are prioritized by the submitting agencies and are forwarded to the North Florida TPO to include in the LOPP Document.
3. Adopting the List of Priority Projects (*March*)
 - Following approval by the North Florida TPO, the List of Priority Projects is submitted to FDOT for use in developing the Five-Year Tentative Work Program.

2024 ANNUAL LIST OF PRIORITY PROJECTS

REGION-WIDE PRIORITY PROJECTS

2024 REGION-WIDE PRIORITY PROJECTS				
Rank	Project	Limits	Description	Status
PRIORITIES FUNDED IN THE CURRENT 5-YEAR WORK PROGRAM				
	CR 220 <i>Clay County</i> (430719-3)	Henley Rd to Knight Boxx Rd	Widen to 4-lanes	Construction FY 2024
	First Coast Expressway <i>Clay and St. Johns Counties</i> (422938-6) (422938-5) (422938-7) (422938-8)	Blanding Blvd to N of SR 16	New construction	Construction FY 2023
		N of SR 16 to E of CR 209	New construction	Construction FY 2023
		E of CR 209 to CR16A spur (includes bridge)	New construction	Design Build FY 24/25/26
		CR 16A spur to I-95	New construction	Design Build FY 25/26
	SR 202 J. Turner Butler Blvd <i>Duval County</i> (439467-1)	@ San Pablo Rd	Modify interchange	Under Construction
	SR 111 Edgewood Ave <i>Duval County</i> (442848-1)	US 17 Main St to Cassat Ave	Context sensitive solutions	Construction FY 2024
	SR 312 <i>St. Johns County</i> (210230-4)	SR 207 to Holmes Rd and SR 207 to US 1	New road construction	SR 207 to Holmes Rd Under Construction
	US 17 <i>Clay County</i> (441406-1)	@ Governors Creek Bridge	Sidewalk	Construction complete
	SR 202 J. Turner Butler Blvd <i>Duval County</i> (447149-1)	@ Kernan Blvd	Interchange Improvements	Under Construction
	SR 10 Atlantic Blvd <i>Duval County</i> (439302-1)	Silversmith Creek Bridge	Milling, resurfacing, railing and sidewalk construction *Moderate-Low Vulnerability	Construction FY 2026
	US 17 <i>Clay County</i> (441213-1)	@ CR 220	Intersection improvement	Construction in FY 2024
	US 17 Main St <i>Duval County</i> (209411-8)	New Berlin Rd to Airport Center Dr	Widen to 5-lanes with multi-use trail *Moderate-Low Vulnerability	Construction in FY 2027
	SR A1A Mayport Rd <i>Duval County</i> (443502-1)	SR 10 Atlantic Blvd to Dutton Island Rd	Context sensitive improvements **High Crash Corridor	Construction in FY 2026

2024 ANNUAL LIST OF PRIORITY PROJECTS

2024 REGION-WIDE PRIORITY PROJECTS				
Rank	Project	Limits	Description	Status
			*Moderate-High Vulnerability	
	US 1 <i>Duval County</i> (441220-2)	At Racetrack Rd	Intersection Improvements	Construction in FY 2028
	I-295 <i>Duval County</i> (437728-2)	At SR 13	Interchange improvements	Construction in FY 2024
	SR 21 Blanding Blvd <i>Clay/Duval Counties</i> (446808-1) (446808-2)	CR 220 to Collins Road	Intersection improvements High Crash Corridor *Low Vulnerability	CST FY 2025 (Wells rd to Duval County Line)
	SR 10 (US 90) Beaver St <i>Duval County</i> (437373-1)	At Chaffee Rd	Traffic Signals	CST FY 2026
UNFUNDED PRIORITIES				
1	SR 228 Normandy Blvd <i>Duval County</i>	Equestrian Center to US 301	Widen to 4-lanes with bike lanes and sidewalks *Moderate Vulnerability	
2	CR 220 <i>Clay County</i>	SR 21 to Henley Rd	Widen to 4-lanes High Crash Intersection (CR220 & Henley Rd)	
3	SR 200/SR A1A <i>Nassau County</i>	I-95 to Amelia Island Pkwy	Intersection improvements High Crash Corridor *Moderate-High Vulnerability	
4	SR 16 <i>St. Johns County</i> (210447-5)	International Golf Pkwy to Outlet Mall Entrance	Widen to 4 lanes	PE in 25 ROW in 26
5	Main St (US 17) <i>Duval County</i> (209411-9)	Airport Center Dr to Pecan Park Rd	Widen from 2 lanes to 5 lanes with multiuse path on the east side	ROW in 28
6	CR 2209 <i>St. Johns County</i>	SR 9B to SR 16	9B to Silverleaf Pkwy Widen to 6-lanes /Intersection Improvements; Silverleaf Pkwy to SR 16 Design 6 lane and Construct 4 lane	

2024 ANNUAL LIST OF PRIORITY PROJECTS

2024 REGION-WIDE PRIORITY PROJECTS				
Rank	Project	Limits	Description	Status
7	SR 16 <i>Clay County</i>	Green Cove Springs City Limits to First Coast Expressway Interchange	Widen to 4-lanes *Low Vulnerability	
8	US 17 <i>Nassau County (447364-3)</i>	Duval County Line to SR 200	Widen to 4-lanes/Intersection improvements	ROW in 25&26 (South of William Burgess to SSR 200)
9	SR 115 Lem Turner Rd <i>Duval/Nassau Counties</i>	I-295 to US 301	Widen to 4-lanes with multi-use trail/Intersection Improvements *Moderate Low Vulnerability	
10	US 1 <i>St. Johns County</i>	Pine Island Rd to Race Track Rd	Intersection Improvements	
11	US 17 <i>Clay County</i>	End of 4-lane south of Town Center Blvd. to CR 315	Widen to 6 lanes	
12	Moncrief Road <i>Duval County</i>	13 th St to US 1 Kings Rd	Context Sensitive Improvements: Safety, Bicycle, Pedestrian and intersection upgrades	
13	Arlington Expressway <i>Duval County</i>	North Liberty St to A Philip Randolph Blvd	Hogans Creek Restoration Project	
14	SR A1A <i>St. Johns County</i>	Mickler Road to Marsh Landing Pkwy	Intersection Improvements and Multiuse Trail Addition	
15	Southside Blvd <i>Duval County</i>	Old Baymeadows Rd to Beach Blvd	Intersection Improvements and multiuse trail	
16	SR A1A <i>St. Johns County</i>	Mickler Rd. to Sawgrass Dr. W.	Widen to 4 Lanes & Bike Lanes - Construction	

2024 ANNUAL LIST OF PRIORITY PROJECTS

2024 REGION-WIDE PRIORITY PROJECTS				
Rank	Project	Limits	Description	Status
17	CR 217 <i>Clay/Duval County</i>	CR 218 to SR 228	Add lanes and reconstruct	
18	Beaver St (SR 10) <i>Duval County</i>	I-95 to Liberty St	Context Sensitive Improvements: Safety, Bicycle, Pedestrian and intersection upgrades	
19	CR 315 <i>Clay County</i>	US 17 to Maryland Ave	Widen to 5 lanes	
20	Atlantic Blvd/Third Street (SR A1A) <i>Duval County</i>	Mayport Rd (SR A1A) to St. Johns County Line	Context Sensitive Improvements: Bicycle, Pedestrian and intersection upgrades High Crash Corridor *Moderate-High Vulnerability	
* Vulnerability evaluated in the Resiliency & Vulnerability Study High Crash Corridors and Intersections identified in the Regional System Safety Plan				

2024 ANNUAL LIST OF PRIORITY PROJECTS

AVIATION PRIORITY PROJECTS—JACKSONVILLE AVIATION AUTHORITY

Project
JAX CONCOURSE B
VQQ TAXIWAY A RECONSTRUCTION
CRG AIRFIELD LIGHTING REHABILITATION
CRG TAXIWAY REHABILITATION
JAX TAXIWAY F REHABILITATION AND EXTENSION

2024 ANNUAL LIST OF PRIORITY PROJECTS

MASS TRANSIT PRIORITIES—JACKSONVILLE TRANSPORTATION AUTHORITY

Rank	Project	Description	Justification
1	Vehicle Acquisition	Annual SU funding with \$2.5 toll credit matching	Replace new buses/rolling stock with zero and low emission buses plus related equipment
2	Para-Transit (CTC)	Purchase para-transit equipment	Required for ADA compliance
3	U²C Agile Program	Various U ² C routes throughout the Jacksonville area	Autonomous transit routes at various locations around Jacksonville
4	U²C Phase 3	The third phase of the U ² C program	The third phase of the U ² C program which is the development of the Neighborhood extensions
5	Ferry	Acquisition of a Ferry Boat and supporting infrastructure	A new boat and its supporting infrastructure to minimize service interruptions, address useful life of current boat, and handle service expansion and lot increase.
6	JTA Facility Decentralization and Sustainable Fleet Master Plan	Develop a programmatic strategy and phased implementation plan for the decentralization of JTA's operations and maintenance functions from the current Myrtle Avenue Operations Campus (MAOC) along with the development of a Zero-Emission Fleet Transition Plan	Holistic approach to the development of a sustainable transportation system including the transit network and operations, the fleet, and our facilities
7	Emerald Trail	Design and construct the Emerald Trail network which contains 30 miles of green walkways and parks that encircle the Urban Core Neighborhoods and link multiple historic districts and natural resources	The trail will promote social and economic growth through pedestrian- and bicyclist-focused infrastructure and introducing microtransit along the routes with purposeful connection of schools, retail, restaurants, small business, hospitals, and other activity centers

2024 ANNUAL LIST OF PRIORITY PROJECTS

8	Vision Zero Safety Improvements	Plan, design, and construct facilities/streets that reduce traffic related accidents	Strategy to eliminate all traffic fatalities and severe injuries, while increasing safe, healthy, and equitable mobility for all
9	Commuter Rail Project Development	Promote transit oriented development, station area planning, and funding for Commuter Rail service on the Southeast Corridor	Project Development and Engineering (PD&E) is funded through the LOGT, but there is no funding included for development of the locally preferred alternative and final design.
10	Complete Streets Projects	Plan, design, and construct streets that enables safe access for all people who need to use them, including pedestrians, bicyclists, motorists, and transit riders of all ages and abilities. This includes existing unfunded Complete Streets projects such as Moncrief/Myrtle Corridor.	Address mobility challenges along corridors for pedestrians, transit passengers, motorists, and bicyclists
11	ITS/Corridor Development/Service Enhancement	Develop/implement transit signal priority (TSP) device on bus rapid transit (BRT) routes and future BRT routes as well as high transit volume corridors	Capacity constraints on major corridors suggest implementation of ITS to enhance mobility
12	JRTC Amtrak Station Relocation	Relocate Amtrak station from Clifford Lane to Prime Osborn Convention Center site	Immediate opportunity to restore intercity passenger service to Downtown Jacksonville

2024 ANNUAL LIST OF PRIORITY PROJECTS

MASS TRANSIT PRIORITIES—ST. JOHNS COUNTY/SUNSHINE BUS

Rank	Project	Description	Justification
1	Operating Assistance 5307	Funding for operations and administration	Expand transit system to support additional revenue miles and passengers
2	Preventative Maintenance Capitalized Operating Expense	Funding for preventative maintenance on revenue vehicles	Keep vehicles in service and facilitate continued operations
3	Operating Assistance CTD/Trip Equipment Grant	Continuing Bus Operations	Match for FTA 5307 and support for current and expanded service
4	Operating Assistance Block Grant Funds	Continuing Bus Operations	Support current service and expand service
5	Operating and Capital Assistance FTA 5310	Continuing Bus Operations	Support current service and expand service
6	Operating and Capital Assistance FTA 5311	Continuing Bus Operations	Support current service and expand service
7	Capital Assistance STP Flex	Vehicle Acquisition	Vehicles for route expansion, and paratransit vehicle replacements
8	Rolling Stock	Vehicle Acquisition	Paratransit vehicle replacement
9	System Planning	Plan updates	Update plans as a prerequisite to receiving state and federal funds
10	Shelter Installation	Bus shelters	System improvements, permanent shelters
11	Security Maintenance	Maintain existing security equipment	Maintain and replace existing security equipment at Transit Facility and on Buses
12	Equipment	Shop equipment	Required to meet maintenance schedules
13	Facility Maintenance	Repair/Replace Facility & Equipment	Maintain transit facility and grounds

These projects have been selected from the agency Transit Development Plan and prioritized by St. Johns County Commission//Sunshine Bus.

2024 ANNUAL LIST OF PRIORITY PROJECTS

PORT PRIORITIES—JAXPORT

Project
Portwide Crane Purchase (4 Ship-to-Shore Cranes)
Dames Point Marine Terminal (DPMT) Development & Expansion
Talleyrand Marine Terminal (TMT) Development & Expansion
Blount Island Marine Terminal (BIMT) redevelopment for auto processing expansion
Dredge Material Management Area (DMMA) expansion/capacity creation
Berth reconstruction at upgrades at BIMT and Talleyrand Marine Terminal (TMT)
Cargo Handling Equipment Electrification
Terminal expansion near TMT, BIMT and Dames Point Marine Terminal (DPMT)
ITS improvements for cargo movements at JAXPORT terminals

2024 ANNUAL LIST OF PRIORITY PROJECTS

PORT PRIORITIES—PORT OF FERNANDINA

Project
Resiliency Projects to prevent future flooding
Reinvestment in berths and existing storage facilities
Addition of new covered storage/transit facilities
Electric-powered equipment for the forklifts and other rolling stock equipment at the Port
Customs and Border Protection (CBP)/Port Administrative Office project

2024 ANNUAL LIST OF PRIORITY PROJECTS

TRANSPORTATION ALTERNATIVES PROGRAM (TAP) PROJECTS

MULTI-USE TRAILS				
Rank	Project Name	Limits	Estimated Cost	Status
CONSTRUCTION FUNDED				
	Amelia Island Parkway Multi-Use Trail, Nassau County (437336-1) (437337-2) (437334-1) (437335-1) (437337-3)	Bailey Road to 14 th St	\$876,107	FY 23/24
		SR A1A/8 th Street to Bailey Road	\$166,500	FY 23/24
		SR A1A/Fletcher Avenue to Via del Rey	\$756,196	FY 22/23
		Via del Rey to 14 th St	\$1,167,327	FY 23/24
		Phase 4 – Nassau County	\$5,119,474	FY 22/23
	Black Creek Trail Extension across US 17 Bridge <i>Clay County</i> (446154-1)	US17 from Ball Rd to Black Creek Trail	\$3.5 M	PE FY 22/23 Construction FY 25/26
	Amelia Island Trail Phase 4 <i>Nassau County</i>	Simmons Road to Hickory Street Citrona to Fernandina Waterfront	\$8.14 M	
UNFUNDED PRIORITIES				
1	UNF Drive/ Alumni Drive <i>Duval County</i>	I-295 – Kernan Blvd	Estimate needed	
2	Doctors Lake Extension <i>Clay County</i>	Wells Rd to Duval County line	Estimate needed	
3	Vilano Trail <i>St. Johns County</i> (447736-1) (429931-1)	San Marco Avenue to Duval County Line	\$61.2M	PD&E FY 22/23 (Magnolia ave to 24 th st)
4	Amelia Island Trail Phase 5 <i>Nassau County</i> (437337-4)	8th Street and Amelia Island Parkway Intersection to the 14th Street and Sadler Road Intersection	Estimate Needed	Feasibility Study FY 2024

2024 ANNUAL LIST OF PRIORITY PROJECTS

TRANSPORTATION ALTERNATIVES PROGRAM (TAP) PROJECTS

SCHOOL SAFETY SIDEWALKS			
Rank	Project Name	Limits	Cost Estimate
CONSTRUCTION FUNDED			
	Yulee Elementary School <i>Nassau County</i> (430916-3)	Sidewalks on Felmor Road to provide access to Yulee Elementary School.	PE FY 24/25 \$113k (Safe Streets to School) CST FY 26/27 (Safe Streets to School)
UNFUNDED PRIORITIES			
1	Jacksonville Heights Elementary <i>Duval County</i>	Construct new sidewalk to fill gaps	Estimate needed
2	Doctor's Inlet Elementary <i>Clay County</i>	Evergreen Ln from CR 220B to Lisa Dawn Dr.; Evergreen Ln to School	\$660,884 of total \$1,335,695.50 already funded
3	Russell Sampson Rd. <i>St. Johns County</i>	Heritage Oaks Neighborhood to St. Johns Forest Neighborhood	Estimate needed

2024 ANNUAL LIST OF PRIORITY PROJECTS

SUNTRAILS PRIORITIES

SunTrails is a competitive program. Projects compete statewide, must be on the SunTrails map, must have a detailed study with segment by segment cost estimates. Applications will be submitted when projects meet these criteria. www.floridasuntrail.com

Project Name	Project Description/Project Limits	Estimated Cost
St. Johns River to Sea Loop	West of I-95 to City of St. Augustine to Flagler County Line	This project is specifically reference in State legislation and does not compete for funding with the projects listed below.
SUN Trails Urban Network Project Segments <i>Duval County</i> (72931003) (72931004) (72931005)	Imeson Rd/Baldwin Trail to McCoys Cr Emerald Trail at Leland/McCoys Blvd; Myrtle Ave and Forest to Myrtle Ave and S-Line trailhead (south) Main Street and S-Line at Winona Dr. to Zoo Pkwy and Haydon Rd, in front of Jax Zoo S-Line Trail east of N Liberty St and Winona Dr. to S-Line Trail east of N Liberty St and Winona Dr N Sterling St and Main St to Broward Rd and Main St	Study/Estimate needed
Amelia Island Pkwy Trail <i>Nassau County</i>	Phase 3, Segment 4 – Bailey to S. 8 th Street	Funded Pending Grant Agreement Execution
Vilano Trail <i>St. Johns County</i>	San Marco Avenue to Duval County Line	Estimates are available for each segment of this trail
Northeast Florida Greenway Trails Old Jennings/Long Bay <i>Clay County</i>	SR 21 from Gold Head Branch Park to SR 16	Study/Estimate Needed

2024 ANNUAL LIST OF PRIORITY PROJECTS

TRANSPORTATION REGIONAL INCENTIVE PROGRAM (TRIP) PROJECT PRIORITIES

The Transportation Regional Incentive Program (TRIP) is funded with Documentary Stamp funds. The North Florida TPO is the TRIP Agency for Baker, Clay, Duval, Nassau, Putnam and St. Johns Counties. This list is approved by the TRIP Agency, which includes the North Florida TPO Board and one member of the Baker and Putnam County Commissions. TRIP eligible projects include all funded projects included in the Region-Wide Priority list in addition to the projects listed below. These projects are not ranked.

TRANSPORTATION REGIONAL INCENTIVE PROGRAM (TRIP) PROJECT PRIORITIES			
County	Project	Limits	Description
Baker	Midpoint Parkway/Truck By-Pass, Phase 1		Construct new 2-lane road
Putnam	US 17	Volusia County Line to Pomona Park/Feagle Avenue	Widen to 4-lanes
Duval	SR 228 Normandy Blvd	Equestrian Center to US 301	Widen to 4-lanes with bike lanes and sidewalks <i>*Moderate Vulnerability</i>
Clay	CR 220	SR 21 to Henley Rd	Widen to 4-lanes <i>High Crash Intersection (CR220 & Henley Rd)</i>
Nassau	SR 200/SR A1A	I-95 to Amelia Island Pkwy	Intersection improvements <i>High Crash Corridor</i> <i>*Moderate-High Vulnerability</i>
St. Johns	SR 16	International Golf Pkwy to Outlet Mall Entrance	Widen to 4 lanes
Duval	Main St (US 17)	Airport Center Dr to Pecan Park Rd	Widen from 2 lanes to 5 lanes with multiuse path on the east side
St. Johns	CR 2209	SR 9B to SR 16	9B to Silverleaf Pkwy Widen to 6-lanes /Intersection Improvements; Silverleaf Pkwy to SR 16 Design 6 lane and Construct 4 lane

2024 ANNUAL LIST OF PRIORITY PROJECTS

TRANSPORTATION REGIONAL INCENTIVE PROGRAM (TRIP) PROJECT PRIORITIES			
County	Project	Limits	Description
<i>Clay</i>	SR 16	Green Cove Springs City Limits to First Coast Expressway Interchange	Widen to 4-lanes *Low Vulnerability
<i>Nassau</i>	US 17	Duval County Line to SR 200	Widen to 4-lanes/Intersection improvements
<i>Duval/Nassau</i>	SR 115 Lem Turner Rd	I-295 to US 301	Widen to 4-lanes with multi-use trail/Intersection Improvements *Moderate Low Vulnerability
<i>St. Johns</i>	US 1	Pine Island Rd to Race Track Rd	Intersection Improvements
<i>Clay</i>	US 17	End of 4-lane south of Town Center Blvd. to CR 315	Widen to 6 lanes
<i>Duval</i>	Moncrief Road	13 th St to US 1 Kings Rd	Context Sensitive Improvements: Safety, Bicycle, Pedestrian and intersection upgrades

Public Comments

TPO Committee members Comments

Jeff Sheffield, Executive Director
Elizabeth De Jesus, Transportation Programs Manager
Jennifer Lott, Executive Assistant
Walter Kloss, Chair Citizens Advisory Committee

Comments on Draft TIP FY2026-FY2030

I have submitted comments through the TIP Tool on the North Florida TPO website. (Aside, I am disappointed there is no feature to batch-download all of your own comments.) I will anxiously await the responses to be posted; and, since you requested my email address, by email.

However, there are a few I would like to see addressed by appropriate staff (TPO, FDOT, and JTA) at the June 4 meeting of the Citizens Advisory Committee.

Page A-11 (PDF 52)

Two projects have the same project limits – I-95 from St. Johns County Line to I-295 (SR9A). One is a Resurfacing project (2132093) with \$40 million for Construction in FY2028 (and \$7 million PE in FY2026). The other is an Add Lanes project (4240265) with \$317 million for Construction in FY29 and FY30. The resurfacing of nearly six miles of Interstate cannot be accomplished prior to the programmed start of the capacity project. Why is this work not a single project?

Pages E-3 and E-4 (PDF 93, 94)

Similar to the previous comment, there are two projects with the same project limits – I-95 from the First Coast Expressway (SR 23) interchange to the Duval County Line. Here, the Resurfacing project (4346156) and Add-Lanes Project (4240264) have Construction in FY2028, for \$31 million and \$343 million, respectively. Again, why is this not a single project?

Pages A-15 and A-36 (PDF 56 and 77)

Two projects overlap on Mayport Road (SR A1A/101). with Construction in FY26. The first is a resurfacing project between Atlantic Boulevard and 7th Street, the other is a sidewalk project between Atlantic Boulevard and Dutton Island Road (per the included map, the limits are not specified in the project description). There has been discussion of a “Complete Streets” or “Lane Reduction” project along the six-lane section of Mayport Road – the same limits as the sidewalk/bike lane project. Will this \$11 million project implement the Complete Streets vision?

Page A-34 (PDF 75)

4389281 – Main Street Bridge over the St. Johns River

What is the scope of this \$107 million project? Does it include the removal of the “Newnan Street” ramp discussed by the Downtown Investment Authority to facilitate development of the former East Parking Lot (something I neglected to ask in my TIP tool comments)?

Section B – Jacksonville Transportation Authority

The recently adopted Long Range Transportation Plan includes projects to acquire vehicles for, and implement several routes of, the Ultimate Urban Circulator (U2C) within the first five years of the LRTP (by 2031). The JTA recently approved the purchase of 14 autonomous vehicles, with an option for up to 100 AVs (total). However, there do not appear to be any projects in the Draft TIP to accomplish these. Where are the U2C projects?

**Comments received
through the TIP
Interactive Webpage**

Comment	Name	Email	ID	Plan Cycle	Title	Type	Response
I have asked about this project for several years, with conflicting answers. State DOT told me last year that there was “nothing in the plans”. This stretch of highway is horrendous, backing up all hours of the day. It needs to be accelerated, not delayed endlessly. Large trucks use this route excessively, because it is shorter than the west belt route. I don’t see anything here about when actual construction would start, how many lanes would be added, or when completion is expected. Only purchasing of right of way, which seems to have been postponed.	Joseph Muller	jcminjax@gmail.com	2093014	TIP 26-30	I-295(SR9A) FROM SOUTHSIDE CONNECTOR(SR113) TO SR202 JTB	Add Lanes & Reconstruct	Per the Project Manager,"It's Gamed for Construction in FY 36. The project includes widening from 4 to 6 lanes and in some cases 4 to 6 lanes plus an auxiliary lane in each direction. Interchange improvements are planned as well at Town Center Parkway/UNF, Beach Boulevard, St. Johns Bluff, Monument, and Merrill/Southside Connector. A breakout project for the mainline widening is currently under construction on I-295 between JTB and Beach Boulevard. That FPID is 209301-8. "
Section B - Jacksonville Transportation Authority (JTA) Projects - Duval County a) Where are the recently announced projects to acquire up to 100 autonomous vehicles for the Ultimate Urban Circulator (U2C)? b) Where is the project to modify Bay Street for the U2C? c) Where are the projects to modify other streets for their proposed U2C corridors? The recently adopted Long Range Transportation Plan includes full implementation of multiple U2C corridors and vehicle acquisition within the first five years (by FY2031). There should be implementation projects in this TIP.	James Green	jm52green@yahoo.com					JTA Response: a) The JTA Board approved the reservation of up to 100 autonomous vehicles for the U²C, however these are not all fully funded. The initial purchases will be funded through local revenue sources and JTA intends to pursue federal grants to supplement. Since these vehicle acquisitions are not currently federally funded and do not require FHWA or FTA approval, they are not included in the Transportation Improvement Program (TIP) at this time. However, Phase 2 (Skyway Conversion) and Phase 3 (Neighborhood Extensions) of the U²C program are included in the List of Priority Projects (LOPP), which serves as an appendix to the TIP and identifies regionally significant projects that are unfunded or locally funded, for informational purposes. If federal funding is secured for the vehicles in the future, the TIP will be amended accordingly. b) The Bay Street Innovation Corridor—Phase 1 of the U²C program—was added to the FY 2021/22 – 2025/26 TIP following the award of a Better Utilizing Investments to Leverage Development (BUILD) Grant. As a federally funded project, its inclusion in the TIP was required and signifies a formal commitment of federal resources to the corridor improvements. You can view the approved FY 2021/22 – 2025/26 TIP here: https://northfloridatpo.com/uploads/documents/Approved-TIP-2021-FINAL-Corrected-9-13-2021rev102521.pdf c) The recently adopted Long Range Transportation Plan includes full implementation of multiple U2C corridors and vehicle acquisition within the first five years (by FY2031). There should be implementation projects in this TIP. Phase 2 (Skyway Conversion) of the U²C program is currently partially funded through local revenue sources, specifically the LOGT. Phase 3 (Neighborhood Extensions) PD&E is currently funded through a FTA RAISE grant, which was added to the TIP following the award of the grant. The construction of Phase 3 is currently unfunded. Since these phases do not yet include federal funding or require FHWA or FTA approval, they are not formally included in the TIP at this time. However, as previously mentioned, both phases are included in the current LOPP for informational purposes. If and when federal funding is secured, the TIP will be amended in accordance with federal and MPO requirements.
There is a \$31 million resurfacing project (4346156) with the same project limits, also in FY2028. Why are there two projects?	James Green	jm52green@yahoo.com	4240264	TIP 26-30	I-95(SR9) FROM NORTH OF THE FCE INTERCHANGE TO THE DUVAL COUNTY LINE	Add Lanes & Reconstruct	Per the project manager these projects are planned to "go with" the companion widening project. There are resurfacing funds available, and to obtain those funds they needed to create it's own resurfacing project. The contract package will be awarded to a contractor as a single job.
There is a \$38 million Add-Lanes project (4240264) with the same project limits, also in FY2028. Why are there two projects?	James Green	jm52green@yahoo.com	4346156	TIP 26-30	I-95(SR9) FROM NORTH OF FIRST COAST EXPRESSWAY TO DUVAL COUNTY LINE	Resurfacing	Per the project manager these projects are planned to "go with" the companion widening project. There are resurfacing funds available, and to obtain those funds they needed to create it's own resurfacing project. The contract package will be awarded to a contractor as a single job.
a) What are the Project Limits? b) How does this project relate to the proposed interchange modifications at the Arlington Expressway (SR 115)?	James Green	jm52green@yahoo.com	4471243	TIP 26-30	UNIVERSITY BOULEVARD COMPLETE STREETS PROJECT	Intersection Improvement	This project is a federal earmark that is being passed to the City of Jacksonville

a) Please add project limits to the Project Description. b) From the map, it appears this project overlaps the limits of 4454281 - Resurfacing on SRA1A and SR 10. Will they be let as a single contract to ensure coordination? c) Will these projects accomplish the previously discussed "Complete Streets" or "Road Diet" for the six-lane section (the limits of this project) along Mayport Road (SR A1A/101)? If not, when will those modifications take place?	James Green	jm52green@yahoo.com	4435021	TIP 26-30	SRA1A (MAYPORT ROAD)	Bike Lane/ Sidewalk	FDOT response: a) Passing comment along to project manager. b) Projects 443502-1 & 445428-1 are intended to be let together. c) Received response from one of the project managers, "Project 443502-1 will be implementing a lane repurposing to accommodate a 12' wide sidewalk along the east side of SR A1A (Mayport Road) from Atlantic Boulevard to Dutton Island Road."
What is the Scope of this \$106 million project?	James Green	jm52green@yahoo.com	4283591	TIP 26-30	SR5(US1/MAIN ST) @ ST. JOHNS RIVER BRIDGE NO720022	Bridge-Repair/ Rehabilitation	Description received from Project Manager, "The principal intent of this project is to replace the existing open grid roadway deck with a closed (solid) deck system and the replacement of the counterweight sheaves, trunnions, and counterweight ropes on the SR 5/US-1 Main Street Vertical Lift Bridge over the St. Johns River (Bridge No. 720022) located in Duval County, Florida. Included within the scope of the project are structural steel painting and miscellaneous scope items identified as needing rehabilitation or replacement in previous inspection reports. In addition, scope items corresponding to the principal items described above are included such as tower and lift span strengthening and load rating analysis." Project does not include removal of "Newman Street" ramp.
There is a \$315 million add-lanes project (4240265) with the same project limits in FY2029. At only one year after to this project, this one will still be underway when the CST phase of the add-lanes project is due to begin. Why are there two projects in the same limits within one year of each other?	James Green	jm52green@yahoo.com	2132093	TIP 26-30	I-95(SR9) FROM ST.JOHNS COUNTY LINE TO I-295(SR9A)	Resurfacing	Per the project manager these projects are planned to "go with" the companion widening project. There are resurfacing funds available, and to obtain those funds they needed to create it's own resurfacing project. The contract package will be awarded to a contractor as a single job. They will be scheduling these projects to align.
There is a \$40 million resurfacing project (2132093) with the same project limits in FY2028. At only one year prior to this project, it will still be underway when the CST phase of this project is due to begin. Why are there two projects in the same limits within one year of each other?	James Green	jm52green@yahoo.com	4240265	TIP 26-30	I-95(SR9) FROM: ST JOHNS C/L TO: I-295(SR9A)	Add Lanes & Reconstruct	Per the project manager these projects are planned to "go with" the companion widening project. There are resurfacing funds available, and to obtain those funds they needed to create it's own resurfacing project. The contract package will be awarded to a contractor as a single job. They will be working on scheduling these two projects to align.
What are the locations for these four median modifications?	James Green	jm52green@yahoo.com	4472112	TIP 26-30	DUVAL COUNTY MEDIAN MODIFICATIONS (4 LOCATIONS)	Median Modification	Beach Blvd and Foster Drive/ Beach Blvd and Leon Road/ Atlantic Blvd and Apring Forest Ave/ Atlantic Blvd and Century St
What are the three locations of these median modifications?	James Green	jm52green@yahoo.com	4472114	TIP 26-30	DUVAL COUNTY MEDIAN MODIFICATIONS (3 LOCATIONS)	Median Modification	Atlantic Blvd and Beacon Point Drive/ Beach Blvd and St. Johns Square Dr/ SR13 and South of Loretto Rd

This section (South Fletcher Ave) currently has a speed limit of 35mph which is not followed nor enforced. The street is 90% residential frontage with 1200+ residences and residential driveways every 40-50 feet from Peters Point to Atlantic Avenue. All the mailboxes are on the west side of the street, requiring 1/2 of the homeowners to cross the street to get their mail. There are 42 beach access points with extremely limited parking with pedestrians constantly trying to cross the street to get to the beach. There are no sidewalks separated from the street for safe walking. This combination of residents, pedestrians, beach accesses, lack of separated bike paths or sidewalks, speeding and lack of enforcement or traffic control devices renders this road dangerous. It is dangerous to pull out of our driveways. It is dangerous to try to walk or bicycle. Delivery and service vehicles make matters even worse as they have no option other than to stop in the current FDOT bike shoulder to avoid blocking an entire traffic lane. I would recommend traffic control devices such as consideration for traffic circles at the Fletcher/Parkway intersection, Fletcher/Bill Melton intersection, Fletcher/Simmons intersection, Fletcher/Jasmine intersection. I would recommend marked pedestrian crosswalks painted across the road at every beach access. I would recommend a sidewalk, preferably on the east side to interconnect the beach accesses. I would recommend lowering the speed limit to 25 MPH with the road 'quieted' by separating the bike path from the road and narrow the traffic lanes, similar to how 1st street in Ponte Vedra now appears. Some thoughts for consideration. Thank you!	Pete Smith	pwsmith@hospitalitycio.com	2105952	TIP 26-30	SRA1A(S FLETCHER AVE) FROM GERBING RD TO ATLANTIC AVE	Resurfacing	TPO: Comment will be included in the TIP Public Comments section and shared with FDOT. FDOT: Comment forwarded to project manager.
4470611 Beach Blvd from Pope Road to A1A GIS mapping location is incorrect.	Duane Kent	rkent@sjcfl.us					Correct map is now uploaded in the Interactive TIP website.
4229388 First Coast Express GIS map location is incorrect.	Duane Kent	Rkent@sjcfl.us					GIS map is not available yet. Project area was identified with a polygon. Will update once GIS map is made available by FDOT.
The intersection at 118th and Jammes Road needs a light or round about for safety purposes. The new Jammes park will attract more walkers and children. Consideration needs to be given to making the intersection better.	Endya Freeman	endya4@gmail.com					TPO: sent email to participant. Emailed comment to Duval County staff.
Round a about request for the intersection at 118th and Jammes Road. There has been several accidents at this locations and have resulted in people being hurt. The new Jammes Park is scheduled to be updated in 2027 ((Councilman Rodman) and the community would like a round about installed to low down traffic in this area and prevent more accidents at Jammes and 118th. If not a round about, a caution light to encourage more caution with the increased in affordable housing in the area.	Joseph Cummin	jcummings640@gmail.com					TPO: sent email to participant. Emailed comment to Duval County staff.
The exit lane off of 295 on to Dunn Ave needs a drive lane to allow for traffic to flow before merging into traffic. It is difficult to look back and see cars traveling on Dunn because of the angle of the street. Consider adding a separate / longer lane for traffic to safely merge on to Dunn Ave from 295 and add more lighting. I have seen several rear end accidents because there is not enough space to properly merge.	Endya Freeman	endya4@gmail.com	2132601	TIP 26-30	I-295(SR9A) FROM N OF NEW KINGS RD TO S OF I-95 N INTERCHANGE	Add Lanes & Reconstruct	TPO: sent email to participant. FDOT: Comment forwarded to project manager.

This improvement is way overdue! So much development going on down Old Nassauville Rd. My business is in a Strip Center just West of there and before Barnwell Road. Traffic frequently backs up on east bound SR 200 in the mornings all the way to the car dealers from the light at Old Nassauville Road. I wish this was going to be an overpass not just using the signal. Hope the work will be done at night because if done during the day it will be a nightmare traffic situation!!	Steve Burnett	steveburnettjaxfl@gmail.com	2107127	TIP 26-30	SRA1A AT CR107(OLD NASSAUVILLE ROAD)	Intersection Improvement	FDOT: Comment forwarded to project manager.
Will this project include shade plantings?	Miriam Hill	miriam@miriamrhill.com	4309163	TIP 26-30	YULEE ELEMENTARY, FELMOR ROAD	Sidewalk	FDOT: this is a LAP project, and it is currently underway with design and still in the early stages with the scope of work being .5 miles of sidewalk improvements. The FDOT federal funds are for a SRTS sidewalk project which has specific requirements on what is does and does not allow, and typically landscaping is not included in that.
Will this project include stormwater improvements?	Miriam Hill	miriam@miriamrhill.com	2106792	TIP 26-30	SRA1A(ATLANTIC AVE) FROM CENTER STREET TO SOUTH FLETCHER	Resurfacing	FDOT: They are replacing stormwater pipes along section of the project.
Will sidewalks be widened and utilities placed underground as part of this effort?	Miriam Hill	miriam@miriamrhill.com	2106792	TIP 26-30	SRA1A(ATLANTIC AVE) FROM CENTER STREET TO SOUTH FLETCHER	Resurfacing	FDOT: Sidewalks wiil not be widened as part of this project , but in coordination with maintenance they replaced concrete sidewalks along the south side of Atlantic Ave (A1A) from 8 th St. to 10 th St., and some between 10 th and 11 th . This projec does not include any work on utilities.
Does a "Bike Path/Trail" also suffice for a sidewalk? Is it a designated bike lane/trail on a road itself or is it constructed off the road and away from the live lanes?	J Fittipaldi	arkyfit@verizon.net					FDOT: "Shared use paths are paved facilities physically separated from motorized vehicular traffic by an open space or barrier...shared use paths serve as pedestrian facilities..."(FDOT Design Manual January 1, 2024 ,224 Shared Use Paths, Section 224.1)

What is the most important project for your county in the TIP? Please list the project name or number.

2082283 - SR15(US17)PARK AVE FROM DOCTORS INLET BRIDGE TO WELLS ROAD

12 days ago

Emerald Trail

14 days ago

Anything that says or means "road diet". Jacksonville roadways nowhere in the city need reduction in lanes.

18 days ago

I'm very interested in pedestrian safety— sidewalks, crosswalks (someone recently died carrying his baby at Baymeadows) Crosswalks are low hanging fruit. Especially near the beach where pedestrians often cross the street. A1A, Solana, etc. Bike safety is also important. There are too many accidents. Thank you!

19 days ago

Pedestrian safety4435021, 4331125

19 days ago

All projects that are directly connected to improving our evacuation times. With upward surge residents along with tourists, we are incapable of evacuating safely and within a reasonable time frame. Unfortunately, this Nassau County meeting was scheduled at the same time as our last Vision 2050 meeting.

21 days ago

train from St. Augustine to JAX

4473642

one month ago

What comments do you have about your #1 most important project listed above?

The TPO made a system which requires most people to own a personal vehicle to function in society. Cars are expensive and dangerous relative to walking or public transit. A viable public transportation system does not seems realistic. Hopefully the TPO can figure out walking.

14 days ago

Pedestrian safety. If people are walking in an area without a crosswalk, that's a cue that we should install one in that area. It's not worth waiting for a fatality to occur.

19 days ago

Though I appreciate the 403 page information book. it was cumbersome and unusable unless there was a direct link to the project number description. It was difficult if not impossible to discern how the projects were selected and how the projects will address county needs.

21 days ago

There is currently no available public transportation to the airport.

22 days ago

The intersection is poorly designed and with the increase in traffic from KeHe and other developments that have either been constructed or will be constructed, it would be great to have this project completed before it's overly congested (like 210, IGP, and 16).

22 days ago

A bus system would eliminate many cars and traffic and parking issues.

23 days ago

Excess traffic on SR13 from St Johns commuters traveling to/from Duval County.

25 days ago

Long overdue

25 days ago

The bus stops and routes need to be upgraded first. They've looked the same for so long and they are not safe for people who need and want to ride the bus. Shelter upgrades and automatic route and bus times need to be on the shelters.

25 days ago

I wish this was continued to the west part of King St. I regularly travel this route from Masters Dr and the areas West of US 1 feel most dangerous/unsafe.

26 days ago

Please complete in 2025 I thought there was a spring start date.

27 days ago

The traffic here in town/county is dreadful. Finish up the existing road work!

27 days ago

Find a way to get it built quicker! The urban core deserves a separated, nonmotorized, and connected system of getting around that is comfortable and minimizes interactions with stressful crossings with vehicular arterials.

29 days ago

delays are frustrating

29 days ago

No commuter rail.

one month ago

Congestion build-up during peak hour. Consider widening to 6 lane into median.

one month ago

Why does it take so long to build much needed roads in NE FL?

one month ago

Each project is unique, and there can be various reasons as to why a project might be delayed. If there is a specific project in mind, we can research to provide additional information related to that specific project and location.

27 days ago

We frequently use this intersection as pedestrians. On one side of SR200 is a large and growing residential community. We are separated from the supermarket, restaurants and specialty stores by the highway. Crossing this intersection is dangerous for pedestrians and requires better signage and road markings for traffic. Ideally it would have a bridge across the top, but better marked crossings would also be good. When crossing on the western side of the intersection, cars turning right onto William Burgess from SR 200 tend not to stop at red lights and we have had many close calls here.

one month ago

What is the **second** most important project for your county in the TIP? Please list the project name or number.

4389182 - SR16 FROM SR23(FIRST COAST EXPRESS) TO CR315(SPRINGBANK RD)

12 days ago

Vision Zero Safety Improvements

14 days ago

See above— I love all the bike trail projects!

19 days ago

Projects that aim to reducing single car use. Amelia Island is at capacity and the roads can not be widened. Safety on these roads are priority, Our tourism promotes biking and walking and yet, we have these walkers on roads that are poorly striped, poor traffic calming strategies, utility companies clearing trees that would provide shade for the bike/walkers. The state and county have prioritize constructing the bike/walk trails with little indication of how this will reduce traffic. If anything, we can predict an increase in accidents. Prevention of crashes along with road/path maintenance should be set as priority for TPO planning.

21 days ago

Reducing traffic in and around St. Augustine.

22 days ago

We need more sidewalks and bike lanes.

23 days ago

We need more sidewalks and bike lanes. All new roads should be required to have these. Developers should have to pay into this infrasturcture.

23 days ago

Increased funding for Traffic Signal Operations, Preventative Maintenance and On-Call Maintenance.

24 days ago

2082283 SR15(US17)PARK AVE FROM DOCTORS INLET BRIDGE TO WELLS ROAD

25 days ago

29 days ago

would county return brachwalk blvd. to community allowing for gates at each end to manage traffic allowing communities to eliminate gates.... gates create artificial boundaries between neighborhoods

29 days ago

Thank you for reaching out and for your interest in local infrastructure projects. We understand how important these developments are to your community. While we're happy to assist with questions related to state and federal transportation projects, decisions about county-level projects—including planning, funding, and implementation—are made by your county government.

We encourage you to contact your county's public works or transportation department directly for the most accurate and up-to-date information on the project you're asking about. They'll be best equipped to provide details and address your concerns.

If you have any questions about state or federal projects, we're here to help!

27 days ago 

Anything to do with improving cycling.

one month ago

What comments do you have about your #2 most important project listed above?

Admitting the problem can help us move towards a solution. Pricing in negative externalities might change the "fiscal diligence" eg a \$5 million dollar road seems more expensive if you factor in \$20 million of medical expenses.

14 days ago

In addition to my other comments and suggestions, would TPO take a more systems approach and advocate for utilities to be run underground each time a road is paved? Conduct both environmental and hydrology studies prior to building. Finding a balance to preserve natural wildlife, including constructing wildlife corridors, is critical to our transportation system.

21 days ago

We need multiple satellite parking areas and shuttles to downtown and beaches.

22 days ago

Maintenance of the existing Assets is an essential and critical part of the Work Program.

24 days ago

High level of traffic on US17 in Orange Park area

25 days ago

I'd like to see more investment in regional rail, light rail, and other transit projects. Moving the train station back to downtown at the Prime Osborn is super important! I'd also like to see more investment in bike and pedestrian infrastructure.

26 days ago

This will be great for attending shows at the Amp. It would be great to have more pedestrian/bike crossing in this area.

26 days ago

Start ASAP

27 days ago

Make it happen sooner than later! If we can spend over \$1 billion on Interstate widenings, we can find money for our trails systems. And be sure to have off-road or separated connectivity up Liberty and Main Street to connect Core2Coast to downtown and the urban core.

29 days ago

probably another pipe dream.

29 days ago

I would like to see improved cycling infrastructure throughout northeast Florida. These should not be marked lanes on busy highways. They should be dedicated, separated mixed use paths that are wide and safe. Ideally they should have shade cover and allow for both commuters and tourists to enjoy.

one month ago

What is the **third** most important project for your county in the TIP? Please list the project name or number.

2082005 - SR16 FROM SR21 TO SR15(US17)

12 days ago

Complete Streets Projects

14 days ago

Sidewalks - we need more sidewalks in St John's county! Especially near the beach! My 14 year old son wants freedom outside our neighborhood but cars drive 50 miles an hour on the streets and there are no sidewalks.

19 days ago

What mechanism to you have to get public input prior to the project list being developed?

21 days ago

I don't know. Is there a list of projects somewhere?

22 days ago

All the Resurfacing Funding

improve bike and pedestrian safety and access

29 days ago

SR-16 traffic light at Stratton Rd

one month ago

What comments do you have about your #3 most important project listed above?

Walking seems a more fundamental right than driving, yet vehicles are prioritized at the expense of everything else.

14 days ago

Please see above

19 days ago

If you ask residents/visitors about Nassau County, the subject quickly moves from how beautiful to the traffic is horrible. Then someone asks for more better bridges (and one asked for a subway!) I am NOT advocating for widening or new bridge at either end of the island. That would not solve the problem with our constrained roads. Rather, education about the island is critical, establish places off island to commute, and manage growth of commercial off island rather than commercial on island attracting more vehicles. Lastly, thank you for your work and allowing participation in the survey.

21 days ago

see above

22 days ago

Pavement Condition on the State Road System, especially on I-95 has become sub-standard due to differed maintenance.

24 days ago

This is long overdue! Also the motor vehicle speed could be lowered and/or enforced because people drive like wild on that road.

26 days ago

Na

27 days ago

Likewise, get it built. This would provide a crucial connection from the Emerald Trail in the core to the Baldwin Rail Trail out west. We will not see the true commuting benefits of these trails until we make the regional connections that connect destinations with homes.

29 days ago

make/keep biking and running safe

29 days ago

make biking safer

29 days ago

YOE	Year of Estimate

1.0 Introduction

Creating the Cost Feasible Plan for the North Florida TPO involved assessing the broader transportation system requirements against the available financial resources allocated for mobility initiatives. The aim of this plan is to illustrate the practical execution of the approved transportation strategy, aligning it with both public and private funding expected to support its implementation effectively.

This aligns with the stipulations outlined in Federal and State guidelines for the formulation of LRTPs, mandating that transportation plans crafted for urbanized regions adhere to financial limitations. Additionally, the Cost Feasible Plan must accurately reflect the anticipated "Year of Expenditure" for each project.

The Cost Feasible Plan sets out the priorities for necessary mobility projects and highlights the community's commitment to investing in various modes of transportation. How an area opts to allocate its limited financial resources provides a clear indication of its long-term priorities for mobility enhancements, serving as a means to achieve community goals such as enhancing quality of life, fostering economic development, and preserving the environment.

The development of the Cost Feasible Plan involved active participation from the North Florida TPO, its partners, advisory committees, the LRTP Steering Committee, and members of the public. This engagement occurred through a series of public outreach activities, Steering Committee meetings, advisory committee sessions, a project specific website, and a formal public hearing. **The North Florida TPO officially adopted the 2050 Cost Feasible Plan on November 06, 2024.**

2.0 How are projects funded?

Transportation projects in Florida are typically funded through a combination of federal, state, and local sources. Here's an overview of how transportation projects are funded in Florida:

Federal Funding: The federal government plays a significant role in funding transportation projects in Florida through various programs administered by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA). These funds are typically allocated to states based on formulas that consider factors such as population, road mileage, and transit ridership. In Florida, federal funding supports highway construction, maintenance, public transit, and other transportation-related initiatives.

State Funding: The FDOT is responsible for planning, designing, constructing, operating, and maintaining the state's transportation infrastructure. FDOT receives funding from various state sources, including fuel taxes, vehicle registration fees, toll revenues, and general fund appropriations. These funds are used to support a wide range of transportation projects, including highway expansion, bridge repairs, public transit improvements, and bicycle/pedestrian infrastructure.

Local Funding: Local governments in the North Florida TPO region also contribute to transportation funding through a variety of mechanisms. These may include local option sales taxes, impact fees, property taxes, and bonds. Local transportation agencies work closely with FDOT to identify priority projects and secure funding to implement them. Local funding is often used to support projects that address specific community needs and priorities, such as road maintenance, intersection improvements, and transit service enhancements.

Public-Private Partnerships (P3): In recent years, Florida has increasingly turned to public-private partnerships as a means of financing transportation projects. These partnerships involve collaboration between government agencies and private sector entities to finance, design, build, operate, and maintain transportation infrastructure. P3s can help accelerate project delivery, reduce costs, and transfer risk to the private sector. Examples of P3 projects in Florida include tolled express lanes, airport expansions, and transit-oriented developments.

Grants and Loans: In addition to federal, state, and local funding, transportation projects in Florida may also receive grants and loans from various sources. These could include competitive grant programs administered by federal or state agencies, as well as financing assistance from organizations such as the Florida Infrastructure Bank or the State Infrastructure Bank. Grants and loans can help supplement other funding sources and make projects financially viable.

Overall, transportation funding in Florida involves a diverse mix of revenue streams, with contributions from the federal government, state government, local governments, private sector partners, and other sources. Coordination among multiple stakeholders is essential to secure

funding, prioritize projects, and deliver critical transportation infrastructure improvements across the state.

In order to receive these funds, transportation projects in the North Florida TPO area must be included in a number of documents. Below is a flow chart depicting the path a project follows from planning to construction.

2.1 Available Financial Resources

The 2050 Plan is mandated by federal law to be financially viable. This section provides a comprehensive overview and analysis of the financial resources available at the federal, state, and local levels. It also evaluates the current utilization of financial resources in the North Florida TPO area, assessing their effectiveness and identifying programmatic funding opportunities.

The subsequent tables offer a summary of funds accessible for the 2050 LRTP from existing sources. The Florida Department of Transportation (FDOT) has formulated revenue projections for state and federal transportation funds earmarked for the North Florida TPO up to the year 2050. These projections are derived from a statewide assessment of revenues supporting the state transportation

program and align with the "Financial Guidelines for MPO Long Range Plans" endorsed by the Metropolitan Planning Organization Advisory Council (MPOAC). The forecast primarily considers recent federal legislation and variations in various factors influencing state revenue streams and existing policies.

2.1.1 Transportation Improvement Program (TIP) FY 2024/25-2028/29

As the metropolitan transportation planning process is inherently ongoing, documenting the current project funding outlined in the North Florida TPO's Transportation Improvement Program (TIP) serves as an initial roster of projects and phases committed until the end of Fiscal Year (FY) 2028/29. Estimating revenue for the 2050 LRTP commences from where the current TIP concludes. Adhering to the directives outlined in the Federal Strategies for Implementing Requirements for LRTP Updates for Florida MPOs (January 2018), commonly known as the Federal Expectations Letter, the financial assumptions for the 2050 LRTP encompass the following:

FDOT-provided revenues for overlapping years with the TIP have been proportionally adjusted to eliminate potential overestimations, ensuring accurate fiscal constraint in formulating the 2050 Cost Feasible MTP.

Revenue estimates encompass a minimum 20-year period and integrate data from the TPO's FY 2024/25-2028/29 TIP, covering the initial five years of this period.

Projects slated for inclusion in the 2050 LRTP will be featured in the Cost Feasible Plan based on their scheduling and funding approval by the TPO Board.

2.1.2 State and Federal Funds

The Florida Department of Transportation (FDOT) has provided revenue estimates for use in the development of the 2050 LRTP Update. These forecasts have produced a 27-year total for state and federal revenue sources of \$1.192 billion for highways (non-Strategic Intermodal System (SIS)) and transit projects as shown below in **Table 1**. These sources have historically been used by the TPO during the preparation of the LRTP.

Table 1 - North Florida TPO Revenue Forecast Summary (Millions of \$)

Program Funding Source:	Time Periods (Fiscal Years)					
	2023/24- 2024/25	2025/26- 2029/30	2030/31- 2034/35	2035/36- 2039/40	2040/41- 2049/50	27-Year Total 2024/25- 2049/50
FEDERAL						
STBG (SU, in TMA with population > 200K)	\$ 34.67	\$ 81.12	\$ 79.33	\$ 79.33	\$ 158.66	\$ 433.11
TA (TALU, in TMA with population > 200K)	\$ 5.73	\$ 14.47	\$ 14.49	\$ 14.49	\$ 28.98	\$ 78.17
CRP (CAEU, in TMA with population > 200K)	\$ 5.09	\$ 12.04	\$ 12.03	\$ 12.03	\$ 24.07	\$ 65.26
STATE						
SHS (non-SIS on TMA)	\$ 18.61	\$ 52.45	\$ 50.06	\$ 52.04	\$ 105.94	\$ 279.10
FEDERAL/STATE						
Other Roads (Non-SIS/SHS)	\$ 6.84	\$ 17.29	\$ 30.59	\$ 31.82	\$ 64.79	\$ 151.34
Transit Formula	\$ 11.48	\$ 31.54	\$ 34.10	\$ 35.65	\$ 72.72	\$ 185.49
TOTALS	\$ 82.42	\$ 208.91	\$ 220.60	\$ 225.36	\$ 455.16	\$ 1,192.45

2.1.3 Local Funding

Local gas taxes in Northeast Florida, like in many regions, play a crucial role in funding transportation infrastructure and related projects. Revenue generated from these taxes is then allocated towards maintaining, improving, and expanding transportation networks, including roads, bridges, public transit systems, and other transportation-related initiatives. The table below presents the local fuel taxes in the North Florida TPO region.

Table 2 - Local Fuel Tax

County	Ninth Cent	Local Option	Additional Local Option
Clay	1 ¢ per gallon	6 ¢ per gallon	5 ¢ per gallon
Duval	1 ¢ per gallon	6 ¢ per gallon	5 ¢ per gallon
Nassau	1 ¢ per gallon	6 ¢ per gallon	5 ¢ per gallon
St. Johns	0 ¢ per gallon	6 ¢ per gallon	0 ¢ per gallon

While each county within the study area collects local motor fuel taxes, these revenues are primarily used for maintenance activities.

3.0 Cost Estimation Methodology

To develop project cost estimates for all capacity projects in the adopted Needs Plan, assistance was provided by the TPO staff, FDOT staff, and local government staff. Various sources of information were utilized, including:

Project costs were primarily based on estimates using the FDOT general costs per mile, a publication from the FDOT Central Office that is regularly updated based on actual costs incurred by the Districts. When specific data was unavailable from a PD&E study, assumptions were made about the costs per mile for new construction or widening of an existing facility, considering whether the project was in an urban or rural area.

Costs for capacity enhancements, shared-use paths, sidewalks, and mid-block crossings were determined based on average unit costs per centerline mile according to facility type and improvement category. These calculations used Long Range Estimates (LRE) from FDOT and historical costs from FDOT's Five-Year Work Program. Similarly, safety enhancement costs were based on approximate estimates for common improvements like median alterations, crosswalk installations, and advanced intersection warning signs.

Project cost estimates were developed for each project phase, which typically include:

1. Project Development and Environmental (PD&E) Study:

Evaluates corridor alternatives, solicits public input, and receives concept approvals.

2. Final Design (Preliminary Engineering): Development of detailed design drawings for the selected corridor concept.

3. Right-of-Way (ROW): Involves purchasing land and easements needed for construction and wetland or drainage mitigation.

4. Construction: Actual construction of the mobility project.

5. Construction Engineering and Inspection (CEI): Inspection of the construction project to ensure compliance with final design specifications.

The total project cost is the sum of costs for all these phases. Estimates for each phase were assumed within a range of the percentage of construction costs, as follows:

Each project was reviewed to determine its complexities and issues to estimate the appropriate percentage for each phase. Construction costs, when possible, were obtained from authoritative studies like the Florida Strategic Intermodal System (SIS), local Capital Improvement Programs (CIP), or the FDOT Work Program. The project costs presented in this technical report were estimated by applying the mentioned assumptions to PD&E, final design, ROW, or construction costs obtained from these sources.

Table 3 - Estimated Project Improvement Phase/Unit Costs per Mile

Project Type	Estimated Cost Per Mile
Rural	
New Construction Undivided 2 Lane Rural Road with 5' Paved Shoulders	\$6,478,000.00
New Construction Undivided 3 Lane Rural Road with 5' Paved Shoulders, Center Turn Lane	\$7,900,000.00
New Construction Undivided 4 Lane Rural Road with 5' Paved Shoulders	\$9,480,000.00
New Construction Divided 4 Lane Rural Road with 2' Paved Shoulders Inside and 5' Paved Shoulders Outside	\$12,640,000.00
New Construction Divided 4 Lane Rural Interstate with Paved Shoulders 10' Outside and 4' Inside	\$15,958,000.00
New Construction Undivided 5 Lane Rural Road with 5' Paved Shoulders, Center Turn Lane	\$11,060,000.00
New Construction Divided 6 Lane Rural Road with 5' Paved Shoulders Inside and Out	\$15,800,000.00
New Construction Divided 6 Lane Rural Interstate with 10' Paved Shoulders Inside and Out	\$18,960,000.00
New Construction Extra Cost for 1 Single Additional Lane on Rural Arterial	\$1,580,000.00
New Construction Extra Cost for 1 Single Additional Lane on a Rural Interstate	\$1,738,000.00
Widen Existing 2 Lane Arterial to 4 Lanes Undivided; Add 1 Lane to Each Side; 5' Paved Shoulders	\$7,110,000.00

Project Type	Estimated Cost Per Mile
Widen Existing 2 Lane Arterial to 4 Lane Divided; Resurface Existing 2 Lanes; 5' Paved Shoulders Inside and Out	\$8,058,000.00
Widen Existing 4 Lane Divided Arterial to 6 Lane Divided; Resurface Existing 4 Lanes; 5' Paved Shoulders Inside and Out	\$7,900,000.00
Widen 4 Lane Interstate to 6 Lanes (In Median); Mill and Resurface Existing; 10' Paved Shoulders Inside and Out	\$11,376,000.00
Widen 4 Lane Interstate to 6 Lanes (Outside); Mill and Resurface Existing; 10' Shoulders Outside; Widen Existing 4' Inside Shoulders to 10'	\$11,060,000.00
Widen Existing 6 Lane Divided Arterial to 8 Lane Divided; Resurface Existing 6 Lanes; 5' Paved Shoulders Inside and Out	\$8,374,000.00
Widen 6 Lane Interstate to 8 Lanes (in Median); Mill and Resurface Existing; 10' Paved Shoulders Inside and Out	\$12,640,000.00
Widen Divided Rural 4-Lane to Allow for Left Turn Lane, 300'	\$474,000.00
Widen Divided Rural 4-Lane for Right Turn Lane, 300'	\$474,000.00
Urban	
New Construction 2 Lane Undivided Urban Arterial with appropriate bike and pedestrian facilities	\$12,640,000.00
New Construction 3 Lane Undivided Urban Arterial with Center Lane and appropriate bike and pedestrian facilities	\$13,430,000.00
New Construction Undivided Urban Arterial with appropriate bike and pedestrian facilities	\$15,800,000.00
New Construction 4 Lane Urban Road with 22' Median and appropriate bike and pedestrian facilities	\$22,120,000.00
New Construction 4 Lane Divided Urban Interstate, Closed 22' Median with Barrier Wall, 10' Shoulders Inside and Out	\$33,180,000.00
New Construction 5 Lane Undivided Urban Arterial with Center Turn Lane and appropriate bike and pedestrian facilities	\$17,380,000.00
New Construction 6 Lane Urban Road with 22' Median and appropriate bike and pedestrian facilities	\$23,700,000.00
New Construction 6 Lane Divided Urban Interstate with 22' Closed Median with Barrier Wall, 10' Shoulders Inside and Out	\$35,076,000.00
New Construction Extra Cost for Additional Lane on Urban Arterial	\$4,898,000.00

Project Type	Estimated Cost Per Mile
New Construction Extra Cost for Additional Lane on Urban Interstate	\$1,738,000.00
Add 2 Lanes to Existing 2 Lane Undivided Arterial (1 Lane Each Side), with appropriate bike and pedestrian facilities	\$14,220,000.00
Widen 2 Lane Urban Arterial to 4 Lane Divided with 22' Median, appropriate bike and pedestrian facilities	\$15,800,000.00
Add 2 Lanes to Existing 3 Lane Undivided Arterial (1 Lane Each Side with Center Turn Lane and appropriate bike and pedestrian facilities	\$14,220,000.00
Widen 4 Lane Urban Divided Arterial to 6 Lane Urban Divided with 22' Median and appropriate bike and pedestrian facilities	\$14,220,000.00
Widen 4 Lane Urban Interstate with Closed Median to 6 Lanes (Outside), Mill and Resurface Existing, 10' Shoulders Outside	\$26,000,000.00
Widen 6 Lane Urban Divided Arterial to 8 Lane Urban Divided with appropriate bike and pedestrian facilities	\$16,590,000.00
Widen 4 Lane Interstate to 6 Lanes (Outside); Mill and Resurface Existing; 10' Shoulders Outside; Widen Existing 4' Inside Shoulders to 10'	\$11,060,000.00
Widen Existing 6 Lane Divided Arterial to 8 Lane Divided; Resurface Existing 6 Lanes; 5' Paved Shoulders Inside and Out	\$8,374,000.00
Widen 6 Lane Interstate to 8 Lanes (in Median); Mill and Resurface Existing; 10' Paved Shoulders Inside and Out	\$12,640,000.00
Widen Divided Rural 4-Lane to Allow for Left Turn Lane, 300'	\$474,000.00
Widen Divided Rural 4-Lane for Right Turn Lane, 300'	\$474,000.00
New Construction 2 Lane Undivided Urban Arterial with appropriate bike and pedestrian facilities	\$12,640,000.00
New Construction 3 Lane Undivided Urban Arterial with Center Lane and appropriate bike and pedestrian facilities	\$13,430,000.00
New Construction Undivided Urban Arterial with appropriate bike and pedestrian facilities	\$15,800,000.00
New Construction 4 Lane Urban Road with 22' Median and appropriate bike and pedestrian facilities	\$22,120,000.00

Project Type	Estimated Cost Per Mile
New Construction 4 Lane Divided Urban Interstate, Closed 22' Median with Barrier Wall, 10' Shoulders Inside and Out	\$33,180,000.00
New Construction 5 Lane Undivided Urban Arterial with Center Turn Lane and appropriate bike and pedestrian facilities	\$17,380,000.00
New Construction 6 Lane Urban Road with 22' Median and appropriate bike and pedestrian facilities	\$23,700,000.00
New Construction 6 Lane Divided Urban Interstate with 22' Closed Median with Barrier Wall, 10' Shoulders Inside and Out	\$35,076,000.00
New Construction Extra Cost for Additional Lane on Urban Arterial	\$4,898,000.00
New Construction Extra Cost for Additional Lane on Urban Interstate	\$1,738,000.00
Add 2 Lanes to Existing 2 Lane Undivided Arterial (1 Lane Each Side), with appropriate bike and pedestrian facilities	\$14,220,000.00
Widen 2 Lane Urban Arterial to 4 Lane Divided with 22' Median, appropriate bike and pedestrian facilities	\$15,800,000.00
Add 2 Lanes to Existing 3 Lane Undivided Arterial (1 Lane Each Side with Center Turn Lane and appropriate bike and pedestrian facilities	\$14,220,000.00
Widen 4 Lane Urban Divided Arterial to 6 Lane Urban Divided with 22' Median and appropriate bike and pedestrian facilities	\$14,220,000.00
Widen 4 Lane Urban Interstate with Closed Median to 6 Lanes (Outside), Mill and Resurface Existing, 10' Shoulders Outside	\$26,000,000.00
Widen 6 Lane Urban Divided Arterial to 8 Lane Urban Divided with appropriate bike and pedestrian facilities	\$16,590,000.00
Widen 6 Lane Urban Interstate with Closed Median to 8 Lanes (Outside); Mill and Resurface Existing; 10' Shoulders Outside	\$25,280,000.00
Suburban	
New Construction Suburban 4 Lane with Paved Shoulders Outside and Curb Median	\$12,640,000.00
Widen Existing Rural Facility to the Inside with Addition of Closed Drainage System and Median Barrier Wall	\$9,480,000.00
Widen 4 Lane Suburban Roadway with 6.5' Paved Shoulder and Convert to Curb and Gutter Out; Stripe for Bike Lane	\$7,900,000.00

Project Type	Estimated Cost Per Mile
Add 2 Lanes with Curb and Gutter Out to Existing 4 Lane Urban or Suburban Roadway with Curb and Gutter Out	\$8,058,000.00
Other	
Two Directional, 12' Shared Use Path	\$948,000.00
Rails to Trails project (12' width)	\$869,000.00
Sidewalk construction; 5' one side, 4-inch depth	\$475,580.00
Mid-Block Crossing	\$395,000.00

3.1 Year of Expenditure

For an accurate depiction of future project costs and revenue availability, financial resources within the 2050 LRTP must be presented in future-year-of-expenditure (YOE) dollars, as mandated by 23 C.F.R. 450.324(f)(11)(iv). The revenue estimates supplied by the Florida Department of Transportation (FDOT) to the North Florida TPO are already formatted in future YOE, utilizing inflation rate factors to convert present-day costs (PDC) into future years. These inflation rates, sourced from FDOT's Revenue Forecasting Guidebook, are summarized in **Table 4** and further elaborated upon in Technical Report #4, Appendix A. They are utilized for converting other projected revenue forecasts originally based on a 2023 PDC.

Table 4 - Year of Expenditure Inflation Factors

Present Day Project Cost	Time Period for Planned Project Phase Implementation			
	2029-2030	2031-2035	2036-2040	2041-2050
2024	1.10	1.29	1.56	1.94

Source: FDOT Revenue Forecasting Guidebook Appendix E

4.0 Cost Feasible Transportation Projects

Due to limited financial resources, not all transportation needs can be addressed. The compilation of necessary projects underwent scrutiny against available revenue allocated for transportation system enhancements. The Cost Feasible Plan incorporates all roads slated for construction as outlined in the North Florida TPO's Transportation Improvement Program (TIP). Furthermore, projects funded through tolls and Florida's Turnpike Enterprise, along with enhancements to FDOT's Strategic Intermodal System, are referenced within.

Certain projects are scheduled for implementation before 2029 and are categorized under the existing plus committed (E+C) transportation system. This designation signifies that funding for these projects has been secured in the TIP and is not subject to alteration as part of the 2050 LRTP. Federal, state, county, and local projects were also identified for inclusion in the Cost Feasible Plan and prioritized in alignment with FHWA's performance-based planning guidance.

4.1 State and Federal Roadways

National / State Highway System

The National and State Highway System in Florida is a critical component of the state's transportation infrastructure, playing a vital role in facilitating the movement of people and goods across the region.

National Highway System (NHS)

The National Highway System (NHS) is a network of strategic highways within the United States, including the Interstate Highway System and other roads important to the nation's economy, defense, and mobility. In Florida, the NHS includes:

1. **Interstate Highways:** Major routes like I-295, I-10, and I-95, which connect key cities and regions within Florida and link the state to other parts of the country.
2. **Strategic Highway Network (STRAHNET):** These routes are essential for the United States' strategic defense policy and provide access to major military installations, such as the ones located in Jacksonville.
3. **Intermodal Connectors:** Roads that provide access between major intermodal facilities (like ports, airports, and rail facilities) and the other components of the NHS.

Florida State Highway System (SHS)

The Florida State Highway System (SHS) comprises roads that are managed and maintained by the Florida Department of Transportation (FDOT). This includes:

1. **State Roads:** Numbered routes that cover urban, suburban, and rural areas, ensuring connectivity within the state. Examples include SR 202 (J. Turner Butler Boulevard) and SR 115, (Arlington Expressway).
2. **Florida's Turnpike System:** A network of toll roads that enhance connectivity across the state, such as First Coast Expressway currently under construction.
3. **Scenic Highways:** Designated routes that highlight Florida's scenic, historic, and cultural resources, such as the A1A Scenic and Historic Coastal Byway.

Interstate Highway and Strategic Intermodal System (SIS)

The SIS is a high priority network of transportation facilities that plays a vital role in supporting Florida's economy. The SIS was established to focus resources on transportation facilities of statewide and interregional significance.

The FDOT Systems Implementation Office produces a document set known as the SIS Funding Strategy, which includes three inter-related sequential documents that identify potential Strategic Intermodal System (SIS) capacity improvement projects in various stages of development. The combined document set illustrates projects that are funded (Year 1), programmed for proposed funding (Years 2 through 5), planned to be funded (Years 6 through 10), and considered financially feasible based on projected State revenues (Years 11 through 25).

The 2050 SIS Cost Feasible Plan represents a phased plan for capacity improvements to the SIS, utilizing forecasted revenues, guided by objectives set forth in the Florida Transportation Plan. The main purpose of the SIS CFP is to efficiently plan for and fund future capital improvements. The plan illustrates projects on the SIS that are considered financially feasible during years 11 through 25 of the SIS Funding Strategy, based on current revenue forecasts. Projects in this plan could potentially move forward into the SIS 2nd Five-Year Plan as funds become available or back out into the SIS 2050 Multimodal Unfunded Needs Plan given changes in priorities or shortfalls in projected revenue.

SIS cost feasible projects must be included in the North Florida TPO's 2050 Plan to receive funding. The SIS projects planned to be implemented through the year 2050 are identified in **Table 5**.

Table 5 - Planned SIS Projects Through Year 2050

Strategic Intermodal System (SIS) Projects										
Facility	County	From	To	Phase Funded	Improvement	TIP Years 2024-2029	Years 2029-2030	Years 2031-2035	Years 2036-2040	Years 2041-2050
I-295 (SR 9A)	Duval	at Normandy Boulevard (SR 228)		CST	Modify Interchange	\$73,000

4.2 Toll Funded Projects

The toll roads in our region allow for residents and visitors to get to their destination quickly. These corridors create a vital network that need to be evaluated constantly in order to serve the region's growing population. FDOT District 2 and the Florida Turnpike Enterprise has continued to develop and construct the First Coast Expressway (FCE, SR 23). This project is a multi-lane, limited access toll road that, once completed, will cross parts of Duval, Clay and St.

Johns counties. Expressway traffic will pass through electronic toll gantries without stopping. The gantries will contain an electronic system that will either detect the vehicle's SunPass transponder device or scan the vehicle's license plate for a toll-by-plate invoice in the mail. The total length of the proposed roadway is approximately 46 miles.

There are currently four (4) segments of the First Coast Expressway (SR 23) that are included in the 2050 Cost Feasible Plan. These are included in Table 5 above and are noted here:

1. From I-95 (SR 9) to US 17 (SR 15) – Purchase of Right-of-Way
2. From I-95 (SR 9) to east of CR 2209 – Construction
3. From East of CR 2209 to east of CR 16A Spur – Construction
4. East of CR 16A Spur to east of CR 209 – Construction

4.3 Complete Streets / Context Sensitive Solutions

The Multimodal System Roadway and Complete Streets projects (**Table 6**) situated off the state road system, yet functionally classified. These projects encompass non-capacity multimodal initiatives tailored to context sensitivity, integrating a blend of bicycle and pedestrian pathways, transit enhancements, and intersection improvements. Their aim is to enhance safety and efficiency along restricted roadways without the need for lane expansion. **Table 6** on the following page presents the Complete Street and Context Sensitive Solutions projects and programs included in the 2050 Cost Feasible Plan.

Table 6 – Complete Street and Context Sensitive Solutions Projects and Programs

Facility	County	From	To	Phases Funded	Improvement	TIP Years 2024-2029	2029-2030	2031-2035	2036-2040	2041-2050

4.4 Pedestrian and Bicycle

The Pedestrian and Bicycle cost-feasible projects and programs encompassing local and regional trail initiatives catering to cyclists and pedestrians for recreational and commuting purposes, on-street bicycle lanes, crucial sidewalk enhancements (especially for safety measures

around public schools and transit routes), and various other projects aimed at enhancing overall bicycle and pedestrian mobility. The Complete Street and Context Sensitive Solutions projects listed in Table 6 are likely to include bicycle and pedestrian projects as part of the project makeup. Additionally, the 2050 Cost Feasible Plan included box funds for Bicycle and Pedestrian projects identified in the various TPO plans and box funds for Greenways and Trails to study and implement projects from the Regional Greenways and Trails Master Plan.

4.5 Regional Transit

The 2050 Cost Feasible plan includes regional transit projects (**Table 7**) that aim to enhance connectivity, accessibility, and efficiency across the study area. These projects include additional Bus Rapid Transit routes, commuter rail service, expansion of transit services into Clay, St Johns and Nassau Counties, enhancements to the Mayport Ferry, and implementation of the U2C project in downtown Jacksonville. These projects are

designed to create a comprehensive, efficient, and sustainable regional transit network that meets the long-term mobility needs of the community, reduces congestion, and supports economic growth and environmental sustainability.

4.6 Off-System State Highway System Construction Assistance

Florida's Off-System State Highway Construction Assistance Program is designed to provide financial support and resources for the construction and maintenance of highways that are not part of the state highway system but are crucial for local and regional transportation needs.

4.7 Non-Capacity and System Preservation Programs

Non-Capacity and System Preservation Programs encompass FDOT initiatives aimed at bolstering, operating, and preserving the state highway system. These programs encompass safety, resurfacing, bridge maintenance, product support, operations and maintenance, and administrative endeavors. County-level estimates for these programs are unavailable. Instead, FDOT has pledged to allocate ample funding in the 2050 Revenue Forecast to fulfill statewide objectives and policies.

5.0 Summary

Based on projections of existing financial resources, the 2050 LRTP's Cost Feasible Plan totals \$1.1 Billion in Federal, State, and Locally funded projects. These public funds are complemented by the region's Toll Road System (FTE) investment of \$909 million in toll-funded projects by 2050. That amounts to about \$2 billion planned for transportation infrastructure investment and service provision in Northeast Florida over the next 25 years.

But as exhibited in each of the cost feasible project lists, our region's transportation needs greatly outweigh what we can afford based on current projections. Regionally our unfunded multimodal transportation needs and desires exceed \$6.6 Billion as we continue to grow and costs increase.

2050 LRTP Cost Feasible Plan by the Numbers

6.0 Plan Execution

Effective cross-sector leadership and collaboration are imperative for achieving the goals and objectives outlined in the 2050 Plan. To realize and maintain Northeast Florida's social and economic potential, our future transportation system must offer dependable access to opportunities. Addressing the region's transportation challenges requires a multifaceted approach, leveraging various tools and strategies.

In executing the 2050 Plan, the staff at the North Florida TPO will assess existing core TPO products and make necessary updates to ensure alignment between the organization's long-range plan and its immediate priorities and funding initiatives. These endeavors will be conducted in close cooperation with FDOT, TPO's Advisory Committees, and local government partners.

Purpose

The document is consistent with the Transportation Performance Measures (TPM) Consensus Planning Document developed jointly by the Florida Department of Transportation (FDOT) and the Metropolitan Planning Organization Advisory Council (MPOAC). The Consensus Planning Document outlines the minimum roles of FDOT, the MPOs, and the public transportation providers in the MPO planning areas to ensure consistency to the maximum extent practicable in satisfying the federal transportation performance management requirements.

The document is organized as follows:

- Section 1 provides a brief background on transportation performance management;
- Section 2 covers the Highway Safety measures (PM1);
- Section 3 covers the Bridge and Pavement Condition measures (PM2);
- Section 4 covers System Performance and Freight Movement measures (PM3);
- Section 5 covers Transit Asset Management (TAM) measures; and
- Section 6 covers Transit Safety measures.

Section 1

Background

1.0 Background

Transportation Performance Management (TPM) is a strategic approach to connect transportation investment and policy decisions to help achieve performance goals. Performance measures are quantitative expressions used to evaluate progress toward goals. Performance targets are quantifiable levels of performance to be achieved within a period. Federal transportation law requires state departments of transportation (DOT), MPOs, and public transportation providers to conduct performance-based planning by tracking performance and establishing data-driven targets to assess progress toward achieving goals. Performance-based planning supports the efficient investment of transportation funds by increasing accountability, providing transparency, and linking investment decisions to key outcomes related to seven national goals established by the U.S. Congress:

- Improving safety;
- Maintaining infrastructure condition;
- Reducing traffic congestion;
- Improving the efficiency of the system and freight movement;
- Protecting the environment; and
- Reducing delays in project delivery.

Federal law requires the FDOT, the MPOs, and public transportation providers to coordinate when selecting performance targets. FDOT and the MPOAC developed the TPM Consensus Planning Document to describe how these agencies will cooperatively develop and share information on transportation performance management and target setting.

Section 2

Highway Safety Measures (PM1)

2.0 Highway Safety Measures (PM1)

The first of FHWA's performance management rules establishes measures to assess fatalities and serious injuries on all public roads. The rule requires state DOTs and MPOs to annually establish targets and report performance and progress toward targets to FHWA for the following safety-related performance measures:

1. Number of Fatalities;
2. Rate of Fatalities per 100 million Vehicle Miles Traveled (VMT);
3. Number of Serious Injuries;
4. Rate of Serious Injuries per 100 million VMT; and
5. Number of Nonmotorized Fatalities and Serious Injuries.

2.1 Highway Safety Targets

2.1.1 Statewide Targets

Safety performance measure targets are required to be adopted annually. In August of each calendar year, FDOT reports targets to FHWA for the following calendar year. On August 31, 2024, FDOT established statewide safety performance targets for calendar year 2025. Table 2.1 - Statewide Highway Safety Performance Targets presents FDOT's statewide targets.

Table 2.1 - Statewide Highway Safety Performance Targets

Performance Measure	Calendar Year 2025 Statewide Target
Number of fatalities	0
Rate of fatalities per 100 million vehicle miles traveled (VMT)	0
Number of serious injuries	0
Rate of serious injuries per 100 million vehicle miles traveled (VMT)	0
Number of non-motorized fatalities and serious injuries	0

FDOT adopted a vision of zero traffic-related fatalities in 2012. This, in effect, became FDOT's target for zero traffic fatalities and quantified the policy set by Florida's Legislature more than 35 years ago (Section 334.046(2), Florida Statutes, emphasis added):

*"The mission of the Department of Transportation shall be to provide a **safe** statewide transportation system..."*

FDOT and Florida's traffic safety partners are committed to eliminating fatalities and serious injuries. As stated in the Safe System approach promoted by FHWA, the death or serious injury of any person is unacceptable. [The Florida Transportation Plan](#) (FTP), the state's long-range transportation plan, identifies eliminating transportation-related fatalities and serious injuries as the state's highest transportation priority. Therefore, FDOT established 0 as the only acceptable target for all five federal safety performance measures.

2.1.2 MPO Safety Targets

MPOs are required to establish safety targets annually within 180 days of when the FDOT established targets. MPOs establish targets by either agreeing to program projects supporting the statewide targets or developing their own quantitative targets for the MPO planning area.

The North Florida TPO, along with FDOT and other traffic safety partners, shares a high concern about the unacceptable number of traffic fatalities, both statewide and nationally. As such, on December 12, 2024, the North Florida TPO agreed to support FDOT's statewide safety performance targets for calendar year 2025, thus agreeing to plan and program projects in the TIP that, once implemented, are anticipated to make progress toward achieving the statewide targets. The safety initiatives within this TIP are intended to contribute toward achieving these targets.

2.2 Safety Trends in the MPO Area

The North Florida TPO tracks the safety performance measures every year to analyze past trends and identify regional safety issues. Tracking these measures will help to estimate the

effectiveness of future TPO transportation investment, as reflected in the TIP. The following figures show the trends from 2019 to 2023 for all five of the TPO's federal safety performance measures.

Number of Fatalities

Rate of Fatalities

Number of Serious Injuries

Rate of Serious Injuries

Non-Motorized Fatalities Serious Injuries

2.3 FDOT Safety Planning and Programming

2.3.1 Florida's Strategic Highway Safety Plan

[Florida's Strategic Highway Safety Plan](#) (SHSP), published in March 2021, identifies strategies to achieve zero traffic deaths and serious injuries. The SHSP was updated in coordination with Florida's 27 MPOs, the MPOAC, and other statewide traffic safety partners. The SHSP development process included a review of safety-related goals, objectives, and strategies in MPO plans. The SHSP guides FDOT, MPOs, and other safety partners in addressing safety and defines a framework for implementation activities to be carried out throughout the state.

Florida's transportation safety partners have focused on reducing fatalities and serious injuries through the 4Es of engineering, education, enforcement, and emergency response. To achieve zero, FDOT and other safety partners will expand beyond addressing specific hazards and influencing individual behavior to reshape transportation systems and communities to create a safer environment for all travel. The updated SHSP calls on Florida to think more broadly and inclusively by addressing four additional topics, which are referred to as the 4Is: information intelligence, innovation, insight into communities, and investments and policies. The SHSP also embraces an integrated "Safe System" approach that involves designing and managing road infrastructure to keep the risk of a mistake low and to ensure that when a mistake leads to a crash, the impact on the human body does not result in a fatality or serious injury. The five Safe System elements together create a holistic approach with layers of protection: safer road users, safer vehicles, safer speeds, safer roads, and post-crash care.

The SHSP also expands the list of emphasis areas for Florida's safety programs to include six evolving emphasis areas, which are high-risk or high-impact crashes that are a subset of an

existing emphasis area or emerging risks and new innovations, where safety implications are unknown. These evolving emphasis areas include work zones, drowsy and ill driving, rail grade crossings, roadway transit, micromobility, and connected and automated vehicles.

2.3.2 Florida's Highway Safety Improvement Program

While the FTP and the SHSP both highlight the statewide commitment to a vision of zero deaths, the Florida Highway Safety Improvement Program (HSIP) Annual Report documents statewide performance and progress toward that vision. It also lists all HSIP projects that were obligated during the reporting year and the relationship of each project to the SHSP.

As discussed above, in the 2024 HSIP Annual Report, FDOT reported calendar year 2025 statewide safety performance targets at "0" for each safety performance measure to reflect the vision of zero deaths. Annually, FHWA determines whether Florida has met the targets or performed better than the baseline for at least four of the five measures. If this does not occur, FDOT must submit an annual implementation plan with actions it will take to meet targets in the future.

On April 20, 2023, FHWA reported the results of its 2022 safety target assessment. FHWA concluded that Florida had not met or made significant progress toward its 2022 safety targets, noting that zero had not been achieved for any measure and that only three out of five measures (number of serious injuries, serious injury rate, and number of non-motorized fatalities and serious injuries) were better than the baseline. Subsequently, FDOT developed an HSIP Implementation Plan to highlight additional strategies it will undertake in support of the safety targets. [The HSIP Implementation Plan](#) was submitted with the HSIP Annual Report to FHWA on August 31, 2024.

Consistent with FHWA requirements, the HSIP Implementation Plan focuses specifically on the implementation of the HSIP as a core federal-aid highway program and documents the continued enhancements planned for Florida's HSIP to better leverage the benefits of this program. However, recognizing that FDOT already allocates all HSIP funding to safety programs - and building on the integrated approach that underscores FDOT's safety programs - the HSIP Implementation Plan also documents how additional FDOT and partner activities may contribute to progress toward zero. Building on the foundation of prior HSIP Implementation Plans, the 2024 HSIP Implementation Plan identifies the following key commitments:

- Improve partner coordination and align safety activities.
- Maximize HSIP infrastructure investments.
- Enhance safety data systems and analysis.
- Implement key safety countermeasures.
- Focus on safety marketing and education on target audiences.
- Capitalize on new and existing funding opportunities.

Florida conducts extensive safety data analysis to understand the state's traffic safety challenges and identify and implement successful safety solutions. Florida's transportation system is evaluated using location-specific analyses that evaluate locations where the number of crashes or crash rates are the highest and where fatalities and serious injuries are most

prominent. These analyses are paired with additional systemic analyses to identify characteristics that contribute to certain crash types and prioritize countermeasures that can be deployed across the system as a whole. As countermeasures are implemented, Florida also employs predictive analyses to evaluate the performance of roadways (i.e., evaluating results of implemented crash modification factors against projected crash reduction factors).

FDOT's State Safety Office works closely with FDOT Districts and regional and local traffic safety partners to develop the annual HSIP updates. Historical, risk-based, and predictive safety analyses are conducted to identify appropriate proven countermeasures to reduce fatalities and serious injuries associated with Florida's SHSP emphasis areas, resulting in a list of projects that reflect the greatest needs and are anticipated to achieve the highest benefit. While these projects and the associated policies and standards may take years to implement, they are built on proven countermeasures for improving safety and addressing serious crash risks or problems identified through a data-driven process. Florida continues to allocate all available HSIP funding to safety projects. [FDOT's HSIP Guidelines](#) provide detailed information on this data-driven process and funding eligibility.

Florida received an allocation of approximately \$156 million in HSIP funds for use during the 2024 state fiscal year from July 1, 2023 through June 30, 2024, and fully allocated those funds to safety projects. FDOT used these HSIP funds to complete projects that address intersections, lane departure, pedestrian and bicyclist safety, and other programs representing the remaining SHSP emphasis areas. This year's HSIP allocated \$134.5 million in infrastructure investments on state-maintained roadways and \$20.8 million in infrastructure investments on local roadways. A list of HSIP projects can be found in the [HSIP 2024 Annual Report](#).

Beginning in fiscal year 2024, HSIP funding is distributed among FDOT Districts based on a statutory formula. This allows the Districts to have more clearly defined funding levels, which allows them to better plan to select and fund projects. MPOs and local agencies coordinate with FDOT Districts to identify and implement effective highway safety improvement projects on non-state roadways.

2.3.3 Additional FDOT Safety Planning Activities

In addition to HSIP, safety is considered as a factor in FDOT planning and priority setting for projects in preservation and capacity programs. Data is analyzed for each potential project, using traffic safety data and traffic demand modeling, among other data. The [Florida PD&E Manual](#) requires the consideration of safety when preparing a proposed project's purpose and need as part of the analysis of alternatives. Florida design and construction standards include safety criteria and countermeasures incorporated in every construction project. FDOT also recognizes the importance of the American Association of State Highway Transportation Officials (AASHTO) Highway Safety Manual (HSM). Through dedicated and consistent training and messaging over the last several years, the HSM is now an integral part of project development and design.

FDOT holds Program Planning Workshops annually to determine the level of funding to be allocated over the next 5 to 10 years to preserve and provide for a safe transportation system. Certain funding types are further analyzed and prioritized by FDOT Central Offices after projects are prioritized collaboratively by the MPOs, local governments, and FDOT Districts; for example, the State Safety Office is responsible for the HSIP and Highway Safety Program (HSP) and the Systems Implementation Office is responsible for the Strategic Intermodal System (SIS). Both the

Safety and SIS programs consider the reduction of traffic fatalities and serious injuries in their criteria for ranking projects.

2.4 Safety Investments in the TIP

The North Florida TPO recognizes the importance of linking goals, objectives, and investment priorities to established performance objectives, and that this link is critical to the achievement of national transportation goals and statewide and regional performance targets. As such, the North Florida TPO 2050 LRTP reflects the goals, objectives, performance measures, and targets as they are available and described in other state and public transportation plans and processes; specifically, the Florida Strategic Highway Safety Plan (SHSP), the Florida Highway Safety Improvement Program (HSIP), and the Florida Transportation Plan (FTP).

- The Florida Strategic Highway Safety Plan (SHSP) is the statewide plan focusing on how to accomplish the vision of eliminating fatalities and reducing serious injuries on all public roads. The SHSP was developed in coordination with Florida's 27 metropolitan planning organizations (TPOs) through Florida's Metropolitan Planning Organization Advisory Council (MPOAC). The SHSP guides FDOT, TPOs, and other safety partners in addressing safety and defines a framework for implementation activities to be carried out throughout the State.
- The FDOT HSIP process provides for a continuous and systematic process that identifies and reviews traffic safety issues around the state to identify locations with potential for improvement. The ultimate goal of the HSIP process is to reduce the number of crashes, injuries and fatalities by eliminating certain predominant types of crashes through the implementation of engineering solutions.
- Transportation projects are identified and prioritized with the TPOs and non-metropolitan local governments. Data are analyzed for each potential project, using traffic safety data and traffic demand modeling, among other data. The FDOT Project Development and Environment Manual requires the consideration of safety when preparing a proposed project's purpose and need, and defines several factors related to safety, including crash modification factor and safety performance factor, as part of the analysis of alternatives. TPOs and local governments consider safety data analysis when determining project priorities.

The North Florida TPO TIP increases the safety of the transportation system for motorized and non-motorized users as required. The LRTP aligns with the Florida SHSP and the FDOT HSIP with specific strategies to improve safety performance focused on prioritized safety projects, pedestrian and/or bicycle safety enhancements, and traffic operation improvements to address our goal to reduce fatalities and serious injuries.

The Florida SHSP and HSIP strategies and goals are reflected in the TPO's Regional System Safety Plan that was updated in 2023. The LRTP identifies safety needs within the metropolitan planning area and provides funding for targeted safety improvements. The North Florida TPO has developed a project selection process that scores projects on a number of performance metrics. These metrics are outlined in the 2050 LRTP are consistent with those in the Congestion Management Process. These include the following:

- Goal 3: Encourage Safe and Secure Travel, which includes Objective 3.1, reduce crashes for all modes, Objective 3.2, to promote the implementation of safety and security improvements in the design or retrofit of all transportation systems. To satisfy this objective, the TPO will identify projects and programs that will enhance safety and security and lead to a reduced number of crashes and lower crash severity.

The TPO's commitment to safety is reflected in Path Forward 2050, the Long Range Transportation Plan in the Annual List of Priority Project's and in the Unified Planning Work Program. District 2 identifies high crash corridors and intersections in the List of Priority Projects for special consideration in project programming. In the Unified Planning Work Program (UPWP), the TPO studies corridors of concern to local governments who in turn request safety recommended safety enhancements. The TPO further demonstrates its commitment by contributing CM and SU funding to these projects when necessary.

All projects in this TIP support progress towards achieving the safety performance targets, through their adherence to the TPO policies, programs, and standards related to safety.

The TPO updated the Strategic Safety Plan in 2023 focusing on a priority network of interstate system facilities, expressways, other state-maintained roadways and arterials and major collectors maintained by local governments to support implementing Florida's Target Zero initiative. A comprehensive analysis was performed to identify priorities for safety projects relating to bicyclists and pedestrians, lighting, lane departure crashes, interchanges and intersections. A list of the top 25 projects were compiled based on the economic impact of each project. Projects that already had committed funding were omitted from the list. The top 25 rankings are shown below.

The North Florida TPO continues monitoring investments in the TIP and demonstrating progress toward goals and objectives. The 2025/26–2029/30 TIP includes \$3.4 billion to fund 153 projects aimed at improving safety between the four counties. These projects fall in the following categories:

- Bike lanes /Sidewalks / Trails
- Lighting
- Traffic control devices / system
- Safety projects
- Pedestrian Crossings / Push button
- Corridor & intersection improvements
- Add turning lanes
- Signing and pavement markings

The following table provides specific examples of the safety projects programmed in the TIP.

Table 2.3 - North Florida TPO Safety Project Examples

Project Number	Project Name	County	Type of Work
2093014	I-295(SR9A) FROM SOUTHSIDE CONNECTOR(SR113) TO SR202 JTB	Duval	Add Lanes & Reconstruct
2104475	SR16 FROM INTERNATIONAL GOLF PKWY TO I-95(SR9)	St. Johns	Add Lanes & Reconstruct
4435021	SRA1A (MAYPORT ROAD)	Duval	Bike Lane/Sidewalk

This TIP includes specific investment priorities that support all of the TPO's goals including safety, using a prioritization and project selection process established previously in the LRTP. The TPO's goal of reducing fatal and serious injury crashes is linked to this investment plan and the process used in prioritizing the projects is consistent with federal requirements. The TPO has long utilized an annual project ranking criteria that identifies and prioritizes projects aimed at improving transportation safety. The TPO has recently started a pilot program to aid municipalities and schools with submitting Safe Routes to Schools applications.

Because safety is inherent in so many FDOT and North Florida TPO programs and projects, and because of the broad and holistic approach FDOT is undertaking with its commitment to Vision Zero, the program of projects in this TIP is anticipated to support progress towards achieving the safety targets.

Section 3

Pavement & Bridge Condition Measures (PM2)

3.0 Pavement & Bridge Condition Measures (PM2)

FHWA's Bridge & Pavement Condition Performance Measures Final Rule, which is also referred to as the PM2 rule, requires state DOTs and MPOs to establish targets for the following six performance measures:

1. Percent of NHS bridges (by deck area) classified as in good condition;
2. Percent of NHS bridges (by deck area) classified as in poor condition;
3. Percent of Interstate pavements in good condition;
4. Percent of Interstate pavements in poor condition;
5. Percent of non-Interstate National Highway System (NHS) pavements in good condition; and
6. Percent of non-Interstate NHS pavements in poor condition.

For the pavement measures, five pavement metrics are used to assess condition:

- International Roughness Index (IRI) - an indicator of roughness (applicable to asphalt, jointed concrete, and continuously reinforced concrete pavements);
- Cracking percent – percentage of pavement surface exhibiting cracking (applicable to asphalt, jointed concrete, and continuously reinforced concrete pavements);
- Rutting - the extent of surface depressions (applicable to asphalt pavements only);
- Faulting - vertical misalignment of pavement joints (applicable to jointed concrete pavements only); and
- Present Serviceability Rating (PSR) – a quality rating applicable only to NHS roads with posted speed limits of less than 40 miles per hour (e.g., toll plazas, border crossings). States may choose to collect and report PSR for applicable segments as an alternative to the other four metrics.

3.1 Bridge & Pavement Condition Targets

3.1.1 Statewide Targets

Federal rules require state DOTs to establish two-year and four-year targets for bridge and pavement condition measures. On December 16, 2022, FDOT established 2023 and 2025 statewide bridge and pavement targets, and in September of 2024 adjusted the 2025 target for percent of NHS bridges (by deck area) in poor condition. Table 3.1 - Statewide Bridge and Pavement Condition Performance Targets presents 2023 actual performance and the statewide 2023 and 2025 targets.

Table 3.1 - Statewide Bridge and Pavement Condition Performance Targets

Performance Measure	2023 Statewide Conditions	2023 Statewide Target	2025 Statewide Target
Percent of NHS bridges (by deck area) in good condition	55.3%	≥50.0%	≥50.0%
Percent of NHS bridges (by deck area) in poor condition	0.6%	≤10.0%	≤5.0%
Percent of Interstate pavements in good condition	67.6%	≥60.0%	≥60.0%
Percent of Interstate pavements in poor condition	0.2%	≤5.0%	≤5.0%
Percent of non-Interstate pavements in good condition	50.8%	≥40.0%	≥40.0%
Percent of non-Interstate pavements in poor condition	0.5%	≤5.0%	≤5.0%

Source: 2023 Statewide Conditions fdotsourcebook.com.

In determining its approach to establishing performance targets for the federal bridge and pavement condition performance measures, FDOT considered many factors.

- Florida Statute 334.046 mandates FDOT to preserve the state's bridges and pavement to specific state-defined standards. To adhere to the statutory guidelines, FDOT prioritizes funding allocations to ensure the current transportation system is adequately preserved and maintained before funding is allocated for capacity improvements. These state statutory guidelines envelope the statewide federal targets that have been established for bridges and pavements.
- In addition FDOT also developed a [Transportation Asset Management Plan](#) (TAMP) for the state NHS bridge and pavement assets. The TAMP must include investment strategies leading to a program of projects that would make progress toward the achievement of the State's targets for asset condition and performance of the NHS. FDOT's current TAMP was submitted on December 30, 2022, and recertified by FHWA on February 23, 2023.
- Further, the federal pavement condition measures require a data collection methodology that is a departure from the methods historically used by FDOT. For bridge condition, performance is measured in the deck area under the federal measure, while FDOT programs its bridge repair or replacement work on a bridge-by-bridge basis. As such, the federal measures are not directly comparable to the methods that are most familiar to FDOT.

FDOT collects and reports bridge and pavement data to FHWA annually to track performance and progress toward the targets. The percentage of Florida's bridges in good condition is slowly decreasing, which is to be expected as the bridge inventory grows older. Reported bridge and pavement data through 2023 exceeded the established targets. FHWA determined that FDOT made significant progress toward its 2023 PM2 targets.

3.1.2 MPO Targets

MPOs must set four-year targets for the six bridge and pavement condition measures within 180 days of FDOT's established targets. MPOs can either agree to program projects in support of the statewide targets or establish their own quantifiable targets for one or more measures in their planning area.

On February 13, 2025, the North Florida TPO agreed to support FDOT's statewide bridge and pavement performance targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the statewide targets.

3.2 Bridge & Pavement Investments in the TIP

The North Florida TPO TIP reflects investment priorities established in the Path Forward 2050 LRTP. Bridge and pavement investments in the TIP support Goal 6 of the Long Range Transportation Plan as shown below:

GOAL 6: PRESERVE AND MAINTAIN OUR EXISTING SYSTEM

Preserving and maintaining the existing system is integral to the optimization of mobility. The Federal Highway Administration (FHWA) and Florida Department of Transportation (FDOT) established formal goals and objectives for systems preservation that are proposed for adoption as part of this LRTP.

In addition, the objective of the systems preservation and maintenance goal is to provide a transit fleet that meets Federal Transit Administration's (FTA's) requirements for system preservation, vehicle age, and maintenance.

The objectives for preserving and maintaining the existing system are listed below.

OBJECTIVE 6.1: Maintain and update roadways to current standards.

Performance Measure		Benchmark
6.1.1	Percent of Interstate Pavement in Good Condition	Maintain or improve percent of interstate pavements in good condition > 60%
6.1.2	Percent of Interstate Pavement in Poor Condition	Maintain or reduce percent of interstate pavements in poor condition < 5%
6.1.3	Percent of Non-Interstate Pavement in Good Condition	Maintain or improve percent of non-Interstate NHS pavements in good condition > 40%
6.1.4	Percent of Non-Interstate Pavement in Poor Condition	Maintain or reduce percent of non-interstate NHS pavements in poor condition < 5%
6.1.5	Percent of NHS bridges classified as in good condition	Maintain or improve percent of NHS Bridges classified as in Good condition by deck area > 50%
6.1.6	Percent of NHS bridges classified as in Poor condition	Maintain or improve percent of NHS Bridges classified as in Poor condition by deck area - < 10%

The focus of the North Florida TPO's investments in bridge and pavement condition include bridge replacement or reconstruction, new bridge capacity on the NHS, pavement replacement or reconstruction and new NHS lanes or widenings, including resurfacing existing lanes associated with new capacity. Specific projects within the TIP are listed below:

By advancing these projects, and other system preservation projects included in the North Florida TPO TIP, it is expected that progress will be made towards achieving the targets set in this section.

The TIP devotes a significant amount of resources to projects that will maintain bridge and pavement condition performance. Investments in bridge and pavement condition include bridge replacement and reconstruction, pavement replacement and reconstruction, and new bridge and pavement capacity. The TIP will fund \$831 million for bridges, \$685 million for resurfacing, and \$1.7 billion for new capacity.

The projects included in the TIP are consistent with FDOT's Five Year Work Program. Therefore, they reflect FDOT's approach of prioritizing funding to ensure the transportation system is adequately preserved and maintained. Per federal planning requirements, the state selects projects on the NHS in cooperation with the TPO from the approved TIP. Given the significant resources devoted in the TIP to pavement and bridge projects, the TPO anticipates that once implemented, the TIP will contribute to progress towards achieving the statewide pavement and bridge condition performance targets.

Section 4

System Performance, Freight and Congestion Mitigation & Air Quality Improvement Program Measures PM3)

4.0 System Performance, Freight, & Congestion Mitigation & Air Quality Improvement Program Measures (PM3)

FHWA's System Performance/Freight/CMAQ Performance Measures Final Rule, which is referred to as the PM3 rule, requires state DOTs and MPOs to establish targets for the following six performance measures:

National Highway Performance Program (NHPP)

1. Percent of person-miles traveled on the Interstate system that is reliable;
2. Percent of person-miles traveled on the non-Interstate NHS that is reliable;

National Highway Freight Program (NHFP)

3. Truck Travel Time Reliability Index (TTTR);

Congestion Mitigation and Air Quality Improvement Program (CMAQ)

4. Annual hours of peak hour excessive delay per capita (PHED);
5. Percent of non-single occupant vehicle travel (Non-SOV); and
6. Cumulative 2-year and 4-year reduction of on-road mobile source emissions (NO_x, VOC, CO, PM₁₀, and PM_{2.5}) for CMAQ-funded projects.

Because all areas in Florida meet current national air quality standards, the three CMAQ measures do not apply in Florida. Below is a description of the first three measures.

The first two performance measures assess the percent of person-miles traveled on the Interstate or the non-Interstate NHS that are reliable. Reliability is defined as the ratio of longer travel times to a normal travel time over all applicable roads, across four time periods between the hours of 6 a.m. and 8 p.m. each day.

The third performance measure assesses the reliability of truck travel on the Interstate system. The TTTR assesses the reliability of the Interstate network by comparing trucks' worst travel times against the travel times they typically experience.

4.1 System Performance and Freight Targets

4.1.1 Statewide Targets

Federal rules require state DOTs to establish two-year and four-year targets for the system performance and freight targets. On December 16, 2022, FDOT established 2023 and 2025 statewide performance targets, and in September 2024, adjusted the 2025 targets for percent of person miles traveled on the Interstate and on the non-Interstate NHS that are reliable. Table 4.1 - Statewide System Performance and Freight Targets presents 2023 actual performance and the 2023 and 2025 statewide targets.

Table 4.1 - Statewide System Performance and Freight Targets

Performance Measure	2023 Statewide Conditions	2023 Statewide Target	2025 Statewide Target
Percent of person-miles traveled on the Interstate system that are reliable	82.8%	≥75.0%	≥75.0%
Percent of person-miles traveled on the non-Interstate NHS that are reliable	89.1%	≥50.0%	≥60.0%
Truck travel time reliability (Interstate)	1.48	1.75	2.00

Source: 2023 Statewide Conditions fdotsourcebook.com.

FDOT collects and reports reliability data to FHWA annually to track performance and progress toward the reliability targets. Actual performance in 2023 was better than the 2023 targets.

System performance and freight are addressed through several statewide initiatives:

- Florida's Strategic Intermodal System (SIS) comprises transportation facilities of statewide and interregional significance. The SIS is a primary focus of FDOT's capacity investments and is Florida's primary network for ensuring a strong link between transportation and economic competitiveness. These facilities, which span all modes and include highways, are the workhorses of Florida's transportation system and account for a dominant share of the people and freight movement to, from, and within Florida. The SIS includes 92 percent of NHS lane miles in the state. Thus, FDOT's focus on improving the performance of the SIS goes hand-in-hand with improving the NHS, which is the focus of the FHWA's TPM program. The [SIS Policy Plan](#) was updated in early 2022, consistent with the updated FTP. The SIS Policy Plan defines the policy framework for designating which facilities are part of the SIS, as well as how SIS investment needs are identified and prioritized. The development of the SIS Five-Year Plan by FDOT considers scores on a range of measures, including mobility, safety, preservation, and economic competitiveness, as part of FDOT's Strategic Investment Tool (SIT).
- In addition, the [Florida Mobility and Trade Plan](#) (FMTP) defines policies and investments that will enhance Florida's economic development efforts into the future. The FMTP identifies truck bottlenecks and other freight investment needs and defines the process for setting priorities among these needs to receive funding from the National Highway Freight Program (NHFP). Project evaluation criteria tie back to the FMTP objectives to ensure high-priority projects support the statewide freight vision. In May 2020, FHWA approved the FMTP as FDOT's State Freight Plan. An update to the FMTP will be adopted in 2025.

4.1.2 MPO Targets

MPOs must establish four-year targets for all three performance measures. They can either agree to program projects that will support the statewide targets or establish their own quantifiable targets for one or more measures for their planning area.

On February 13, 2025, the North Florida TPO agreed to support FDOT's statewide system performance and freight targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the statewide targets.

4.2 System Performance and Freight Investments in the TIP

The North Florida TPO has a long history of investing in technology to improve system performance. The TPO has upgraded signal controllers throughout the region, procured BlueToad devices to monitor the performance of major arterials throughout the region, paid for the installation of wind sensors on bridges throughout the region and funded construction of the regional transportation management center. Real-time data is available to the public on the TPO's website.

Since 2014 and the completion of the 2013 Congestion Management Process (CMP) the North Florida TPO has reported annually on progress made in achieve performance measures adopted in the CMP. The 2023 CMP, Path Forward 2050 and the Regional Strategic Safety Plan all included the Federal performance measures and FDOT/North Florida TPO targets. Progress made is reported in subsequent Annual Mobility Reports.

The North Florida TPO TIP reflects investment priorities established in the Path Forward 2050 LRTP. The focus of the North Florida TPO's investments that address system performance and freight include corridor improvements, intersection improvements (on NHS roads), projects evaluated in the Congestion Management Plan (CMP) and selected for the TIP, investments in transit, bicycle, or pedestrian systems that promote mode shift, freight improvements (Interstate) that increase reliability (could include improved weigh stations, addressing identified truck bottlenecks on the Interstate, etc.), TSMO/ITS projects or programs and travel demand management programs, park, and ride lots, etc. Specific projects within the TIP are listed below:

Table 4.2 - North Florida TPO System Performance Projects

The TIP devotes a significant amount of resources to programs and projects that will improve system performance and freight reliability on the Interstate and non-Interstate NHS. The TIP will fund \$47 million for intersection improvements, \$1.8 billion for congestion relief projects, \$131 million for TDM and \$120 million for TSMO projects.

The projects included in the TIP are consistent with FDOT's Five Year Work Program. Therefore, they reflect FDOT's approach of prioritizing funding to address performance goals and targets. Per federal planning requirements, the state selects projects on the NHS in cooperation with the MPO from the approved TIP. Given the significant resources devoted in the TIP to programs that address system performance and freight, the MPO anticipates that once implemented, the TIP will contribute to progress towards achieving the statewide reliability performance targets.

Section 5

Transit Asset Management Measures

5.0 Transit Asset Management Measures

5.1 Transit Asset Performance Measures

FTA's Transit Asset Management (TAM) regulations apply to all recipients and subrecipients of Federal transit funding that own, operate, or manage public transportation capital assets. The regulations define the term "state of good repair" requires that public transportation providers develop and implement TAM plans and establish state of good repair standards and performance measures for four asset categories: equipment, rolling stock, transit infrastructure, and facilities. Table 5.1 - FTA TAM Performance Measures identifies the TAM performance measures.

Table 5.1 - FTA TAM Performance Measures

Asset Category	Performance Measure
Equipment	Percentage of non-revenue, support-service and maintenance vehicles that have met or exceeded their Useful Life Benchmark
Rolling Stock	Percentage of revenue vehicles within a particular asset class that have either met or exceeded their Useful Life Benchmark
Infrastructure	Percentage of track segments with performance restrictions
Facilities	Percentage of facilities within an asset class rated below condition 3 on the TERM scale

For equipment and rolling stock classes, the useful life benchmark (ULB) is defined as the expected lifecycle of a capital asset or the acceptable period of use in service for a particular transit provider's operating environment. ULB considers a provider's unique operating environment, such as geography, service frequency, etc.

Public transportation providers must establish and report TAM targets annually for the following fiscal year. Each public transportation provider or its sponsors must share its targets with each MPO in which the public transportation provider's projects and services are programmed in the MPO's TIP. MPOs are not required to establish TAM targets annually each time the transit provider establishes targets. Instead, MPO targets must be established when the MPO updates the L RTP (although it is recommended that MPOs reflect the most current transit provider targets in the TIP if they have not yet taken action to update MPO targets). When establishing TAM targets, the MPO can either agree to program projects to support the transit provider targets or establish its own regional TAM targets for the MPO planning area. MPO targets may differ from agency targets, especially if multiple transit agencies are in the MPO planning area. To the maximum extent practicable, public transit providers, states, and MPOs must coordinate to select performance targets.

The TAM regulation defines two tiers of public transportation providers based on size parameters. Tier I providers are those that operate rail service, or more than 100 vehicles in all fixed route modes, or more than 100 vehicles in one non-fixed route mode. Tier II providers are those that are a subrecipient of FTA 5311 funds, or an American Indian Tribe, or have 100 or less vehicles across all fixed route modes or have 100 or less vehicles in one non-fixed route mode. A Tier I provider must establish its own TAM targets, as well as report performance and other data to FTA. A Tier II provider can establish its own targets or participate in a Group Plan with other Tier II

providers whereby targets are established for the entire group in coordination with a group plan sponsor, typically a state DOT.

Tier I	Tier II
Operates rail service	Subrecipient of FTA 5311 funds
OR	OR
≥ 101 vehicles across all fixed route modes	American Indian Tribe
OR	OR
≥ 101 vehicles in one non-fixed route mode	≤ 100 vehicles across all fixed route modes
	OR
	≤ 100 vehicles in one non-fixed route mode

5.2 FDOT Group TAM Plan Participants

A total of 19 public transportation providers participated in the [FDOT Group TAM Plan](#) and continue to coordinate with FDOT on establishing and reporting group targets to FTA through the National Transit Database (NTD) (**Error! Reference source not found.**). These are FDOT's Section 5311 Rural Program subrecipients. The Group TAM Plan was adopted in September 2022 and covers fiscal years 2022-2023 through 2025-2026. Group TAM Plan targets for fiscal year 2023 were submitted to NTD in September 2023. Nassau County Council on Aging/Nassau Transit is part of the group TAM plan.

Table 5.2 - Florida Group TAM Plan Participants

District	Participating Transit Providers
1	Central Florida Regional Planning Council Hendry County
2	Baker County Council on Aging Levy County Transit Nassau County Council on Aging/Nassau TRANSIT Ride Solution (Putnam County) Suwannee River Economic Council Suwannee Valley Transit Authority
3	Big Bend Transit Calhoun County Senior Citizens Association Gulf County ARC JTRANS Liberty County Transit Tri-County Community Council Wakulla Transportation
4	<i>No participating providers</i>
5	Flagler County Public Transportation Marion Transit Sumter County Transit
6	Key West Transit
7	<i>No participating providers</i>

5.3 Transit Asset Management Targets

The North Florida TPO is served by three (3) transit service providers: Jacksonville Transportation Authority (JTA), St. Johns County Sunshine Bus, and Nassau County Transit. JTA and St. Sunshine Bus are considered Tier I providers and, as such, each must develop a TAM Plan. Nassau County Transit is considered a Tier II provider and is included in the group TAM plan developed by the FDOT Public Transit Office in Tallahassee. JTA also provides transit service in Clay County as the Community Transportation Coordinator for that county.

5.3.1 Transit Agency Targets

The Jacksonville Transportation Authority (JTA) established TAM targets for each of the applicable asset categories on February 14, 2019. Table 5.3 presents the targets currently listed in their Transit Asset Management Plan. The St. Johns County Sunshine Bus established TAM targets for each of the applicable asset categories on October 20, 2018. Table 5.3b presents the targets currently listed in their Transit Asset Management Plan.

Nassau County Council on Aging/Nassau TRANSIT is part of the Group TAM Plan for Fiscal Years 2022/2023 – 2025/2026 developed by FDOT for Tier II providers in Florida. The FY 2022 asset conditions and FY 2023 targets for the Tier II providers are shown in Table 5.4.

The transit provider's TAM targets are based on the condition of existing transit assets and planned investments in equipment, rolling stock, infrastructure, and facilities. The targets reflect the most recent data available on the number, age, and condition of transit assets, and capital investment plans for improving these assets. The table summarizes both existing conditions for the most recent year available, and the current targets.

Table 5.3 - Transit Asset Management Targets for JTA

Asset Category - Performance Measure	Asset Class	FY 2024 Asset Condition	FY 2025 Target
Rolling Stock			
Age - % of revenue vehicles within a particular asset class that have met or exceeded their ULB	Buses (JTA/CC)	16%	20%
	Cutaways (JTA/CC)	76%	69%
	Vans (JTA/CC)	12%	0%
	Automated Guideway Vehicle	67%	67%
	Ferryboat	0%	0%
Equipment			
Age - % of non-revenue vehicles within a particular asset class that have met or exceeded their ULB	Automobile	100%	100%
	Trucks and other Rubber Tire Vehicles	83%	86%
	SUVs	81%	88%
	Trucks	83%	83%
	Vans	100%	100%%
	Boats	100%	100%%
Infrastructure			
% of track segments with performance restrictions	Rail Fixed Guideway	0%	8%
Facilities			
Condition - % of facilities with a condition rating below 3.0 on the FTA Transit Economic Requirements Model (TERM) Scale	Admin/Maintenance Facilities	0%	0%
	Passenger Parking Facilities	3%	3%
	Passenger Facilities	0%	0%
	Parking Facilities	4%	4%

Table 5.4 - Transit Asset Management Targets for St. Johns County Sunshine Bus

Asset Category - Performance Measure	Asset Class	FY 2023 Asset Condition	FY 2024 Target

Age - % of revenue vehicles within a particular asset class that have met or exceeded their ULB	Cutaway	51%	17%
	Minivan	100%	0%
	Van	22%	22%
Equipment			
Age - % of non-revenue vehicles within a particular asset class that have met or exceeded their ULB	Trucks and other Rubber Tire Vehicles	0%	0%
Facilities			
Condition - % of facilities with a condition rating below 3.0 on the FTA Transit Economic Requirements Model (TERM) Scale	Admin/Maintenance Facilities	0%	0%

Table 5.5 - FDOT Group Plan Transit Asset Management Targets for Tier II Providers

Asset Category - Performance Measure	Asset Class	2023 Target	2023 Performance	2023 Difference	2024 Target
Revenue Vehicles					
Age - % of revenue vehicles within a particular asset class that have met or exceeded their Useful Life Benchmark (ULB)	Automobile	0%	66.67%	66.67	66.00%
	Bus	16.00%	12.22%	3.88	12.00%
	Cutaway Bus	7.00%	18.47%	-11.47	18.00%
	Mini-Van	26.00%	31.71%	-5.71	31.00%
	School Bus	100.0%	100.0%	0.00	0.00%
	SUV	9.00%	6.45%	2.55	6.00%
	Van	39.00%	35.71%	3.29	35.00%
Equipment					
Age - % of equipment or non-revenue vehicles within a particular asset class that have met or exceeded their Useful Life Benchmark (ULB)	Non-Revenue Automobile	100.0%	71.43%	-28.57	71.00%
	Trucks and other Rubber Tire Vehicles	6.00%	8.82%	-2.82	8.00%
Facilities					
Condition - % of facilities with a condition rating below 3.0 on the FTA Transit Economic Requirements Model (TERM) Scale	Passenger/ Parking Facilities	N/A	0%	0%	0%
	Administration / Maintenance Facilities	6.00%	9.09%	3.09	9.00%

5.3.2 MPO Transit Asset Management Targets

As discussed above, MPOs are not required to establish TAM targets annually each time the transit provider establishes targets. Instead, MPOs must revisit targets each time the MPO updates the LRTP. MPOs can either agree to program projects that will support the transit provider targets or establish separate regional TAM targets for the MPO planning area. MPO targets may differ from agency targets, especially if multiple transit agencies are in the MPO planning area.

On November 6, 2024, the North Florida TPO agreed to support the JTA and St. Johns County/Sunshine Bus TAM targets, thus agreeing to plan and program projects in the TIP that, once implemented, are anticipated to make progress toward achieving the provider's targets.

5.4 Transit Asset Management Investments in the TIP

The North Florida TIP was developed and is managed in cooperation with JTA, St. Johns County Sunshine Bus, and Nassau County Transit. It reflects the investment priorities established in the Path Forward 2050, the adopted Long Range Transportation Plan.

FTA funding, as programmed by the region's transit providers and FDOT, is used for program and products to improve the condition of the region's transit assets. The focus of the North Florida TPO's investments that address transit state of good repair include bus and other vehicle purchases and replacement, equipment purchases and replacements, retrofits and repair, rehabilitation, and replacement of transit facilities and infrastructure.

To assist the Tier 1 providers in meeting their TAM targets the North Florida TPO provides the following financial assistance annually:

- FM 4067899 St Johns County BCC STP funds for Purchase of Buses/Equipment (\$250,000)
- FM 2159233 JTA/STP Funds Duval County Purchase Buses/Equipment (\$1,000,000)

Additionally, the following projects are programmed in the TIP to aid in meeting transit asset management targets:

Table 5.6 - North Florida TPO Transit Asset Projects

Transit asset condition and state of good repair are considerations in the methodology that the North F uses to select projects for inclusion in the TIP. The TIP includes specific investment priorities that support all of the MPO's goals, including transit state of good repair, using a prioritization and project selection process established in the LRTP. This process evaluates projects that, once implemented, are anticipated to improve the transit state of good repair in the MPO's planning area. To support progress towards TAM performance targets, transit investment and maintenance funding in the LRTP Path Forward 2050 accounted for approximately 15.5 percent of total LRTP funding (not including SIS funding) and 35 percent of requested Jacksonville Transportation Authority funding for transit preservation. Improving the State of Good Repair (SGR) of capital assets is an overarching goal of this process.

The TIP devotes resources to projects that will maintain and improve transit state of good repair. Investments in transit assets in the TIP include \$120 million for vehicle and facility improvements.

The North Florida TIP has been evaluated and the anticipated effect of the overall program is that, once implemented, progress will be made towards achieving the TAM performance targets. The North Florida TPO will continue to coordinate with the JTA, St. Johns County Sunshine Bus and Nassau County Transit to maintain the region's transit assets in a state of good repair.

For more information on these programs and projects, see sections B, E and G.

Investment decisions for asset replacement in the FDOT Group TAM Plan inventory are made with the goal to maintain or improve the percentage of vehicles, equipment, and facilities in an adequate or better condition. FDOT and its subrecipient transit providers will monitor all assets for unsafe conditions. Identifying an opportunity to improve the safety of an asset, however, does not necessarily indicate an unsafe condition. If an unacceptable safety risk associated with an asset is identified, that asset will be ranked with higher investment priority to the extent practicable. The subrecipients prioritize the rehabilitation and replacement of vehicles that provide transit service over non-revenue vehicles and facilities.

Section 6

Transit Safety Performance

6.0 Transit Safety Performance

FTA's Public Transportation Agency Safety Plan (PTASP) regulations established transit safety performance management requirements for providers of public transportation systems that receive federal financial assistance under 49 U.S.C. Chapter 53.

The regulations apply to all operators of public transportation that are recipients or sub-recipients of FTA Urbanized Area Formula Grant Program funds under 49 U.S.C. Section 5307, or that operate a rail transit system that is subject to FTA's State Safety Oversight Program. The PTASP regulations do not apply to certain modes of transit service that are subject to the safety jurisdiction of another Federal agency, including passenger ferry operations regulated by the United States Coast Guard, and commuter rail operations that are regulated by the Federal Railroad Administration.

The PTASP must include performance targets for the performance measures established by FTA in the [National Public Transportation Safety Plan](#), which was published on January 28, 2017, and updated on April 9, 2024. The transit safety performance measures are:

- Total number of reportable fatalities and rate per total vehicle revenue miles by mode.
- Total number of reportable injuries and rate per total vehicle revenue miles by mode.
- Total number of reportable safety events and rate per total vehicle revenue miles by mode.
- System reliability – mean distance between major mechanical failures by mode.

Each Section 5307 or 5311 public transportation provider in Florida must develop a System Safety Program Plan (SSPP) under Chapter 14-90, Florida Administrative Code. FDOT technical guidance recommends that Florida's transit agencies revise their existing SSPPs to be compliant with the FTA PTASP requirements.¹

Each public transportation provider that is subject to the PTASP regulations must certify that its SSPP meets the requirements for a PTASP, including annual transit safety targets for the federally required measures. Once the public transportation provider establishes safety targets, it must make them available to MPOs to aid in planning. MPOs are not required to establish transit safety targets annually each time the transit provider establishes targets. Instead, MPO's establish targets when the MPO updates the LRTP (although it is recommended that MPOs reflect the current transit provider targets in their TIPs).

When establishing transit safety targets, the MPO can either agree to program projects to support the transit provider targets or establish its own regional transit safety targets for the MPO planning area. In addition, the North Florida TPO must reflect those targets in LRTP and TIP updates.

¹ FDOT Public Transportation Agency Safety Plan Guidance Document for Transit Agencies. Available at [ptasp-14-90-guidance-document_09112019.docx \(live.com\)](#)

6.1 Transit Safety Targets

The following public transportation provider(s) operate in the North Florida TPO planning area: JTA, St. Johns County Sunshine Bus, and Nassau County Transit. Of these, JTA and St. Johns County Sunshine Bus are responsible for developing a PTASP and establishing transit safety performance targets annually.

6.1.1 Transit Agency Safety Targets

The JTA and St. Johns County/Sunshine Bus both established the transit safety targets identified in Table 6.1 in July 2020. These targets are updated or affirmed annually. The values displayed in the Table reflect the latest annual update from 2024.

Table 6.1 - 2024 Transit Safety Performance Targets for JTA and St. Johns County/Sunshine Bus

Transit Mode	Fatalities (total)	Fatalities (per 100k VRM)	Injuries (total)	Injuries (per 100k VRM)	Safety Events (total)	Safety Events (per 100k VRM)	System Reliability
JTA							
Fixed Route Bus	0	0	63	0.6	35	3.5	20,000 VRM
ADA/Paratransit	0	0	9	0.2	190	4	27,500 VRM
Rail	0	0	4	3	16	12	9,440 VRM
Ferry	0	0	1	NA	1	NA	NA
St. Johns County/Sunshine Bus							
Fixed Route Bus/Paratransit	0	0	2	0.00000021	2	0.00000021	9 (total # of failures)

6.1.2 MPO Transit Safety Targets

As discussed above, MPOs are not required to establish transit safety targets annually each time the transit provider establishes targets. Instead, MPOs must revisit targets each time the MPO updates the LRTP. MPOs can either agree to program projects that will support the transit provider targets or establish separate regional transit safety targets for the MPO planning area. MPO targets may differ from agency targets, especially if multiple transit agencies are in the MPO planning area.

On November 6, 2024, the North Florida TPO agreed to support the JTA and St. Johns County/Sunshine Bus transit safety targets, thus agreeing to plan and program projects in the TIP that, once implemented, are anticipated to make progress toward achieving the provider's targets.

6.2 Transit Safety Investments in the TIP

The North Florida TPO TIP was developed and is managed in cooperation with JTA, St. Johns County Sunshine Bus, and Nassau County Transit. It reflects the investment priorities established in the Path Forward 2050 LRTP.

FTA funding, as programmed by the region's transit providers and FDOT, is used for programs and products to improve the safety of the region's transit systems. The focus of the North Florida TPO's investments that address transit safety include the following projects:

Table 6.2 - North Florida TPO Transit Safety Investments

Project Number	Project Name	Type of Work	County
4067898	ST.JOHN'S CNTY FED 5307 OPERATING GRANT	Operating For Fixed Route	St. Johns
4117591	JACKSONVILLE JTA STATE BLOCK GRANT OPERATING FUNDS	Operating For Fixed Route	Duval
4184411	ST. JOHNS COUNTY BLOCK GRANT OPERATING FUNDS	Operating For Fixed Route	St. Johns
4272561	DUVAL COUNTY FED SECT 5311 RURAL TRANSIT FUNDING	Operating/Admin. Assistance	Duval

Transit safety is a consideration in the methodology the North Florida TPO uses to select projects for inclusion in the TIP. The TIP includes specific investment priorities that support all of the MPO's goals, including transit safety, using a prioritization and project selection process established in

the LRTP. This process evaluates projects that, once implemented, are anticipated to improve transit safety in the MPO's planning area. This prioritization process is primarily driven by the strong partnership with the TPO's regional transit agencies. These agencies are included in the TPO's board and committees and have strong influence over the TIP development and LRTP direction.

The North Florida TPO TIP has been evaluated and the anticipated effect of the overall program is that, once implemented, progress will be made towards achieving the transit safety performance targets. The North Florida TPO will continue to coordinate with the JTA, St. Johns County Sunshine Bus, and Nassau County Transit to maintain and improve the safety of the region's transit system and maintain transit assets in a state of good repair.

The TIP devotes resources to projects that will maintain and improve transit safety. Investments in transit safety in the TIP include \$82 million for operating and safety programs and projects. For more information on these programs and projects, see sections B, E and G of the main TIP document.

For more information on these programs and projects, see sections B, E and G.

APPENDIX XI

TIP Review Checklist (FDOT)

FLORIDA DEPARTMENT OF TRANSPORTATION
OFFICE OF POLICY PLANNING

TRANSPORTATION IMPROVEMENT PROGRAM (TIP) REVIEW CHECKLIST

MPO: **North Florida TPO**

L RTP Submittal Date: **02/10/2025**

Review #: **1- Final**

Date of Review: **06/26/2025**

Reviewed By: **VK**

The following TIP Review Checklist is provided to assist in the review of the TIP. This Review Checklist is to be completed and included in the MPO's final TIP Document.

Comments should be categorized as:

Editorial: The MPO may address comments regarding grammatical, spelling, and other related errors, but this would not affect the document's approval.

Enhancement: Comments may be addressed by the MPO but would not affect the approval of the document, i.e., improve the quality of the document and the understanding for the public (improving graphics, re-packaging of the document, use of plain language, reformatting for clarity, removing redundant language).

Critical: The comment MUST be addressed to meet the minimum state and federal requirements for approval. The reviewer must clearly identify the applicable state or federal statutes, regulations, policies, guidance, or procedures to which the document does not conform.

If a question is categorized as Editorial, Enhancement, or Critical, a comment must accompany it. If a question is answered with "no," a comment must accompany it.

TIP Formatting and Content

- Does the cover page include the MPO name, address, and correct fiscal years and provide a location to add the date of adoption? Address can be listed on the subsequent pages as needed. **Yes** | If yes, page number: **Cover page & Approval signature page**
No comment | Click or tap here to enter text.
- Does the Table of Contents show the title of each section with the correct page number? **Yes** | If yes, page number: **Table of Contents**
No comment | Click here to enter comments
- Does the TIP include an endorsement that it was developed following state and federal requirements and include the date of official MPO approval? This would be an MPO resolution or signed signature block on the cover.
Yes | If yes, page number: **Approval signature page**
No comment | Click here to enter comments

- Does the TIP include a list of definitions, abbreviations, funding, phase codes, and acronyms? **Yes** | If yes, page number: **Abbreviations & Acronyms pg. A1-1 (Appendix A1), Fund Code pg. II-1 (Summary of Projects by funding category),**
No comment | [Click here to enter comments](#)
- Does the TIP begin with a statement of purpose (provide a prioritization of projects covering a five-year period consistent with the LRTP, containing all transportation projects funded with FHWA & FTA funds and regionally significant projects regardless of funding source)? [23 CFR 450.326(a)]; [49 USC Chapter 53] **Yes** | If yes, page number: **Pg. I-1**
No comment | [Click here to enter comments](#)
- Did the MPO develop the TIP in cooperation with the state and public transit operator(s), who provided the MPO with estimates of available federal and state funds for the MPO to develop the financial plan? [s. 339.175(8) FS]; [23 CFR 450.326(a)] **Yes** | If yes, page number: **Pg. I-2**
No comment | [Click here to enter comments](#)
- Does the TIP demonstrate sufficient funds (federal, state, local, and private) to implement proposed transportation system improvements, and identify any innovative financing techniques by comparing revenues and costs for each year? It is recommended that the TIP include a table(s) that compares funding sources and amounts, by year, to total project costs. [23 CFR 450.326(k)]; [23 CFR 450.326(j)]; [s. 339.175(8)(c)(3) FS] **Yes** | If yes, page number: **Pg. III-1**
No comment | [Click here to enter comments](#)
- Does the TIP describe the project selection process and state that it is consistent with federal requirements in 23 CFR 450.332(b) and 23 CFR. 450.332(c) for non-TMA MPOs? **Yes** | If yes, page number: **Pg. I-2 – I-4**
No comment | [Click here to enter comments](#)
- Does the TIP identify the MPO's criteria and process for prioritizing projects from the LRTP (including multimodal tradeoffs) for inclusion in the TIP and explain any changes in priorities from the previous TIP? The MPO's TIP project priorities must be consistent with the LRTP. [23 CFR 450.326(n)(1)] **Yes** | If yes, page number: **Pg. I-3**
No comment | [Click here to enter comments](#)
- Does the TIP describe how projects are consistent with the MPO's LRTP and, to the extent feasible, with port and aviation masterplans, public transit development plans, and approved local government comprehensive plans for those local governments located within the MPO area? [s. 339.175(8)(a) FS] For consistency guidance, see [Section 1. Florida LRTP Amendment Thresholds](#) and [Section 2. Meeting Planning Requirements for NEPA Approval](#). **Yes** | If yes, page number: **Pg. I-2**
No comment | [Click here to enter comments](#)

- Does the TIP cross-reference projects with corresponding LRTP projects when appropriate? [s. 339.175(8)(c)(7) FS] **Yes** | If yes, page number: **L RTP numbers located on various projects throughout TIP document and corresponding LRTP list located in appendix VII**
No comment | Click or tap here to enter text.
- Does the TIP include the FDOT Annual List of Obligated Projects or a link? The annual listing is located for download [HERE](#). [23 CFR 450.334]; [s. 339.175(8)(h), FS] **Yes** | If yes, page number: **Pg. A5-1 (Appendix V)**
No comment | Click here to enter comments
- Was the TIP developed with input from the public? [23 CFR 450.316]; [23 CFR 450.326(b)]; The document should outline techniques used to reach citizens (flyers, websites, meeting notices, billboards, etc.) **Yes** | If yes, page number: **Pg. I-4 – I-5 & A6-1**
No comment | Click here to enter comments
- Does the TIP discuss the MPO's current FDOT annual joint certification and past FHWA/FTA quadrennial certification (for TMA MPOs)? For TMA MPOs the TIP should include the anticipated date of the next FHWA/FTA quadrennial certification. **Yes** | If yes, page number: **Pg. I-5**
No comment | Click here to enter comments
- Does the TIP discuss the congestion management process? All MPOs are required to have a congestion management process that provides for the effective management and operation of new and existing facilities using travel demand reduction and operational management strategies. [s. 339.175(6)(c)(1), FS] **Yes** | If yes, page number: **Pg. I-5 – I-6**
No comment | Click here to enter comments
- Does the TIP discuss the development of Transportation Disadvantaged (TD) services, a description of costs and revenues from TD services, and a list of improvements funded with TD funds? [s. 427.015(1) FS and 41-2.009(2) FAC] **Yes** | If yes, page number: **Pg. I-7 – I-8 & Pg. A8-1 (Appendix VII)**
No comment |
- Does the TIP discuss how once implemented, the MPO will make progress toward achieving the performance targets for:
 - ✓ Safety performance measures
 - ✓ System performance measures
 - ✓ Bridge performance measures
 - ✓ Pavement performance measures
 - ✓ State asset management plan, including risk to off-system facilities during emergency events (if applicable)
 - ✓ State freight plan

If the MPO incorporated the [TIP Performance Measures Template](#) directly or adapted it to suit their needs, they would have met the requirements. [23 CFR 450.326(c)] **Yes** | If yes, page number: **Pg. A10-1 (Appendix X)**
No comment | Click here to enter comments

- Does the TIP discuss the anticipated effect of achieving the performance targets identified in the LRTP, linking investment priorities to those performance targets for:
 - ✓ Safety performance measures
 - ✓ System performance measures
 - ✓ Bridge performance measures
 - ✓ Pavement performance measures
 - ✓ State asset management plan
 - ✓ State freight plan

If the MPO incorporated the [TIP Performance Measures Template](#) directly or adapted it to suit their needs, they would have met the requirements. [23 CFR 450.326(d)] **Yes** | If yes, page number: **Pg. A3-1 (Appendix III) & Pg. A10-1 (Appendix X)**

No comment | [Click here to enter comments](#)

- Does the TIP include all Federal discretionary grants that fund capital projects under Title 23 or Title 49, USC, per the Infrastructure Investment and Jobs Act (IIJA)? Federal discretionary grants that fund capital projects must be in the TIP before executing a grant agreement with USDOT. For more information, see this [link](#). **Yes** | If yes, page number: **Pg. I-3 & A-1 – I-1**

No comment | [Click here to enter comments](#)

- Does the TIP contain projects listed in FDOT's [23 CFR Part 667 Report](#)? If so, does the MPO reference the report in the TIP for that project? **Not Applicable** | If yes, page number: **N/A**

No comment | **D2 does not currently have any**

Detail Project Listing for Five Fiscal Years

- Does each project in the TIP include the following information?
 - ✓ Sufficient description of the project (type of work, termini, and length)
 - ✓ Financial Project Number (FPN)
 - ✓ Estimated total project cost and year of anticipated funding
 - ✓ Page number or identification number where the project can be found in LRTP (spot check)
 - ✓ Category of Federal Funds and source(s) of non-Federal Funds
 - ✓ FTA section number included in project title or description

Yes | If yes, page number: **A-1 – I-1**

No comment | [Click here to enter comments](#)

TIP Review

- What date did the MPO upload the document into the [Grant Application Process \(GAP\)](#) System for review by the District, Office of Policy Planning, FloridaCommerce, FTA, & FHWA? Include the date of submission in the comments. **Yes** | **Adopted Submitted- 06/18/2025**
