## OVERVIEW

The North Florida Transportation Planning Organization (North Florida TPO) Transportation Improvement Program (TIP) for Fiscal Years 2027/2028 through 2031/2032 begins with preparing a "List of Priority Projects" to be used in developing the Florida Department of Transportation's (FDOT) Tentative Five Year Work Program. The "List of Priority Projects" identifies potential projects to be funded in the new fifth year (2031/2032) of the FDOT Work Program. However, by creating the Strategic Intermodal System (SIS) and the Transportation Regional Incentive Program (TRIP) in Florida, the "List of Priority Projects" now includes potential projects to be funded in other years of the FDOT Work Program under the SIS and TRIP programs. The "List of Priority Projects" includes a prioritized listing of state highway, mass transit, aviation, intermodal, Transportation Alternative Program (TAP) and Transportation Regional Incentive Program (TRIP) projects.

The North Florida TPO expects all projects currently programmed in the FDOT Work Program to advance to the next development phase. This will ensure that the 3-C planning process (continuing, cooperative, and comprehensive) in the North Florida TPO area is being implemented, as required by federal and state statutes. If FDOT cannot complete the programmed phase and advance the project to the next logical phase, it is incumbent that the agency provides an explanation to the North Florida TPO.

## PROJECT PHASING

- Project Development and Environment (PD&E)
- Preliminary Engineering (PE)
- Right-of-Way (ROW)
- Construction (CST)

## 2050 LONG RANGE TRANSPORTATION PLAN

On November 14, 2024 the North Florida TPO adopted Path Forward 2050, a fiscally constrained Long Range Transportation Plan for Clay, Duval, Nassau and St. Johns Counties. Concurrent with this effort the following documents were prepared:

- **Environmental Justice and Environmental Mitigation**

The North TPO uses a three-step approach to environmental justice evaluation within the 2050 LRTP. This involves defining environmental justice areas within the region, identifying 2050 needs plan projects within these areas, and providing strategies to ensure these communities are not negatively impacted. This approach ensures that transportation planning is equitable and inclusive, addressing the needs and concerns of disadvantaged communities.

Projects that lie in Environment Justice Areas are indicated on the List of Region-Wide Priority Projects. Supporting documentation is available on the TPO's website.

- Region-wide priority projects in at risk areas in this report are identified by Environmental Justice areas.

- **Regional Strategic Safety Plan**

- This plan was updated. It identifies high crash corridors, high crash intersections and corridors with a high incidence of bicycle and pedestrian crashes. High crash corridors are identified on the List of Region-Wide Priority Projects. Supporting documentation is available at:

<https://northfloridatpo.com/uploads/Studies/Strategic-Safety-Plan.pdf>

- Region-wide priority projects on HIGH CRASH CORRIDORS are identified as such.

- **Congestion Management Process**

- The Congestion Management Process was updated in 2024. Supporting documentation is available at: <https://northfloridatpo.com/uploads/North-Florida-TPO-2024-CMP.pdf>

All documentation for the 2050 Long Range Transportation Plan is available on the TPO website

## LIST OF PRIORITY PROJECTS PROCESS

### Develop List of Candidate Projects (*January*)

1. A list of candidate projects is developed from the following:
  - Projects in the previous year *List of Priority Projects* not funded through construction.
  - Local County/City submittals within the North Florida TPO area
  - Local Airport and Transit Authority submittals within the North Florida TPO area
  - Concurrency Management Process
  - Public Input
  
2. Project Ranking (*February*)
  - Unless otherwise indicated, projects were initially prioritized in Path Forward 2050, the North Florida TPO's Long Range Transportation Plan adopted November 14, 2024
  - TPO Staff works with local governments to develop a preliminary List of Priority Projects to submit to the Technical Advisory Committee (TAC), Citizens Advisory Committee (CAC) and Transportation Planning Organization (TPO) Board for review and approval at the March TAC, CAC and TPO Board Meetings.
  - Mass transit and aviation projects are prioritized by the submitting agencies and are forwarded to the North Florida TPO to include in the LOPP Document.
  
3. Adopting the List of Priority Projects (*March*)
  - Following approval by the North Florida TPO, the List of Priority Projects is submitted to FDOT for use in developing the Five-Year Tentative Work Program.

# 2026 ANNUAL LIST OF PRIORITY PROJECTS

## REGION-WIDE PRIORITY PROJECTS

These region-wide projects have been selected from Path Forward 2050, the Long Range Transportation Plan adopted November 13, 2024. The projects are prioritized by each county and submitted to the TPO to be included in the priority list. The TPO includes the projects exactly as prioritized by the counties. The list contains a portion of projects that have committed construction funds and a ranked list for unfunded needs.

# 2026 ANNUAL LIST OF PRIORITY PROJECTS

## MASS TRANSIT PRIORITIES—JACKSONVILLE TRANSPORTATION AUTHORITY

These transit projects have been selected from the Jacksonville Transportation Authority's Transit Development Plan and from **Path Forward 2050**, the long range transportation plan adopted November 13, 2024. JTA relays their ranked priorities to the TPO for inclusion in our List of Priority Projects.

2026 JACKSONVILLE TRANSPORTATION AUTHORITY PRIORITIES			
Rank	Project	Description	Justification
1	<b>Vehicle Acquisition</b>	Annual SU funding	Replace new buses/rolling stock with zero and low emission buses plus related equipment
2	<b>Paratransit (CTC)</b>	Purchase paratransit equipment	Required for ADA compliance
3	<b>U<sup>2</sup>C Phase II</b>	U <sup>2</sup> C Phase II represents the full conversion of the existing Skyway Superstructure and eight stations into an elevated roadway for AVs. Launching from the Jacksonville Regional Transportation Center (JRTC) at LaVilla, the U <sup>2</sup> C elevated stations will stretch to four additional stations on the Downtown Northbank, and across the St. Johns River over the Acosta Bridge to three stations on the Downtown Southbank. Phase II also includes the street-level connection to Phase I, the Bay Street Innovation Corridor, branded the Neighborhood Autonomous Vehicle Innovation (NAVI) and an operations and maintenance facility the Autonomous Innovation Center (AIC), in the LaVilla neighborhood.	This project is to enhance connectivity and address mobility challenges within Downtown Jacksonville by modernizing the existing Skyway infrastructure and integrating advanced autonomous vehicle technologies.
4	<b>U<sup>2</sup>C Phase III</b>	The third phase of the U <sup>2</sup> C program	The third phase of the U <sup>2</sup> C program which is the development of the neighborhood extensions
5	<b>Ferry</b>	Acquisition of a ferry boat and supporting infrastructure	A new boat and its supporting infrastructure to minimize service interruptions, address useful life of current boat, and handle service expansion and/or increase.

## 2026 ANNUAL LIST OF PRIORITY PROJECTS

<b>6</b>	<b>Emerald Trail</b>	Design and construct the Emerald Trail network which contains 30 miles of green walkways and parks that encircle the Urban Core Neighborhoods and link multiple historic districts and natural resources	The trail will promote social and economic growth through pedestrian- and bicyclist-focused infrastructure and introducing microtransit along the routes with purposeful connection of schools, retail, restaurants, small business, hospitals, and other activity centers
<b>7</b>	<b>JTA Facility Decentralization and Fleet Master Plan</b>	Develop a programmatic strategy and phased implementation plan for the decentralization of JTA's operations and maintenance functions from the current Myrtle Avenue Operations Campus (MAOC) along with the development of a Zero-Emission Fleet Transition Plan	Holistic approach to the development of an efficient transportation system including the transit network and operations, the fleet, and our facilities
<b>8</b>	<b>Regional Transit Service</b>	Plan, develop, and implement regional transit services that improve connectivity between Duval County and surrounding counties, including Clay, Nassau, Baker, Putnam, and St. Johns. This includes express bus service, regional park-and-ride facilities, coordinated schedules, integrated fare systems, and partnerships with regional transit providers to support commuter travel, workforce mobility, and regional economic activity.	Regional transit services are essential to supporting Jacksonville's growing commuter shed, reducing congestion on major corridors, and providing reliable transportation options for workers traveling across county lines. Investing in regional transit strengthens economic competitiveness, expands access to employment and education, and advances equity by providing affordable alternatives to single-occupancy vehicle travel.
<b>9</b>	<b>Transit-Oriented Development</b>	Support planning, land acquisition, and infrastructure improvements that encourage compact, mixed-use, transit-oriented development around existing and planned transit corridors and stations. Activities include station area planning, zoning and policy coordination, public-private partnerships, and targeted investments in pedestrian, bicycle, and transit-supportive infrastructure.	Transit-oriented development maximizes the return on transit investments by concentrating housing, jobs, and services near high-quality transit, reducing auto dependency, and promoting sustainable growth. TOD supports economic development, increases transit ridership, and creates walkable, connected communities while preserving open space and reducing infrastructure costs. Strategic TOD investments help ensure long-term system viability and align land use decisions with Jacksonville's broader mobility objectives.

## 2026 ANNUAL LIST OF PRIORITY PROJECTS

<b>10</b>	<b>Complete Streets Projects</b>	Plan, design, and construct streets that enable safe access for all people who need to use them, including pedestrians, bicyclists, motorists, and transit riders of all ages and abilities. This includes existing unfunded Complete Streets projects such as Moncrief/Myrtle Corridor	Address mobility challenges along corridors for pedestrians, transit passengers, motorists, and bicyclists
<b>11</b>	<b>Commuter Rail Project Development</b>	Promote transit- oriented development, station area planning, and funding for Commuter Rail service on the Southeast Corridor	Project Development and Environment (PD&E) analysis is funded through the Local Option Gas Tax (LOGT), but there is no funding included for development of the locally preferred alternative and final design
<b>12</b>	<b>Vision Zero Safety Improvements</b>	Plan, design, and construct facilities/streets that reduce traffic related accidents	Strategy to eliminate all traffic fatalities and severe injuries, while increasing safe, healthy, and mobility options for all
<b>13</b>	<b>Transit Enhancements</b>	The Countywide Transit Enhancements project includes improvements to all bus stops in Duval County that are ADA non-compliant. The Northwest Jacksonville Corridor Improvements will enhance the transit user experience for underserved communities in Northwest Jacksonville by improving amenities at 111 bus stops. Additional transit enhancements will include optimizing traffic signal systems and dedicating specific lanes to transit vehicles, ensuring faster and more reliable transit service across key corridors.	The transit enhancements funded by LOGT, including the Northwest Jacksonville Corridor Enhancements and Countywide Transit Enhancements along with the additional transit enhancements, represent a critical investment in the future of Jacksonville’s public transit network.
<b>14</b>	<b>Vehicle Maintenance</b>	Comprehensive care and upkeep of buses, vans, and other transit vehicles to ensure safety, reliability, and operational efficiency and acquisition of equipment to support these efforts	A well-maintained fleet with the right equipment enhances operational efficiency, reduces service interruptions, and supports mobility goals.

## 2026 ANNUAL LIST OF PRIORITY PROJECTS

15	<b>Facilities Maintenance</b>	This project focuses on the routine maintenance and strategic upgrades of transit facilities to ensure they remain safe, functional, and aligned with operational needs. Facility maintenance includes regular inspections, cleaning, repairs, and the upkeep of critical systems such as HVAC, electrical, plumbing, and security.	Regular maintenance and strategic upgrades are essential to ensure these facilities remain safe, functional, and aligned with the evolving needs of the community.
16	<b>Skyway Maintenance</b>	Routine maintenance, system upgrades, and preventive repairs to address aging infrastructure and enhance the system's reliability, safety, and performance	Through proactive maintenance, timely repairs, and technological upgrades, the program ensures that the Skyway remains a safe, reliable, and efficient transit option for the people of Jacksonville.
17	<b>Real Estate Acquisition</b>	Acquisition of land necessary for transit projects, including the expansion of bus facilities, the development of new transit corridors, and the improvement of transportation infrastructure	These acquisitions will enable JTA to enhance its transit network, meet future growth needs, and ensure the long-term success of transportation initiatives throughout the Jacksonville region.
18	<b>Technology Upgrades</b>	This project will involve upgrading existing software and hardware infrastructure to improve operational efficiency, enhance transit services, and create a seamless and integrated transportation experience for riders. Additionally, the development of a comprehensive mobility app will enable passengers to access real-time information, track their routes, and plan trips more effectively, fostering greater engagement with public transit services.	The proposed technology upgrades, including software and hardware enhancements, along with the development of a comprehensive mobility app, will significantly advance JTA's ability to deliver reliable, convenient, and user-friendly transit services.

## 2026 ANNUAL LIST OF PRIORITY PROJECTS

### TRANSPORTATION REGIONAL INCENTIVE PROGRAM (TRIP) PROJECT PRIORITIES

The Transportation Regional Incentive Program (TRIP) is funded with Documentary Stamp funds. The North Florida TPO is the TRIP Agency for Baker, Clay, Duval, Nassau, Putnam and St. Johns Counties. This list is approved by the TRIP Agency, which includes the North Florida TPO Board and one member of the Baker and Putnam County Commissions. TRIP eligible projects include all funded projects included in the Region-Wide Priority list in addition to the projects listed below. These projects are not ranked.

2026 TRIP PRIORITIES
